## Tillamook People Have Rough Trip.

Eight Make Trip Over P. R. & N. Right of Way. Camp in Deserted Cabin Without Supper.

On Friday and Saturday eight Tillamook people made the trip over the P. R. & N. right of way, enduring considerable discomfort and hardship. Those in the party were Tom Harrison, Grand Mills, Will Berns, Theodore Berns, Quincy Pangborn, Ab. Gulstrom, Mr. and Mrs. Johnson and Edgar Norbery. They left Portland Friday morning and arrived at Timber at noon where they had dinner, after which they started about for Tillamook. Nightfall found them at the Bailey mill where they camped for the night in a deserted cabin. All they had to eat for supper was two lunches, which were divided among them.

In the morning the party started out and soon arrived at a railroad camp, where they had breakfast. At Rector the party boarded a work train which took them to Wheeler, at which point word was sent to headquarters asking the company to send the train on to Tillamook, which request was granted.

The party reports eight or ten slides, three of them being very bad ones. In three different places the track, steel and all, is washed into the river. In two places the roadbed was washed from under the track and one place for 100 feet a fill has been washed out, leaving ties and rails suspended in mid air.

The worst slide is located three miles east of Enright. This slide is 300 feet long and is composed of tons of dirt and rock. This slide of Enright about eight miles, one quarter of a mile of track is covered with loose dirt and mud from two to eight feet deep.

There is no doubt but that considerable work will have to be done before transportation will be resumed.

## TILLAMOOK WITHOUT MAIL FOR NINE DAYS.

On Monday afternoon Tillamook City received its first mail from the outside world after a wait of nine days. The mail is now sent to Willamina, where it is taken by Mr. Easter, who carries the Willamina-Dolph mail, and brought to Helo, where it is again taken by the Tillamook-Cloverdale stage.

The mail will be brought over this route three times each week. Possibly not more than the letter mail and the daily papers will be sent. Mail from Tillamook will be sent out over this route.

## CLOVERDALE NEWS.

From Courier:

The business and social meeting of the Christian Endeavor society was held Wednesday evening at the home of Mr. and Mrs. Frank Worthington. A large number attended and an enjoyable time was had.

Born to Mr and Mrs. Kirby Wednesday evening, a daughter. Mr. Kirby is the new cheesemaker at the Cold Springs factory.

The Misses Ruth and Ava Owen, Chas. Ray and Vick Learned left yesterday for Portland. They drove over the old route to Willamina.

A driver with a team belonging to Mr. Easter, of Willamina, left here yesterday on his return trip to the city mentioned. A short distance this side of Dolph one of the horses went over the grade and was killed.

L. Krebs, of Independence, has been in the city the past few days. He is here in the interest of the saw mill at this place. He informs us that the mill will be sold and that it will be operated the coming summer.

## IMPORTANT NOTICE.

If the party who borrowed a long and a short step ladder from the Star Theatre last September will return them no questions will be asked. M. R. Hanenkratt.

On New Years Day S. W. Conover was united in marriage to Susie Crane, the ceremony taking place at the bride's home. Rev. Shrode officiated. The contracting parties have the best wishes of many friends.

For Rent—Large two story building 50x100 feet in first class condition on paved street suitable for store, warehouse or auto garage. Apply W. E. Dwight or C. A. McGhee.

## DANGER IN DIRTY MILK SAYS PROFESSOR.

"There were 30,000 deaths in the United States last year from dirty milk," said Prof. T. D. Beckwith of the bacteriology department of the Oregon Agricultural College addressing the dairyman and butter and cheese makers in annual session at Albany last week.

Prof. Beckwith in introduction spoke of the two kinds of injurious changes in milk; absorption of bad odors from things the cattle eat, as garlic, and from storage of the milk in odorous places, as dirty barns or unclean ice boxes; and contamination by germs. "Natural milk always contains germs," said Prof. Beckwith. "Milk without them would never spoil. Under ordinary conditions the germs multiply at the rate of once every twenty minutes. Clean milk keeps better and there is much less likelihood of disease germs in it.

In the months of August and September of 1909 there were 103 babies died of bowel trouble in Portland, whereas in 1911 there were but 17 in the same months, due to the improvement in the milk because of competent inspection."

How milk was contaminated was next discussed. The common belief that disease germs enter the milk sometimes through bad food the cow eats was discredited. Under forms of bacteria disease are not uncommon. At Cornell University investigation found 40 in a single drop.

"In twenty-four hours the cow gives off a million disease germs," said the speaker. "The intestinal germs excrete manure germs, undesirable and even disease producers. They are present on the hair, the udder, and even the tail of the cow. A damp cloth should be used to wipe them off before milking. The Connecticut Experiment Station found that care in this particular reduced the number of germs two-thirds.

"Another easy means of contaminating milk is by milking with hands and clothes dirty, especially by washing with fore milk. Covered milk pails reduce the danger of infection to about one-fourth, since they reduce the surface open to dust to one-fourth. In the University of Wisconsin dairy school the covered pails were found to reduce the disease germs four-fifths to nine-tenths. In Portland less than 1 per cent of the milk supplied is taken from covered pails.

Seamed milk pails are a menace, since it is difficult and almost impossible to keep them absolutely clean. The water in which they are scalded should be scalding hot at the time, not cooled at all. The pails should not be rinsed afterward with well water; 60 per cent of the wells about Portland are contaminated. The milk should be cooled as soon as possible also, as warm milk is to the germs what the incubator is to eggs.

In speaking of tuberculosis in milk, Prof. Beckwith insisted on the weeding out of the tuberculous cows, but stated his opinion that farmers should be recompensed by the state for losses of cows killed on this account until the herds are once cleaned up.

"The final remedy for most evils, he declared is cooperation following on a civic awakening and education, since faults in the production of clean milk are not malicious, but result from carelessness and ignorance.

## CLOVERDALE SCHOOL REPORT.

Following is the report of the Cloverdale school for the month of December: No. of pupils remaining to date 44; No. of pupils registered since beginning of year 56; No. of days taught 15; whole number days attendance 546; whole number of days absence 15; whole number times late 23; No. pupils neither absent or late 30; average number pupils belonging 43.15; average daily attendance 42; per cent of attendance 97.5; No. of visits by parents 3; No. visits by members of school board 2.

One week vacation.

H. S. Brinnall, Principal.

## NEW BEAVER ODD FELLOW HALL TO BE DEDICATED.

The I. O. O. F. Lodge of Beaver, will dedicate their new hall on Saturday, January 11. Supper will be served for which 50 cents per plate will be charged, the proceeds to be used to furnish the kitchen and dining room.

## New City Council Inaugurated.

Mayor Harter Delivers Annual Message.

Petition Filed to Submit Saloon  
Question to Voters.

At the first council meeting for this year the following officers were present: Mayor Harter; Councilmen Leach, Sappington, Dick, Harrison and Bales.

The Mayor made the following appointments: City Recorder, P. W. Todd; City Attorney, H. T. Botts; Marshal, N. J. Myers; Surveyor, Sidney Henderson; Street Commissioner, John Day.

The following special policemen were appointed: T. H. Goyne, Rev. Kuhlman, Mrs. G. L. Dick, Mrs. R. Phillips.

The following committees were appointed:

Ways and Means: Leach, Harrison, Sappington.

Licenses and Ordinances: Dick, Harrison, Bales.

Streets and Public Improvements: Sappington, Dick, Leach.

Health and Police: Bales, Leach, Sappington.

Accounts and Current Expenses: Harrison, Bales, Dick.

A committee from the W. C. T. U. was present and presented the following resolutions:

To the Honorable Mayor and City Council of Tillamook:—

Whereas, we feel that the principles which we advocate are not carried out as they should be in our city; and

Whereas, we feel that the moral condition of our city may be improved; therefore,

Be It Resolved: That we, "The Women's Christian Temperance Union" of Tillamook, will heartily co-operate with any efforts the City Council may make for the betterment of moral and civic conditions in our city.

W. C. T. U. of Tillamook,  
Per Committee.

The presentation of the above resolution was followed by some discussion by the ladies.

A resolution was passed giving Thos. Handley, the late recorder, a vote of thanks for efficient service rendered by him.

A resolution was also passed demanding the removal of the Dawson livery barn.

Jap Raney was appointed night watch by the council. When the electors voted on the amendment giving the mayor the power to appoint his recorder and marshal, the position of night watch was omitted.

A petition was filed referring to the voters the question as to whether Tillamook City will continue to allow saloons within its borders. The election is called for Jan. 14.

Following is the mayor's message: TO THE HONORABLE THE COMMON COUNCIL OF TILLAMOOK COUNTY:

Gentlemen: I hereby beg leave to submit to you a statement of the condition of our fair city; and would respectfully submit to you for your consideration a few suggestions, and recommendations, which if carried out, seems to me will be along the line of progress.

During the hurry and hustle consequent upon the amount of work that we had on hand during the past year, there were many things of vital importance neglected and overlooked, chief among which is our inefficient fire protection, dangerous condition of our old wooden sidewalks in the business district, lack of proper inspection of defective flues and other fire traps, improper fire escapes in some of our hotels and lodging houses, all of which are a menace to life and property, and demand immediate attention by our Honorable body. I should also like to call your attention to the necessity of inaugurating a street cleaning department at your earliest possible convenience, and an ordinance against allowing our merchants, pedestrians and teamsters to cover our sidewalks and curbs with litter and filth, and provide some manner for disposition of the same. As early as practical every dilapidated wooden sidewalk in our immediate business district should be replaced by artificial stone, placed on a proper grade, covered by a five year maintenance bond, to insure a first class job.

Many of the sidewalks in the business, and also in the residence districts, are a continual menace to both life

## DAILY CURRENT FILINGS AT COURT HOUSE.

Earl Jackson to John Anderson, \$10, lot 14 blk 2 Rockaway Beach.

L. H. Watkins & wf to John Anderson, lot 15 blk 2 Rockaway Beach.

and limb, and it is only by luck and good fortune, that the city has thus far escaped expensive damage suits.

I would suggest that the proper fire fighting equipment be supplied to the hose company immediately, and that an ordinance be passed defining the powers and duties of our fire warden, together with a form of report, covering every business house, hotel, lodging house, or other buildings in the fire district, such report setting forth the condition of all the flues, fire escapes and fire connections in each building, in said fire district, such report to be made not less than every — days, by the fire warden.

Owing to the growing intelligence of the people, crime and lawlessness, have been lessened during the last year, and by the activities of our police force and the assistance of some of our good citizens, the open houses of prostitution have been closed, and their inmates together with their consorts, and other vagrants driven from the city, rowdism and drunkenness on the streets suppressed and hoodlumism of all kinds considerably decreased, but still there is room for many more needed reforms.

All business houses including saloons should be closed by ordinance at an earlier hour than they are now accustomed to, thereby lessening the opportunities for crime and carousal, detrimental to the peace and dignity of the city of Tillamook, and much to the annoyance of our police force.

There is a state law against minors smoking cigarettes on our streets, and also a penalty for selling cigarettes to minors, and inasmuch as this is not in the jurisdiction of our police court, and as the proper authorities neglect to suppress this nuisance, I would suggest to your Honorable body, the passage of an ordinance, giving our police force a legal right to make arrests under this law, and punish the offenders, in our recorder's court.

Wishing you success in a united effort to make for this year the best, cleanest and most progressive administration Tillamook has known.

Signed, J. R. Harter,  
Mayor.

Dr. Wendt reports the birth of a girl to Mr. and Mrs. Edward K. Mitchell on Sunday last.

## On Your Own Account

Have you any money in the bank? A part of your earnings ought to be placed there, anyway. Everybody can afford to save something, however little. Have a bank account of your own and you will feel happier, better, more independent. Make your little money earn more, and so grow bigger. Better than hoarding it where fire or thieves can reach it. Your bank-book is a receipt and an evidence of your wise economy.
