R. C. Lamb local agent for the Elmore Steamship line, received word from the management of the line this week to the effect that unless conditions changed on the Portland-Tillamook run the Patsy would be taken off and we would be left without water transportation. We understand the Elmore has already been taken off, and if the Patsy was to be taken off too we would certainly be in a bad way. It seems that the operating expenses have eaten up the entire income of the boats and put them in debt during the past few months. Transportation by boats should receive more encouragement, both in regard to patronage and harbor facilities.

NEWS FROM OUR NATIONAL CAPITAL

Financier Says Control of Money in Bad Hands Might Cause Trouble.

Washington.—That the present concentration of money and credit "has gone far enough," that "in bad hands" it would have a bad effect upon the nation, that the safety of the situation lies in the personal of the men in control and that present conditions are "not entirely comfortable for the country" were a few of the statements by George F. Baker, master of finance, as the climax of an examination before the House money trust committee.

Mr. Baker reviewed in detail the operations of himself, his bank, the First National Bank of New York and J. P. Morgan & Co., in the issuance of bonds.

In Wall street, said Baker, "Morgan is recognized as the great general of the financial army." He admitted that he and James Stillman were Morgan's chief lieutenants, saying:

"Morgan could be the dominant financial power of the world if he were younger." Concluding his testimony, Baker admitted that the wealth of the nation had been greatly concentrated during recent years.
