

CALIFORNIA SENDS MOST CARS

California is sending more automobile tourists into Oregon than any other state, according to statistics in the office of Secretary of State Kozer. During the month of May a total of 7081 were registered in Oregon from other states, 3921 of them from California. Washington was second with 1795, and Idaho third with 538. The largest number of registrations was at the Ashland station where 1793 registered.

The non-resident registration law is mandatory, but many travelers seem to think it is discretionary and do not register.

On the assumption that the number of persons to each car averages five it is estimated that 50,000 tourists have entered the state so far this year. During the period between April 25 and May 31st \$3406 was received in motor vehicle license fees from cars

which previously had been registered in other states.

NEW OREGON BUTTER CHAMPION

Oregon's new champion Holstein cow for butter production in one year as a junior three-year-old is Fobes Pontiac Longfield of the W. T. Phy herd at Hot Lake. Her record is 22,623.4 pounds milk containing 782.37 pounds butterfat, equivalent to 977.9 pounds butter, according to the advanced registry department of the Holstein-Friesian association of America.

As a consequence of this record she displaces the former state champion in this class, Lucy Freela Pontiac 2d, who in the herd of Max Arp at Eugene, produced 21,224.4 pounds milk and 10.48 pounds butter.

TILLAMOOKER FINED HEAVILY

Howard R. Edmunds, Moonshiner, Loses on Appeal.

Maximum sentence of one year in jail and payment of a \$3,000 fine, imposed on Howard R. Edmunds by District Judge Deich, was affirmed yesterday by Circuit Judge Campbell. Edmunds, convicted of unlawful possession of a still, had received the limit sentence on this charge and appealed to the higher court. Trial in circuit court was without a jury.

Edmunds was arrested April 21 at 406 Sacramento street by deputy sheriffs, accompanied by federal officers. These testified that they found on his premises a still of 50-gallons capacity, 600 gallons of mash and a small quantity of moonshine liquor.—Oregonian, Saturday, June 21.

BOXING AT ARMORY JULY 2d

This promises to be an exhibition of mighty good boxing as all the boys that are to participate have good records to their credit.

Joe Serra of Seattle has taken task so many have tried, he says he can take Billy Gardeau's measure so the boxing commission has consented to let another good boy make the sacrifice. Joe Serra has fought such boys as Joe Kennedy, Frank Brooks, Art Kileen, and Sailor Lee. His showing is such that he is entitled to try any of the boys in Billy Gardeau's class. Bill needs no introduction, all he needs is good clean stiff competition and then you will see a goon snappy fight every minute of the ten rounds.

Ted Burns of Portland has decided to try Clark Johnson again. We all remember their last exhibition, and they need no special mention. Everybody is there and this ten rounds we know will be thrills from the sound of the gong to the final count, that sweet music so familiar to the ears of the one or the other. Which shall it be, Burns or Johnson?

Joe Johnson and George Martin will repeat four more rounds for the benefit of the fighting fans who wish to see them matched again. Their other match was so well liked and so snappy, that they are wanted again, so lets all go see them make their final. It's going to be good.

Harry Johnson will meet Chet Bennett in four rounds. These two boys are great on the mix up. They are good husky, fast boxers and quite a bit of interest is being taken in this bout, as Harry Johnson is a "comer" with a bright future for him in case he can get by such boys as Bennett. He is going to try hard so watch him grow.

Harry Ditter, the very popular referee from Garibaldi, will officiate. Tickets on sale at Rialto Cigar store. At armory Wednesday night, July 2.

CARRIER PIGEONS STILL MAKING GOOD FLIGHTS

The carrier pigeons belonging to Art Case of the fire department made the distance from Hood River in about three hours last Saturday. They were liberated at about 8:30 and the first four arrived at Tillamook at 11:30, covering approximately 115 miles air line. Their next flight will be from Umatilla, a distance of about 220 miles.

LICENSE PLATES COUNTERFEITER CAUGHT

With the arrest of Cyril Goff, an employe of the Irwin-Hodson company of Portland, on charges of larceny, police officials declared they had made the first step in uncovering a ring of men who have been defrauding the state out of thousands of dollars through the counterfeiting of automobile license plates. Goff, according to the police, helped furnish a pair of counterfeit tags found on the machine of P. J. Pierre, ex-motorcycle policeman, when he was arrested at McMinnville on a minor traffic charge. The Irwin-Hodson company has the state to furnish license plates. Dishonest workmen, the police said, have stolen or made duplicate sets of tags in the company's workroom and are thought to have done a profitable business in selling these at reduced rates to friends.

CITY NEEDS CLEAN-UP

(Continued from page 1)

would receive guests in their old, worn-out and dirty clothing; they would be ashamed to. Then why receive the city's guests with weeds, rubbish and dirt cluttering up properties? Even if there were no community spirit a personal pride should rule in this matter.

Some weeks ago a local clean-up week was proclaimed and a committee from a local organization named to help carry out the campaign. Very little was accomplished, it would seem, for the results are practically unnoticeable. Whether the committee used the wrong methods or whether it lost enthusiasm is not known. Probably it was neither, for no committee, however efficient and tactful it may be, can do everybody's else work, and unless each citizen rolls up his or her sleeves and gets busy the results are bound to be discouraging.

It would be well not to wait too long before letting the clean-up idea take hold, for the newspapermen will be here within the month, and, judging from the looks of some places, it will take nearly that long to clean them up.

SEEN ON THE STREETS

Mrs. T. M. Berns of Garibaldi was a Tillamook visitor Wednesday.

Dr. Huckleberry announces the birth of a boy to Mr. and Mrs. Arthur Paquet of Garibaldi on the 24th.

VISITOR CRITICIZES ATTITUDE OF CITY

Tell the World.—Especially when its people are visiting Tillamook.

Does the world know about Tillamook beaches? Do Tillamook people give the unattached visitor the glad hand of welcome and show a few signs of interest in the beach-seeker? It is said that there are places, rather small towns usually, where a stranger on the streets feels that he is being looked upon as an undesirable addition to the town in which he is not acquainted.

Mr. "Dryman" stepped into a soda fountain one warm day and jovially asked the dispenser, "Who serves the best coca cola in town?" Miss So D. Jerk, as usual, replied with a frown and a growl, "O, go on down the street to the next place." And her boss wonders why he does not get more business.

"Grumpville" is a little town in the fair state of "Opportunity" where pleasure and profit exist in abundance, but its people are prone to pass by the stranger with a suspicious stare that makes the pleasure seeker wish he had gone on through and past "Grumpville" and its small shell coverings. Just as Mr. Visitor stepped into his car up stepped young Mr. Boost and began an artillery of chatter that caused Visitor to hesitate and listen. It went some thing like this: "Hello, Visitor,—I knew by your load of camp equipment that you were headed for the beaches. Which one you going to? There are lots of them near here, and they are all splendid. Take the "P. D. Q." road and you get to the best all round beach in the world. Back there on the "X. Y. Z." boulevard you can find the most pleasant camp ground along the coast. Well, in fact, they are all good and I can tell you all about any of them, and we have the best roads of any country in the state. But, say, before you leave "Grumpville," go down here about five blocks to the fromage factory, which puts out that great product for which we are famous the world over. Every one knows about that though, but it takes a long time for some older men in Grumpville to find out that you pleasure seekers like to have a little attention paid you. Well so long, I see another "foreigner" coming that I've got to talk to and tell about our beaches." Mr. Visitor left and knew about where he was headed for—the beach that best suited his fancy according to the young fellows story. But he knew there was lots of time—the young fellow told him—so he staid around "Grumpville" for sometime just because one man had made him feel at home.

Why wait for business men's clubs, the newspapers or railroads to advertise Tillamook beaches? It isn't a difficult task to recognize an outgoing party headed for the beach, and they surely like to be noticed, and any English speaking citizen can make a visitor feel very much at home. Incidentally, the tourist likes to be stuffed a little, too. The more he is told the more he has to look forward to. 20,000 or more autos from other states are visiting Oregon; many of these people will settle permanently. Tillamook has the most varied assortment of any beaches in the world, so why not tell every tourist that stops in the city. Visiting with him makes him feel at home. Our beaches are on the best roads in the country, and these roads are all tributary to Tillamook city. The more people we get to our beaches, for they really are our beaches, the more prosperous Tillamook will be. And the more we talk to the traveler the more he will talk to his neighbor back in Hottown about having seen the home of the famous cheese, and how he enjoyed the finest beaches in the world, largely because a young fellow made him feel at home and helped him feel at "ease" in the land of "trees, cheese and ocean breeze."

County agents meet at coast conference in Astoria

W. D. Pine, county agent, attended a meeting of county agents of the coast division, which was held at Astoria last Monday. They spent the day in looking over the experiments that had been made on crops for the coast section at the John Jacob Astor experiment station. Six counties were represented: Clatsop, Columbia, Tillamook, Lincoln and Douglas.

North Bend—Smith mill resumed work with 520 men at lower pay.

Jacobsville Post sold to Mrs. Blanche Cook of South Morris, Ill.

Marshfield—\$22,000 Presbyterian church to be dedicated June 29.
