Oretown visitors included H. W. Vogel last Tuesday.

YOUNG LOCAL WOMAN TELLS ENGAGEMENT

An interesting engagement announced Monday evening was that of Miss Margaret Coates, daughter of Thomas Coates to D. A. Di Fore of San Jose, California. The news was told at a dinner given by Miss Coates in honor of Mrs. W. Thomas Coates.

Announcement of the engagement was made in a most unusual and appropriate way when a miniature airplane circled over the dinner table with tiny announcements in the form of paper airplanes attached by ribbons. Places at the table were also marked by airplanes and the rooms were profusely decorated with flowers.

Guests at the dinner were Nell Case, Amlette Jenkins, Gladys Coates, Helen Harrison, Edna De Sart, Vera Clark, Myrtle Wallin and Agnes Coates.

Miss Coates, a very charming and popular member of the younger set was born in this city and received her education in the public schools here, finishing in a California university. She was the first girl to make an airplane flight in the county and she later studied aeronautics in California.

Mr. Di Fore saw service in France during the World War as an aviator, and at present is engaged in commercial flying. He is making exhibition flights at Pacific City where he will remain through the summer.

The wedding will take place soon but the date has not been announced.

Miss Anne Wade and Miss Lucille Buckner of Portland are spending the week visiting at the R. W. Watson and Thomas Coates homes.

Mr. and Mrs. Frank Bester entertained a party of friends at their home at Fairview evening. Individual strawberry shortcakes were served which met with hearty approval from all.

Mr. and Mrs. James Lemon, Mrs. W. G. Mann and Miss Gertrude Lemon of Seattle and Mrs. E. J. Lemon of Springbrook spent last week at the home of Mr. and Mrs. G. E. Hart. A considerable part of their stay was spent at the beaches. They left Friday for Springbrook where they planned to spend a day before returning to Seattle.

Driving in from Portland Saturday evening to spend the following day visiting here were Mrs. R. L. Wade and daughters Anne and Roberta, the Misses Louise and Lucille Buckner, Harry Ferrera, Nephi Westergard, Robert Parshall and Clark North.

Henry Bochsler, student at Corvallis has returned to Tillamook to spend the summer months.

EARLY BASEBALL IN TILLAMOOK

Baseball has been the leading pastime for Tillamookers for many years during the summer time. There have been several seasons when valley teams were brought to Tillamook and given good lacings. The national game had a good early start in the city, there being records of games as far back as 1889. On June 16 of that year a game was played of which an early Headlight says:

"The ball game last Sunday between two picked nines resulted in a grand accumulation of runs for both sides, the score standing 40 to 41 at the end of the sixth innings. There was some very clever work done on both sides, notable the catching of Cox, Hunt and Martin, the pitching of Stillwell and Bodel was as good as many semi-professionals and the batting of W. Stillwell, Banton and Mason was better than we have often had to put up to see, and if the boys will only get out and practice, we stand a good show to see some good ball played on the 4th for there is ample material for two good nines. The base running of Philbrick, Hasbrouck, Cohn, Ooley and Humphrey can not be overlooked, it would be hard to find their equal in the national league, and should Capt. Anson of the Chicago come along this way he will kidnap 'em sure if they don't hide."

AUTO LITE STARTING, LIGHTING AND IGNITION. If there were a better electrical system than the Auto Lite, Star would have chosen it. Auto Lite equipment is the only electrical system that gives 90 days, or 3,000 miles labor service free of charge. Economical in action, it has ability to withstand weather conditions.

We have 26 other reasons why the Star should be a part of your family.

**Martiny-Crotzer Motor Co. Inc.**

**Low Inflation**

These great oversize C-T-C hand-built cords were the first three of any kind to be built especially for greater riding comfort and to "conserve the car".

And today they are still the only standard cords in which is proved the strength to carry reasonably low inflation and yet maximum mileage. It is because of their superb and hand-worked ply have produced a more durable C-T-C tire.

There is also a C-T-C handling tip from the car's estimate and which fits any standard wheel and all C-T-C tubes and valves in almost all makes.
