CHIMNEY FIRE CAUSES PHONE CALL

A chimney fire, which did not cause a general alarm, however, was phoned in at about 8 o'clock Friday night, to which the fire company responded. The fire occurred at the home of Alfred Gabriel just across from the high school gymnasium building, but no real damage resulted. One loaded truck blanketed the engine, which had to wait until the truck got out of the road.

LIBRARY CIRCULATION GROWING

Circulation for March averaged 76 volumes a day; the reference work used in room being also very heavy. It has been found impossible for the librarian to do the work as well as she should when has this amount of material to handle in the limited hours library is open. It was very gratifying, states the board, to see in the vote conducted by International Book Review a to best books published since 1900 that the Tillamook public library has seven of the books receiving the highest vote and also has some of the writings of the eight authors having the highest vote during same period. Good suggestions

as to best plays and films are given in the Bookman each month.
