### BRIEF PERSONAL NEWS

The Reeher Furniture company are building a garage, 12 by 20 feet, in the rear of their store, to house a delivery truck.

Last Monday the state fish commission sent 40 cans of young catfish to the local game club. The fish were planted in Lake Lytle and Ocean lake. Wednesday an equal number of bass were planted in these two lakes. M. D. Ackley, George Russel, W. C. Foster and Eugene Crosby, local enthusiasts and clubmen met the train at Lake Lytle and unloaded the small fish in the two lakes.

Mrs. H. M. Mixom and Miss Rosetta Robson of Topeka, Kansas, are visiting at the home of Rev. W. O. Woolver.

W. J. Peterson, for several years a business man of Tillamook, is visiting old-time friends in the city. At present Mr. Peterson is engaged in business in Portland.

W. T. Macy of McMinnville is in town today on business.

J. L. Ketch reports the sale of two more Hathaway Mead lots; Lot 19, Blk. 1 to Chas. M. Lawrence and Lot 7 and 8, Blk. 1 to L. T. Kelly, recently from Walla Walla. This makes a total of twenty of these attractive lots which have been sold since the first of July. A number of homes are in course of construction on the tract.

John Mous was a Tillamook visitor from Sheridan last week.

Mr. and Mrs. I. W. Compton were here from Independence last week visiting our beaches and mountain resorts.

Mr. and Mrs. L. T. Kelly arrived recently from Walla Walla and purchased property with a view to making their home here.

Chas. Taff, of McMinnville, is here taking a vacation from his duties as abstractor.

Dr. J. H. Cook and family drove over from McMinnville Tuesday for an outing at the beaches.

Wm. Liljequist, manager of the McMinnville planing mill, was in town on business last week.

The soldiers of Company K will participate in the parade this afternoon.

A. Bloom made a trip to McMinnville Wednesday to get his family. They will spend the week here during the Elks convention.

Frank Ferguson, sheriff of Yamhill county, is seen mingling with the Elks on the streets today.

Roy Fink of McMinnville is glad to be seen among the happy bunch of Elks for the three days in the city.

Pickle Fumer, garage owner of McMinnville, is enjoying the hospitality shown the Elks here. He is a partner of the firm Turner and Christensen.

Dr. and Mrs. H. L. Babb are leaving August 17th for Davenport, Iowa to attend the Lyceum and Review Cours at the Palmer School of Chiropractic. Mrs. Babb graduated from the Palmer school in 1913. The Palmer school is the largest school of its kind in the world, having at the present time about 3000 students.

They will get the latest technique in their work and on their return will bring with them a neurocolometer, a scientific instrument, so sensitive that when placed on the spine it will immediately register a certain degree of pressure, showing the location of interference to transmission of nerve force. Dr. Babb will return about September third.

Friday night, August 8, the Tillamook post American Legion met in their rooms in the armory with the women's auxiliary, for a regular business meeting at which federal loan application blanks were filled out. Baird's comedians entertained the members of the legion and auxiliary after their tent show that evening. This was free to members and was followed by a lunch served by the auxiliary members.

Additional applications are made for care, the applicants should be considered in regard to their financial needs; those being in the greatest need financially to be given preference and admission to the hospital. (4) The law does not authorize the Veterans' Bureau to treat patients in their homes or to send physicians and nurses to make examinations in such places.

J. E. Shearer, post commander, has recently received communication from the hospitalization committee in Portland that explains the Reed-Johnson bill that was passed by congress and signed by the president on June 7, 1924. Under the provisions of this bill,

the facilities of the United States veterans hospital are at the disposition of any sick ex-service man or woman who has an honorable discharge, and who is in need of such hospital care.

The following restrictions should be noted, however, as they are either expressed directly or by implication in the bill: (1) The honorably discharged soldier must have served since 1897. (2) The bill does not authorize the Veterans' Bureau to increase the facilities of the hospital in any way. (3) Should the facilities of the hospital be insufficient, and additional membership drive that has been in progress nationally since August 1 has been the incentive for the membership in the local post as well as the state to increase quite extensively. The drive closed August 10. A month ago, July 9, Oregon stood fifth in the national membership drive for the Hanford McNider trophy, with a total of 7,641 members at that time. Tillamook was third in the state contest with 137 members, which number has now reached probably 160. Condon, in eastern Oregon, is first in the state and Roseburg second. These contests are based on the increase of membership over last year. Dr. Shearer, chairman of the county membership drive states that he is well pleased with the records made by the local post. The post officers and men have been exceedingly willing to devote their time and efforts to rehabilitation of disabled veterans, although a great many of these were not members of the post.

In fact there are no disabled veterans in the post at present. The local post has been doing its share of work that was outlined and carried out by the national legion in their program of national development. Some of the results in which they have been instrumental are: The legion has grown to a civic organization with traditions back of them that make a foundation for the strongest civic club in the land; every piece of legislation beneficial to the ex-service man has found the legion back of the wheel; caused the re-organization of the United States Veterans' Bureau; placed over 100,000 disabled men in vocational training; helped secure over 600,000 adjustments of disability claims; caused congress to appropriate many millions of dollars for vocational training, disability claims, hospitals, soldiers' homes and war risk insurance; spent over \$10,000,000 in aiding needy ex-service men; spent five years fighting for the adjusted compensation law; maintains hospitals of its own; provides for a contact man for each district that carries the legions welfare to the governmental authorities; provided employment for hundreds of thousands of World War veterans in the last five years; helped secure modification of unjust sentences imposed on soldiers and sailors; brought pressure that resulted in better immigration laws; vitally effected the proper Americanization of aliens; cared for the living and buried the dead; are now raising an endowment fund to care for perpetual decoration of the graves of comrades overseas; going forward rapidly with a children's welfare program and caring for the little ones left by deceased comrades; issues the American Legion weekly, one of the best weeklies in America; does not take any definite stand on labor disputes and is non-political; carries on programs of betterment to members, ex-service men generally, the community, the state and the nation.

Two more additional cows are very much needed also as the nine we now P. Bishop, of Salem who will have general charge of this sale, have fail to meet the demand for milk from the seventy six children now in the Farm Home.

Sad experience proves to the members of the farm home board that unless these children are given home care that it will not be long before a large proportion will become a heavy charge to the tax payers of the state as delinquents. There is an abundant provision for the delinquents and many dependent children in the past have for lack of provision for dependents, been placed with delinquents and naturally have learned their ways, a loss to good manhood and womanhood, and an expense to the state.

### TILLAMOOK TO HAVE NEW SPORT FISHING

That Tillamook nimrods will be able to enjoy a brand of angling that has heretofore been practically unknown in this county is now assured. The local fish club has just received communication from A. E. Burghdoff, state game warden, that makes this addition to our angling: "Mr. Eugene Crosby, president Tillamook county game protective association, Tillamook Oregon: During the latter part of this week we will be shipping some bass, crappies and catfish into that section for Ocean lake and Lake Lytle. It is my intention to send several shipments as the bass and catfish are coming a little better than usual at the present time. Yours very truly, A. E. Burghdoff, state game warden."

### SCHOOLS START SOON

(Continued from page 1)  
September 8. Those who will not be at least six years old by November 1 will not be admitted. A new class of beginners will be admitted at the beginning of the second semester, January 19.

The school board is making arrangements to move the two temporary buildings from Stillwell avenue to the corner of 7th street and Miller avenue on property owned by the city. They will be put in first class shape. A large number of first graders come from the east side of town and the walk to the Liberty school is too far for them. The board feel fortunate that they have been able to secure the services of Mrs. Pearl Smith Robinson to take charge of the first grade in this location, as she is recognized as one of the best primary teachers in the state, having had marked success as critic teacher at the State Normal and in the city school of Corvallis. Pupils who live east of 5th avenue and who will be in either 1A or 1B grade, should be taken to Mrs. Robinson at 9 a. m. Monday.

Mr. Turnbull requests that pupils will report at the rooms to which they have been promoted at 9 a. m. After they have been assigned seats and given lists of books and supplies needed, they will be dismissed to purchase them. The superintendent wishes it stated also that he would like to hear from anyone who wishes to furnish board or room to teachers for the coming year. Telephone 150 or 167W.

### TO HONOR PIONEERS

(Continued from page 1)  
tive appreciation of their untiring and splendid efforts at organizing the county into a neighborhood and industrial community. A generation or two in the past our predecessors in this county were combating with hardships that were as severe as any of the difficulties surmounted by the national famous wayfarers of the old Oregon Trail. Long after the Oregon trail had become a well traveled thoroughfare the passage into and out of Tillamook county was still a problem that was met with only recently. The present generation of Tillamookers can not realize their obligation to their pioneer forefathers that built for them the community and its industries that now exist and is recognized throughout the northwest as one of the most wonderful examples of energetic cooperation that the nation can offer. The movement toward an annual Pioneer Day in connection with the county fair is timely and as a result Tillamook history and traditions will be perpetuated.

Grants Pass—Good Tokay grape crop reported in this section. Portland has successful plumbing trade school.

Salem cherry pickers, mostly boys girls and women, picked \$80,000 off the trees.
