

### GUARDSMEN HAVE INSPECTION

Camp Lewis, Wash.—Instruction plans were scrapped and the entire command thrown into a state of mild excitement Monday night when unexpected orders arrived from General Charles H. Morton, commanding the ninth corps area, ordering a brigade inspection of all Oregon national guard troops.

This inspection was in full field equipment and means that officers and men alike displayed to the satisfaction of their superiors complete preparedness to enter active service at a moment's notice. Not only were the blankets, tents, spare clothing, mess kits, tooth brushes and combs of the enlisted men on display but the officers turned out with full equipment, canteens, first aid kits, automatics, etc., and heaven help those who packed carelessly and left some of these essentials back in their home station with other equipment taken out on last years hunting trip.

Colonel Edgar A. Sirmyer was inspecting officer. The Washington national guard, which is ensamped at American Lake, will be inspected after the Oregon troops.

Routine camp instruction took up again Monday after a pleasant weekend spent either about Puget Sound or on the trip up Mount Rainier.

General George A. White, commanding the Oregon troops, greeted John R. Quinn, national commander of the American Legion, during an inspection trip to the new government hospital on American Lake Monday morning. General White invited Commander Quinn to address the exercise men in the guard, numbering more than 500, but his itinerary for the day made this impossible as he was traveling on a schedule for which every minute was accounted.

Commander Quinn's party was escorted by Dr. Hinton D. Jones of Tacoma, Wash., department commander. In the party is Fred E. Kiddle of Island City, Or., retiring commander of the Oregon department, who is accompanying Commander Quinn as far as Spokane.

### His Confidence In Our Policy

A certain well-known business man said to us the other day, "I like your selling policy; I can buy from you knowing that you will not reduce your price the next day."

One doesn't like to spend a certain amount of money for some article and then pick up the evening paper and find that the same store has it "on sale for tomorrow only" at a lower price.

Surely, it is not fair play.

## Such popularity must be deserved

BIG HITS don't just happen. Popularity doesn't come ready-made.

In pictures, plays or products, success must be built on something REAL.

Thus Chesterfield's swift rise to popularity was no accident. Smokers were ready for a better cigarette and in Chesterfield they found it.

Taste convinced them. That's why men are turning by thousands to Chesterfield.
