SOMEBODY SAID:

"A fish doesn't get fat on bait."

Some automobile dealers who represent a less standard make of car than BUICK, can only win business by the "appraised bait," by giving a fictitious price for a used car. Buick dealers are not compelled to do this. Our new cars carry no fictitious prices—hence our used cars must be traded in on the basis of what they are worth. We then condition these cars in a manner that will give to the next owner the same degree of satisfaction enjoyed by the new car owner. Remember—somebody pays for inflated prices. Buy your used car from us and know that you are getting value received.
