## FISH AND GAME CLUB HOLDS BIG MEETING

Prizes for Catching Fish Offered by Organization to Stimulate Interest

Tillamook county fish and game protective association gave a banquet to members and invited guests at the armory Monday, May 19. About seventy five sat down to the well laden tables. Otto Jones, publicity manager of the commission, gave a very interesting and enlightening talk. Mr. Morris, a talented entertainer enlivened the occasion with a number of anecdotes.

Eugene Crosby, president of the local organization, has just received word from Captain E. Burghdoff to the effect that there will be one million black spotted trout planted in Tillamook county streams this season. They are shipped from the hatchery at Necanicum.

One feature of the Monday evening meeting that will create much interest is the arrangement of prizes which are to be offered to fishermen as follows: prize for largest single fish caught on fly; prize for largest group of four fish caught by any legitimate tackle; first prize for largest group of four fish caught on fly; and first prize for largest of four fish caught by any legitimate tackle.

## ENCAMPMENT PLACE CHANGED TO LEWIS

Oregon national guard troops will be sent to Camp Lewis for their annual training it has been finally decided by war department officials. After the foot and mouth disease broke out in California it was thought unsafe for the Oregon men to go to Del Monte, where it had been planned to send them, and it was thought probably that they would be sent to Gearhart or Fort Stevens. Neither of these places were thought suitable by the commander of the Ninth Corps area, however, and he has ordered that the 162d and 186th Infantry, with the other Oregon troops, be sent to Camp Lewis again this year.

The Tillamook men will probably leave here on the evening of June 9.

Mr. Payne is widely known in the county and has lived in the state for many years.

Miss Edna Mills has resigned her position at the county clerk's office where she has been chief deputy for the past five years. Miss Mills has accepted a better position with a local firm, though her friends have rumored that it is a life job on the matrimonial sea she is planning.

Lincoln H. Kempton of Port Angeles, Wn., died at Broughton Springs, Saturday, May 17, aged 54 years. He had been a patient at Broughton Springs for several months, suffering from cancer of the stomach. The remains were buried here last Friday.

Henry Schild, farmer of Tillamook, won the car given by the American Legion during the Legion Frolie two weeks ago. Mr. Schild was not present at the time the winning number was announced at the armory, Saturday night, May 17, hence it was a complete surprise when he read the announcement in the local paper that the number on his ticket was the winning one.

Mr. and Mrs. Albert Marolf drove to Portland Friday afternoon to attend the funeral of Mrs. Marolf's uncle. They were accompanied by Mrs. Marolf's father and Mrs. Neiger who has been visiting here with her son.

## DEMAND STARTED IN CHEESE MARKET

### All of May Product Already Sold for Delivery Later

## CALIFORNIA GETS MOST

### Milk Receipts Are Reported As Being Very Heavy, With May Breaking Record

Cheese is moving off satisfactorily at 24 cents Tillamook for triplets and 25 cents for loaf, reports Secretary Haberlach of the creamery association. All of the May cheese has been sold and will be shipped as it has cured sufficiently.

Checks for April milk will be out June 7 unless there are too many interruptions for part payments. Butter fat prices will range close to 56 cents in the larger factories close to Tillamook where the making charges are not over 4 cents.

Ninety percent of the cheese made now is going to California, with Seattle taking a fair quantity. Other than cheese for storage purposes, the market is reported as being very slow. Wisconsin remains at 17 1-4 cents for daisies and 17 3-4 cents for longhorns, as against 23 cents for daisies and 23 1-2 cents for longhorns at this time last year.

Milk receipts continue very heavy, production for the third week in May having been 3310 boxes triplets and 368 boxes loaf. This is more cheese than Tillamook has made in one week before and is equivalent to 242,820 pounds of cheese for the week, or 34,700 pounds a day.

## WHITNEY STACKS FALL TO GROUND

While repairing one of the smoke stacks at the Whitney company's saw mill, at Garibaldi, the guys gave way, and in toppling over struck the other smoke stack, both of which crashed to the ground leaving the boilers without outlets. Had it not been for the Coast Power company connections with electricity, the saw mill would have had to close down, but arrangements were soon made where by the "juice" from this city was switched on, causing but little delay.

This is the first time that the local power company has furnished all the electricity of the Whitney company's saw mill.

Byron however became curious and decided to see if it would burn. He touched a match to it while holding it in one hand. The powder exploded in his face, burning him very badly. It was at first thought that his eyesight was lost, but aside from the bad burns on his face and hands he is suffering no injuries.

## SEVEN-FOOT EAGLE CAUGHT BY F. HUNTER

A large American grey eagle was captured near the new county fair grounds early Monday morning by Frank Hunter, rural mail carrier, while on his rounds. The bird measures from tip to tip of wings 7 feet 6 inches.

Mr. Hunter relates quite an exciting time capturing the bird, it being hungry and slightly weakened but very desperate. After several short spirited chases and a few well directed blows he was able to get it down but not until after it had left its mark on his right arm. Frank opened the door of his car and grasping the huge bird by one wing, swung it around in the air several times until it was dizzy and then hurled it straight through the door in between the seats and while in this stunned condition he hurried the bird to town, where it is now on display at King and Crenshaw's hardware store.

## BAY CITY SAWMILL PLANS ARE CHANGED

The Oregon Silver Spruce company somewhat changed its plans last week in regard to rebuilding the saw mill, which was destroyed by fire a month ago at Bay City. Having bought some of the saw mill at Hobsonville, this will be used in rebuilding. It was planned at first to have the new saw mill operated by electricity, but it seems that other arrangements were made when O. H. Schwerdtman came in from Portland. Steam will be the main power, although some electricity will be used, and with the boilers little damaged by the fire, it is thought operations will commence much sooner, as it would have taken some time to obtain electric motors from the east.

Those attending the state convention of the Federation of Oregon Women's clubs at Oregon City last week were: Mrs. W. Alderman, Mrs. C. I. Winneck, Mrs. T. E. Ashley Mrs. A. G. Beals, Mrs. A. R. Keese, and Mrs. Orpha Eastman of the Woman's club, Mrs. A. K. Case and Mrs. George Winslow of the Kill Kare Klub and Mrs. George Hanslmair of the J. U. G.

Mrs. A. N. Erskine received a telegram Thursday stating that her mother, Mrs. Judge Elwell, is seriously ill at her home in Standish, Michigan. Mrs. Erskine left at once for Portland where she will board a train for Michigan to be at her mother's bedside. The Erskine family had planned an auto trip to Michigan which will be postponed.

Mr. and Mrs. H. C. Hechtner will drive to Portland the latter part of the week. Mrs. Hechtner will go on to Ellensburg, Wn., where she will visit for a month with her parents, Mr. and Mrs. J. I. Wilson.
