OUR CHIEF CONCERN

in dealing with our advertisers is not to see how much space we can sell them, but how big a return they get on the space they do buy. It is a selfish motive with us to want our advertisers to receive every possible advantage when placing their ads in the Headlight. We know that if they are pleased they will come back, but if we have to use "strong-arm" methods they will learn to shy clear of our advances.

Our chief concern with our subscribers is to deliver them the best newspaper the county can afford. There is also a selfish motive in that. The satisfied subscriber will stay on our list indefinitely; and that's where we want them.

For the past thirty-seven years the Tillamook Headlight has been the County's leading newspaper, in spite of spasmodic attempts to down it. It will continue to hold its place as long as it keeps to its present course, that of fearless, honest opinions, coupled with good service and readable news.

In the final analysis people want a paper which makes a definite stand, not one which "Yes, sirs", and "No, sirs" humbly to every Tom, Dick and Harry who comes along. Courtesy is one thing, vacillation is still another. Some people will not like our policies, but will respect them nevertheless.
