TILLAMOOK, OREGON, FRIDAY, AUGUST 1, 1924

PRICE \$2.00 THE YEAR

PLANS MATURING FOR ELK'S MEETING

Probabilities of 6,000 People Here For Big Event of Lodge

SPORTS ARE SCHEDULED

Carnival Attractions and Bands Will Provide Entertainment for Coming Event

With less than two weeks left before the state Elks convention here on August 14, 15 and 16, the committees have all the work very well in hand, and since the success of the editorial convention last week was so well known a greater success is expected in these meetings which will probably bring 6,000 visitors to the city. The committee on sports and athletics have prepared for good programs. One of the main features will be a forty round boxing card at the armory. The two ten-round main bouts will be better than ever. Billy Gardeau of Weser, Idaho, will meet Gene Urbaneck, city champion of Seattle. Clark Johnson of Tillamook will tangle leather with Bert Tribby of Marshfield. Both of these bouts are expected to give Gardeau and Johnson all the work they can handle since both of the other two men have good records and are hard to stop. There will be two six round preliminary bouts: Phil Bayes, Salem, will meet Cracker Warren, Oregon City. In the other Tommy McCarty of Portland will meet Lewis Johnson of Tillamook. There will be a four round curtain raiser and a fast little bout by the Hallowell boys, ages 10 and 12 years. Ralph Gruman, well known fighter and official of Portland will referee the bouts. There are 1800 seats available and as inquiries are coming in rapidly it is expected that they will all be reserved before the convention starts.

A motor-cycle polo game at the old fair ground will be played on Saturday afternoon between two picked teams that played to a capacity crowd at Multnomah field last Saturday. There are six riders on a team and they have eight extra motor-cycles for cases of damage to any in the game. The teams line-up as follows: Ray Tauscher, captain, Stout Brown, Babe Watson, Chuck Ferris, E. W. Rice and H. Hartman on one team. (Continued on page 4)

LOCAL KIWANIS CLUB GETS NOTE OF THANKS

At the weekly Kiwanis club meeting last Wednesday letters of commendation from various editors over the state were read commenting upon the remarkable manner in which the convention was conducted. Votes of thanks were extended by the clubmen to those individuals and organizations who so willingly assisted in the entertainment of the editors. George Lamb won the attendance prize which was donated by Claud Barrick. Fred J. Pye was added to the membership.

CIRCUS DAY COMING TO TILLAMOOK CITY

J. C. Rhodes, advance man of the Al G. Barnes circus, was in Tillamook Monday to arrange for a return engagement to this city for that company. Arrangements were made for the animal show to appear at the old fair grounds on Monday, August 18. The Barnes show is considered as having the greatest animal circus in the world. They hustled out of California last winter just in time to avoid the hoof and mouth disease quarantine, and are returning to the coast for the summer. They will come to Tillamook from Kelso, Washington, and will show in Portland after leaving here. This circus was in Tillamook about eight years ago and consider this one of the best small towns they have shown in.

Glenn Rusk, 15 year old son of W. F. Rusk of 802 E. 5th street, was accidentally shot in the foot while loading his 22 rifle. Dr. I. M. Smith states the boy is improving nicely.

LAST CONVENTION THOUGHT SUCCESS

Oceanside Receives Writers After Busy Session at Tillamook Auditorium

The most successful affair ever staged in Tillamook was the 17th annual convention of the Oregon State Editorial association held in this city and vicinity last Friday and Saturday, July 25 and 26. Activities began Friday morning at the city hall after registration when the convention was called to order by Hal E. Hoss, president of the association. J. Merrel Smith, mayor of Tillamook welcomed the assemblage to the city, and Robert Sawyer, publisher of the Bend Bulletin responded on behalf of the visitors. Business sessions followed at which reports of the president, secretary and last year's committees were heard. Committees on resolutions, nominations, necrology and special assignments were appointed. Isaac D. Hunt of the Portland Chamber of Commerce delivered an address on "The State Press and the Marketing Problem," after which the meeting adjourned for the luncheon period.

In the afternoon while the ladies of the editorial association and the Ben Franklin club were being entertained at the Lake Lytle hotel at a luncheon, courtesy of the Tillamook Women's club, the business session continued at the city hall auditorium. An address, "The Trend of Advertising" by Charles W. Duncan, advertising counsellor Foster and Kleiser company, San Francisco, was followed by a well appointed discussion, as was the address by Herman Roe, president of Country Newspapers, Inc., vice president at National Editorial association; chairman of the advertising committee, N. E. A., and publisher of the Northfield, Minnesota News. His subject was "The Necessity of Team Work nationally." C. C. Chapman, editor of the Oregon Voter, spoke on "The Oregon Income Tax." Round table discussions on shop prob-

STOLEN AUTO FOUND NEAR MC MINNVILLE

A sport model touring car belonging to Erick A. Erickson of Tillamook was stolen Friday night. The machine had been parked near the court house at about 8 o'clock, and at 11:45 when Mr. Erickson went to get it, it was gone. The car was seen at its parking place at 10 o'clock. Sheriff Ferguson of Yamhill county was notified and he saw a young man who answered the description of the suspected thief walking into town, but having been informed to watch for the car was not watching for lone pedestrians. The car was found the next day about a mile this side of McMinnville, having run out of gas. The thief was evidently a vain sort for the only fixtures missing when the machine was discovered was the mirror that was attached to the windshield.

MOBILIZATION DAY IS SET FOR SEPT. 12

Pacifists and those in favor of a strong national defense will have about six weeks to clash their hearts content until Mobilization or Defense day that has been proclaimed as a day for meetings and other demonstrations on a quiet, patriotic order for the nation to check-up on its war strength in case an emergency should suddenly arise. September 12 was chosen as it is the sixth anniversary of the battle of St. Mehell. It is not to be a national holiday from regular activities, but it is asked that farmers and all other men of business meet at designated places that evening for the purpose of patriotism. Incidentally this is also the last day of the Tillamook county fair.

The city health officer has just completed an analysis of the water in the reservoir and other points in the city under the State Board of Health ruling and reports very favorable condition.

7 NEW MEASURES UP IN NOVEMBER

Four Constitutional Changes Due to be Voted Upon

VETERANS INCLUDED

Anti-Margarine Bill to be Put Before Voters For Determination Next Fall

There are four constitutional amendments, two initiative bills and one referendum bill to be voted upon by citizens of this state at the election on November 4. The voters literacy amendment provides that, to qualify, a voter must be able to read and write the English language. The legislature or the people, through the initiative, may prescribe the means of testing the ability of such citizens to read and write the English language. The public use and welfare amendment adds to the clause whereby water, waterways and water products are included in section 18 which provides for the public use of roads and ways in the transportation of products. The soldiers' bonus extension amendment tends to include female employees of the United States army or marine corps, widows who have not since married, dependent father or mother of any person who died in the service and who would have been entitled to the loan. It also reads to include Spanish war veterans. These three have been referred to the people by the legislative body. The fourth amendment was initiated by the Oregon Workman's Compensation league, O. E. Hartwig, Portland, president. It requires all employers and employees in hazardous occupations to be subject to the law that deals with safety appliances and provides means of determining the amount of compensation due for the various hazardous employments.

The anti-margarine bill referred by the Associated Industries of Oregon, George C. Guild, Portland president, makes unlawful the sale, manufacture or exchange of butter substitutes, condensed or evaporated milk containing vegetable fat, or any substitute for butter, condensed or evaporated milk that contains anything except pure, clean, fresh, healthful, unadulterated milk from which no cream has been removed.

Two initiative bills are proposed. One, the naturopath bill, initiated by the Oregon State association of Naturopaths, Dr. J. W. Sargent, Portland, president, provides for the formation and control of a state board of Naturopath examiners for the state of Oregon. The other initiative bill repeals the state income tax.

JUSTICE COURT RECORD IS 189 CASES IN MONTH

Traffic Cases Lead in Local Justice Court During Busiest Period Yet Known Here

Forty-three cases in the justice court for the past week is the record for the year so far. For the entire month 189 cases have come to the attention of the court. 26 of these are still pending action. There was but one dismissal. 17 search warrants were issued. Of the remaining 143 cases, 42 were liquor cases, the other hundred being chiefly traffic violations, the majority of them being for minor violations such as driving without proper lights. A total of about \$6500 was paid into the county treasury in fines during the month. Other charges filed were for unlawful burning, fishing, punch board operating. A check issued for the payment of fines levied against G. G. Brubaker and H. J. Blasing, Jr. was returned as not payable because of insufficient funds. These men have been called upon to straighten the matter out with the county. The following were fined on liquor charges during the week: Henry Gruber, A. L. Esbanshade, Arthur Skinner, K. Hudelson, Antone Weiss, the latter being sentenced \$500 and thirty days. Passing sentence on Porter Dealy was postponed for the present. Fines for traffic violations were levied against R. C. Nielson, C. W. Wilkes, A. R. Dunn, R. H. Thomas, Leland Thompson, L. George, W. L. Smith, E. C. Doldge, Ed Heisel, B. C. Lamb, Jr., T. H. Nielson, A. N. Preston, Aubrey Dean, Leroy Boldt, A. L. Esbanshade, Frank D. Bester, Lester Nix, R. J. Craig, Edward A. Miller, J. W. Embodry, G. A. Bodyfelt, R. W. Bodyfelt, Dewey LeGault, V. J. Minnon and Trevor Hara. Dewey LeGault was fined five dollars for unlawfully setting fires. George H. Burnett and J. W. Koehler were each fined \$25 for unlawfully operating engines.

GENERAL WHITE VISITS HERE FRIDAY NIGHT

Friday night Brigadier General George A. White, Sam A. Kover, secretary of state, and Major Joseph V. Schur, property and disbursing officer for the Oregon national guard, arrived in the city by automobile to present a resolution regarding the coming defense day before the editorial association. The party left the same evening for their homes at Salem.

Major Schur left behind him when he came here, a young son which arrived at his house about two weeks ago.

MYSTERY LAUNCH DRIFTS ON BEACH

Astoria Fisherman Thought Lost When Craft Found Deserted

BODY STILL MISSING

Heavy Marine Engine Had Been Removed From Craft Before It Was Found

A 26-foot sea going fishing boat was washed ashore on the beach one half mile south of the Nehalem bar some time Wednesday afternoon on the flood tide. Advices from the Coast Guard at Barview state that the personal effects and some of the equipment were identified as belonging to P. M. Rinpala of Astoria, a fisherman who left the mouth of the Columbia river some time Wednesday morning, and in attempting to cross the Nehalem bar it is thought that he was washed overboard and the boat swamped. He has a brother who is a fisherman at Wheeler and was probably making an attempt to join him there. A pair of boots and a suit case, evidently from the boat were picked up on the beach near Manhattan. The boat, which was numbered G-162A was found about 7 o'clock Wednesday evening by Fred Kenoyer of Manhattan. Efforts to locate the body of a drowned person have been futile.

Later reports deepen the mystery for the engine had been removed from the craft apparently after it had been washed ashore. The owner's brother, who lives at Wheeler states that he has a clue to the location of the missing engine which weighs about 600 pounds. One report states that the oil lights on the launch were burning at the time of its being found. This contradicts the report that the boat was expected to have been swamped before it was washed on to the beach.

LEGION POST MEETS AT ARMORY FRIDAY

Friday, August 8, will be the next meeting night for the local post of the American Legion, when the executive men will assemble at the armory for a business and social evening. A vaudeville troupe now playing in this city has been secured as an extra attraction for the occasion. Mothers, wives, sisters and friends of the men have been invited, also any ex-service men who have not had their applications for Federal insurance made out. This work will be done for them at the meeting.

RADIO IS INSTALLED AT MEARS LIGHTHOUSE

Sundial Will be Displaced by Modern Contrivance at Lonely Station

Cape Mears lighthouse, situated three and one half miles from Oceanside and five miles from Bayocean, had its first communication with the outside world Monday evening, when Roy C. Yonge of Hallock and Watson Radio Service of Portland, carried a radio out-fit from Oceanside to Cape Mears by pack, and installed it at the light house. The three men at the light station have been there four, ten and seventeen years, with no telephone communication or mail service, so the installation of a radio meant a great deal to them. Mr. Yonge has been spending his vacation at Oceanside and on a trip to the light, saw the great need of a radio at the station, but the keeper was very doubtful about it on account of the rocky location which contains much iron. However, Mr. Yonge proved to their satisfaction that this could be easily overcome, and last evening gave them a good entertainment. Perhaps the greatest value to a station of this kind, is the broadcasting of Western Union time, as it has always been the custom to keep check on the time by means of a sun dial. Excellent programs were received from all coast stations including the Canadian stations, and by volume and quality, Mr. Yonge believes that east coast stations will be easily received during the winter months.

NOVELTY PICTURES COMING TO COLISEUM

Ever since the first movie was produced the projection of the third dimension has been the greatest problem in connection with the mechanical work of the industry. Until recently no practical means of producing the effect had been found. "Plastigrams" is the name of the film that demonstrates this wonderful new invention. It will be shown at the Coliseum Tuesday evening, August 5. This reel has been seen by large crowds in several of the big cities of the country, and will be a real treat to the theater goers of Tillamook. The filming is done in such a manner that the images on the screen appear to come right up close to the observer. Special colored glasses that are necessary will be furnished each purchaser of a ticket.

Frederic E. Ives, one of America's foremost inventors, renowned as the inventor of the half-tone process now universally used wherever illustrations in either black and white or color are printed, has given to the amusement world an invention which promises to revolutionize the motion picture industry as his photo-engraving process revolutionized the printing art. The invention is employed in the photographing of motion pictures in such a manner that they are entirely stereoptic, giving the long sought effect of depth to the motion picture as the old fashioned stereoscope which graced out grandmothers' table in the latter part of the nineteenth century, did to pictures of still life. This picture that demonstrates the new process will be shown at the Coliseum next Tuesday evening with a news reel, Aesop's Fables and "The Blizzard", a love story of the beautiful northern Lapland.

TILLAMOOK PLAYS WITH WHITNEY TEAM

Arrangements have been made for the baseball club of the Whitney Lumber company to play the Tillamook aggregation at the county fair ground next Sunday. Each team won a game in the two that were played early in the season, so both teams are anxious to win, and have snappy infields, good batteries and hard hitting outfielders. Baseball in Tillamook deserves the support of all those who enjoy the most popular summer athletic contest that is rightfully called the great American sport.

Warren Martin of Coats camp was operated on at Boals hospital July 30th.

CONTROLLING FIRE IS DIFFICULT WORK

Careless Property Owner Is Clobbered With Negligent Tourist

DISASTER IS IMPENDING

Continuous Growth of Timber Plan of Government Forestry official

The difficulty in controlling forest fires, according to L. E. Garwood, supervisor of district No. 1 of the Siuslaw forest, lies in the carelessness and negligence of the owners of property in or near the wooded areas, as well as the careless tourist who flips a lighted cigarette stub into inflammable debris or allows his camp fire to spread. Mr. Garwood is stationed at the Mt. Hebo center and his district extends from near Pleasant Valley to the southern boundary in the Siletz country of Lincoln county. There are five districts of this national forest which extends to the Coos Bay country. The boundary lines are very irregular and are of such form that only about one half of the protected area is actually within the bounds of the forest itself, but this situation makes it necessary that the outlying areas be included in the protective policy. Although there is a small part of the Siuslaw reserve isolated near Dallas, the eastern boundary of the northern district is the Willamina river.

In the fire that sprang up in the Coats company's holdings last week it was necessary to call men into service from the national forest staff and they were soon checking the flames on a front of a mile and a half. Mr. Garwood states that he has had about sixteen fires so far this summer, the worst one being the fire at the Foster mill at Grand Rapids on July 4th. The jagged boundary line makes it necessary that the fire protective association of the private interests and the national forest men work in conjunction against the fires. This is being done effectively and a good deal of damage has been prevented through these united efforts. During this season which has been exceptionally dry two or three days of hot weather such as Tillamook had

(Continued on page 6)

ELK LEADS CHASE FOR AUTOMOBILE

A party of tourists motoring along the road on the northfork of the Nehalem river in Clatsop county one day last week were startled when a large elk jumped into the road in front of their machine. It ran up the road ahead of them for several hundred yards towards a logging camp where it became frightened when some one appeared in the road in front and jumped over a high bluff. The fall killed it. The game warden in that section who was notified stated that the animal was very large weighing 900 pounds.

CHEESE MARKET SLOW IS REPORT THIS WEEK

The cheese market is getting rather slow and most of the storage orders have been filled. So far there has been no change in prices. Wisconsin continues in the cellar and is selling at 17 cents and less.

Production continues quite high considering the drought prevailing. Production this year in July will be about 290 boxes under last year, but the season to date shows an increase of over 5500 boxes.

Last year Los Angeles took 2,530,000 pounds, or 35.57 percent of the local cheese. San Francisco territory took 1,982,000 pounds, or 27.87 percent; Oregon, 1,603,074 pounds, or 22.53 percent, and Washington, 998,000 pounds, or 14.03 percent.

Checks for June milk will be out on the tenth of the month as usual.

Robert Watt of Brighton is in Boals hospital operated on for appendicitis by Dr. J. O. C. Wley of Portland.
