CO. K MEN VISIT NATIONAL PARK

Oregon Soldiers Leave Tuesday On Return To Homes

REGIMENT INSPECTION

Two Men in Hospital With Chicken Pox and One Suffers From Broken Collar Bone

Camp Lewis, Wn. (Special)—Twenty-four Company K men and one officer formed a detachment to go on the trip to Rainier national park last Saturday and Sunday with other units of the Oregon national guard. All those who went report a very pleasant time with the exception of the long ride in trucks to and from the park, eight hours each way. Sight seeing among the snow banks, glaciers and tamed "wild animals" occupied the time of the men all of Sunday morning. This weekend another detachment will probably be sent on the same trip, as it was impractical to send the whole command at once on account of the transportation.

There are three casualties among the Tillamook men: Laurance and Michael Kehr were sent to the hospital with the chicken pox soon after arriving here, and Rexford Rowland was sent to the hospital with a broken collar bone, received while wrestling with some of the other men. It is not known yet whether these men will be discharged from the sick list in time to leave with the company next Tuesday or not.

This afternoon the 162d regiment was inspected by an officer from the headquarters of the Ninth Corps area. This inspection was to have been in the field but a fairly heavy rain prevented and the formation was held in the barracks. The rain this afternoon was the first precipitation to desecrate the name since the Oregon troops have been here. Several very light showers have occurred during the past week, however. Yesterday was a very hot day, from the standpoint of a Tillamooker.

The Oregon soldiers are scheduled to break camp next Tuesday, and it is probable that they will entrain in the morning, arriving in Portland Tuesday afternoon, where they will probably parade as they did last year. There is nothing official on this however. The Tillamook company will doubtless arrive home on the regular train, Wednesday afternoon, June 25.

Captain J. E. Shearer has been temporarily relieved from command of the company again, as last year, and has been designated Brigade Sanitary officer. His duties are the inspection of the sanitary conditions of the 82d Brigade, which is composed of the 162d and 186th infantry regiments, with other Oregon troops. Company K has been ordered to furnish the guard detail for this evening. This is probably the only guard the Tillamook soldiers will get during the encampment.

ROSE FESTIVAL DRAWS CROWD

The Rose festival in Portland came to a close Friday evening with the parade of uniformed members of the various fraternal organizations in which about 2,000 people marched to the accompaniment of fife and drum corps and bands. In the afternoon the Adeco No. 1 won the speed boat race, attaining a speed of sixty miles per hour and averaging forty miles per hour. This is the second year the Adeco has won Portland's river classic. The Sassicus took second place when the Vogler Boy V failed to finish after a bad spill that resulted from attempting too short a turn. A large crowd saw the races and the floral parade.

F. S. Whitehouse, wife and daughter Jewel, of Forest Grove, visited friends in Tillamook a few days this week.

TRIO OF LADIES LEAVE ON TRIP TO CHICAGO

First Week of Auto Trip Finds Three Tillamookers in Famous City of Utah

Having planned a motor trip to Chicago for some time, Mrs. A. C. Everson and her daughter Areta, accompanied by Miss Belle Wilson, instructor in the commercial department of the local high school, left Tillamook on Tuesday, June 10. The enclosed car in which they were traveling had been thoroughly overhauled previous to the start of the trip. But when they reached Pleasant Valley that first afternoon they found that there was trouble in the oiling system. Consequently they were forced to return to Tillamook for further repairs, which consumed about three hours time. However, determination to start that day overcame the doubtfulness of night driving and they resumed their journey at 10:30 that evening, arriving at Sheridan considerably after midnight where they camped until daylight. On Wednesday the party continued to Portland where they completed their camping equipment, as they intend to camp along the way in the various municipal auto camps, the car being arranged for comfortable sleeping quarters.

Mr. Everson has received a communication from them on each day of the trip. They left Portland on Thursday, June 12, via Columbia river highway, stopping at Pendleton that night. The trio cast aside all superstition and proceeded to Baker on Friday the 13th. Saturday found them crossing over the Snake river into Idaho, where they camped at Boise the capital city of that state. The auto camp there is reported as being the most famous of all similar parks in the northwest as regards service and convenient equipment. The next day these Tillamookers made the record run of the trip so far when they covered the one hundred sixty eight miles to Gooding, Idaho, the home of Gooding college, a reputable institution of that state.

The last communication received in the mail by Mr. Everson was written from Pocatello, Idaho, which point was reached on Monday, June 16. The roads in that country were in splendid condition, and the journey had been devoid of the slightest suggestion of trouble or mishap. Mrs. Everson reports the days to be very warm and the nights really cold. It is a little early to receive the best results from the benefits of the auto parks along the way but no great inconvenience has been experienced as yet. A telegram Thursday morning was received from Salt Lake city in which it was stated that the good fortune was evidently perpetual, and that the trio expected to pass through several points of interest within the next few days. Among them Kearney, Nebraska, where a short time will be spent in visiting relatives.

The trip is being made as directly to Chicago as possible, allowing, at the same time, adequate opportunity for sight seeing and things that go with it. At Chicago, Miss Areta, who has been in charge of the commercial department in the high school at Toledo, Oregon, will secure a resident diploma in Gregg shorthand. They expect to return in August.

FISHING SEASON OPENED JUNE 15

Tillamook Bay gill net fishermen were out at the start of the season at midnight Saturday, and opened the season with good catches of chinook salmon. With the market price of fresh salmon at a good figure the men should realize good profits from disposing of their fish. There are four packers on the bay that handle the catches and ship them to ready markets in Portland. These are conducted by Joe Mills and Fred Small of Tillamook, a cooperative company on the bay, and the fishermen's union that was organized near the close of the season last fall. They are, at present, receiving eight cents per pound for their product.

James Cameron of Forest Grove is working with the county surveyors.

EDITORS OF STATE WILL MEET HERE

Beach Outing and Trips Planned

JULY 25TH-26TH DATES

Two Hundred and Fifty Visitors From Various Parts of State Are Expected At Two Day Session

Plans for the State Editorial association convention which will be held in this city Friday and Saturday, July 25 and 26, are virtually complete. A confirmation of the program as outlined now is expected when a local representative meets with Hal E. Hoss of Oregon City, who is president of the association.

The business session will open Friday morning at the city hall and continue throughout the day. In the afternoon the women of the party will be entertained by the Woman's club. It has not been definitely decided what form this entertainment will take but it is thought that cars will take them to the beach where a noon luncheon will be served.

A banquet will be served in the evening at the army by the American Legion Auxiliary.

Saturday morning the visitors will be taken on a tour of the county which is being arranged to enable them to see the cheese factories in operation. The caravan will arrive at Garibaldi about one o'clock where the Whitney company will be host at a luncheon.

Oceanside will be the scene of festivities in the afternoon when a big gala time is planned.

It is anticipated that a great many of the visitors will remain for a vacation at the beaches following the convention, and the Kiwanis and Woman's clubs are being asked to entertain any who remain over.

John Borba of Blaine, who has been on the sick list for the past few days, is reported improving.

Marion Wallin who has been in the Tillamook general hospital for some time has been seen on the streets again.

Ben Utter, who has been with the Portland traffic department for some time, is in Tillamook visiting his sisters and friends. Mr. Utter has been away from this city for nine years. He finished the local high school in 1915.

Mr. Jesse James of Pacific City was a city visitor Monday.

HOUSING QUESTION IS A SERIOUS ONE

Key to the City Will Be Thrown Into Bay for Elks Convention

The following is copied from the "Those who Come and Go" column of the June 10 issue of the Oregonian: "I am chairman of the housing committee and I'll confess that I don't know where we will accommodate all of the Elks who will assemble in Tillamook August 14, 15, and 16, for the state convention," observed Rollie W. Watson. "We have a housing problem in Tillamook town now, because the population is increasing so fast and there are not enough residences to take care of them. There is some building going on but more is needed. As for the thousands of Elks in Oregon who will travel to Tillamook, I don't know where we will put them all. It wouldn't be a bad idea for some of them to bring their blankets. Of course, the beach resorts are not far away, but the convention will be held in the middle of the summer season when the resorts are filled with Portland families. When the Elks arrive they will not be presented with the key to the city, because before the visitors invade the town the key will be thrown into the bay. During the convention there will be celebrated the opening of the Nehalem bridge. The bridge is now completed and the approaches and overhead are under construction. The bridge celebration will include clambake, Tillamook cheese and a good time generally."

FISH HATCHERY TO BE BUILT AT BEAVER

Work has begun on the construction of a well equipped fish hatchery on the big Nestucca river at Beaver. This project was promoted by Hugh C. Mitchell, director of fish culture who has recently replaced R. E. Clanton, who formerly held that position. Mr. Mitchell has always thought this location to be the ideal place for a hatchery in this county. He has had twenty one years experience in various kinds of fish culture in connection with the government. The plant will have a capacity of 6,000,000 eggs. It will handle salmon eggs only for the first year, then after that time trout eggs will be added. The present building will be only temporary for this year, and more complete and permanent hatchery will be erected next year. Mr. Charles Buckley, who is living at the place now will be superintendent of the plant.

Mr. Jesse James of Pacific City was a city visitor Monday.

GRAND JURY HAS FOUR INDICTMENTS

Wife Beater Sentenced And Paroled on Good Behavior

CIRCUIT COURT MEETS

Dispute Over Property Line Brings Heirs Into Circuit Court For Settlement.

The circuit opened a two day session Tuesday. The grand jury returned four true bills. Berie Fieck and Charles Edmunds were indicted on a charge of being drunk at a public dance. They plead not guilty and will be tried at a future early date. Mr. Winslow is counsel for defense.

Christian Hertig, who was charged with assault and battery upon complaint of his wife plead guilty and was sentenced to pay a fine of \$500 and six months in jail. He was released on parole and payment of \$10 costs.

J. E. Manson was arraigned on a charge of possession of intoxicating liquor. He was given until July 7 to make his plea and released on bond.

Tuesday Judge Bagley heard the divorce suit of Earl Woods, of Blaine in which he also brought suit for the custody of his oldest child. He was granted the divorce decree but the mother retained the custody of both children.

Wednesday the court heard the case of Tohl versus Newberg, action to establish a line fence between two pieces of property, the Sandlake road, west of Beaver. The division in question was that of the old Harry Hays property that had been inherited by Mrs. Tohl and Mrs. Newberg. The line had been surveyed unofficially in 1892, and a fence had been built in 1907. The court deemed it necessary to look over the situation at short distance. Consequently, they went to the place in question, which is about two miles beyond the Sundquist-Norberg mill.

Dr. Elmer Allen went to Oceanside Wednesday with material to prepare for the Muscovite picnic there Sunday. He will return to his practice in Tillamook, Monday.

Mrs. Ida Latham of Salem is visiting at the home of her son John Steinbach.

Frank Heston of Garibaldi had his tonsils removed at Boal's hospital June 15.

TILLAMOOK BUILDINGS FAST DEVELOPING

Growth and Improvements of the City This Summer Show Prosperity in Business

Watching Tillamook grow is one of the most gratifying sights that can meet the eye of even the most casual onlooker. Keen observation is not at all necessary for an interested party to see the improvements that are going on in our city. Just a short review of some of them may be of interest to the Headlight's readers.

The Brown service station on First street has installed one of the two new air pressure gasoline pumps that will be in operation when the improvements as planned are completed. A. C. Brown, the manager, is also having a new oil shed built that will house twelve oil tanks; the main part of the service station has been turned so that it is now square with the world. It will be placed on a new concrete floor and the drive-way will also be improved. Mr. Brown expects the work to be completed sometime next week.

The Coast Power company have been replacing poles on Second street with new higher poles. This work is preparatory to the general remodeling plan they have in view for the entire wiring system in the business district of the city, which work will begin in about two weeks.

The walls and roof of the addition on the Boals hospital have been up for several days and the finishing work is progressing satisfactorily.

The forms for the concrete walls of the Watson building are being erected and concrete pouring will soon begin.

The basement of the Gruenewald building has been dug during the past week and the forms are being built.

The Link garage can be seen from almost anywhere in the south end of town. It is being finished inside rapidly.

Work has begun on the Catholic community house and is expected to progress rapidly from now until it is finished about October first.

WILLIAM FOSTER AGAIN POSTMASTER

William Foster has recently received a notification of the official confirmation of his appointment as post master of Tillamook for the next four years. This is his second term in the position, and in the last six years postal receipts have increased over thirty per cent. At present the amount received from money orders is between \$18,000 and \$20,000 per month. The actual postal receipts for last year were about \$18,000. The establishment of the new morning mail service makes city delivery more feasible than it was in the past.

NEW INSTRUMENTS FOR BATTLING

Chis Hertig, farmer of Barnsdale, was put under arrest last Wednesday evening for assault and battery on his wife. Reports state that wife-beating had evidently been his favorite pastime, and that the cruelty of the assaults were almost unbelievable. They have four young children. When the youngest was only a week old the mother was forced to get out and milk the cows. Some of the beatings were administered with a boot-jack, stove-wood, a two-foot piece of hose, usually accompanied with kicks and blows on the head and body with the fists. Hertig furnished \$1,000 bail after spending a night in the county jail.

MELONS ARE NOW ON THE MARKET

Lifting the ban on California products has increased the supply of various fruits in Oregon. The local fruit palace has received a quantity of watermelon and cantaloupe from the Imperial valley. The shipment of these fruits are about a month later than usual.

MUSCOVITES WILL STAGE CEREMONIAL

1,000 Visitors from all Over State to Take Part In Merry Making

WILL PICNIC SUNDAY

Czar of Kremlin Baku and Princess of Rada Will Reign Saturday and Sunday

Approximately one thousand visitors from the various Muscovite organizations in the state of Oregon are expected in Tillamook to attend the initiation and merry-making ceremonies that are to take place in the city and Oceanside on Saturday and Sunday, June 21 and 22. A large class of prospective Muscovites will be initiated in Tillamook Saturday evening, the ceremonial for the initiation of the men to be held in the armory. The lady candidates will be initiated at the same time in the Odd-fellows' hall. These sessions with the ones that are to follow at the beach will probably bring the largest gathering of merrymakers to Tillamook that has ever assembled in this city.

The initiation will be preceded by a street parade that is to assemble at 8:30 p. m., to be comprised of men and women of the Muscovite order, candidates and the forty-two piece band from the Portland Oddfellows. Following this parade and just before the ceremonial takes place Mayor J. Merrel Smith will present the key of the city to Brother Henderson, Czar of Kremlin Baku. This ceremonial will take place at the armory. Then comes the devoting of the bear meat.

Immediately after the ceremonial the Tillamook lodge of Rebekahs will serve an all-Tillamook banquet of crab, any style desired, and everything that goes with it. For those that survive this and the initiation there will be dancing at the armory after the banquet.

On Sunday, June 22, Muscovites, Oddfellows and Rebekahs will join in a picnic at Oceanside for which an entertaining program of stunts has been prepared. Lunches of clam chowder and "wieners" will be served. "Shorty" Meyers will have charge of the hot dog stand so all prospective nibblers are warned to look before they eat. The clam chowder will be served by the Rebekahs. All Odd-fellows and their friends are invited to the banquet Saturday and to the picnic Sunday.

THEATRE IMPROVED FOR DRAMAS

The Coliseum, local theater, under the management of Morrison and Partridge, having recently completed a new, well equipped stage setting system. The work was done by the Van Wie company of Portland. The paraphernalia is of the most up-to-date type, consisting of wings, backdrops and flies. This complete new equipment will enable the theater to handle any of the road shows or vaudeville acts that may come to Tillamook.

"DOC" CATCHES PRIZE WINNER

"Doc" E. E. Koch, of the Tillamook drug company, had three fine fish on display in his window last Friday. The largest one, a twenty-five pound salmon, kept the fisherman busy for two hours and a half before he was finally landed. "Doc" says he was using an ordinary fly pole with a number two spawn hook baited with salmon eggs. He also says he has a reliable witness.

HAROLD J. GRAVES MOTORED TO PORTLAND

Harold J. Graves motored to Portland the first part of this week to attend a photographers school. He plans to return Friday.

Along the Concrete
