U. S. Sailor Boy

Writes Home.

Joe Atkinson Formerly of Tillamook County, Now In Far East With U. S. Navy.

U. S. S. Cincinnati, Swatow, China. Jan. 9, 1913.

Dear Mother:

I will try and write a few lines this evening.

We arrived here Saturday afternoon forty-eight hours run from Shanghai.

We have been living on oysters and oranges since we came here. We pay 20 cents Mex. for a small basket that holds about two dozen oranges. They are fine, too. Oysters are 20 cents Mex. a pound, and a few of us go in together and buy a few pounds and get one of the cooks to fix them up for us.

I went ashore with a bunch yesterday and we took a trip through the hills and I got several fine pictures. My legs are so sore I can hardly walk, it is the first time I have walked over a mile at one time since we left Honolulu.

Swatow is the worst place we have struck yet, there is nothing here but the foreign consuls and chinks. The Standard Oil Company has two large tanks here same as every port in China. We have never been in a port yet but what there are several large oil tanks.

There are about one hundred thousand people in Swatow and the place does not cover as much ground as Tillamook. None of the streets are over six or eight feet wide and in most places only three or four feet. There is a large fish market in one corner of the town and they have nearly every kind of a fish that there is in the ocean, even to jellyfish and devil fish. It is one place where a person gets one hundred cents on the dollar. They always keep their fish until they are sold no matter if they do get rotten they eat them just the same.

This is a great place for silk and linen drawn work. I have bought three small pieces and am going to send them to you perhaps they will be good for something. I am going to buy a lot of silks when I get ready to go home it don't pay to send it by mail.

There are several fellows in the crew that are getting the cocaine habit. One guy was running all over the ship last night. He looked and acted worse than any crazy person I ever saw. They have not been at it very long but are sure to get caught if they keep it up very long. One of the chink stewards off this ship was caught smuggling opium at Manila and he is doing a year at Cavite now at hard labor.

We will leave here Monday for Manila. We are going along with the Saratoga and Albany and are going to have street manoeuvres on the way. We will go in dry dock at Conglao again and will probably lie there a month or more for repairs. They say we won't go back to China before April or May, but may go anytime.

I have made out pretty good on pictures here. I have already sold about fifteen dollars worth and have about thirty dollars worth ordered, and am going out with a party again Saturday and Sunday and take some more. I expect to make some money washing bags and hammocks while we are away from Shanghai. We changed bags this week and two of us scrubbed twenty-seven at one dollar each and we change hammocks next week and we will have nearly forty hammocks to scrub, and we get two dollars each for them. When we are in Shanghai they are all sent ashore and the Chinks wash a bag and hammock both for twenty-five cents.

The money we use out here is only worth one half what U. S. money is.

We have stayed here so long that we will miss the January Transport and there is a bunch on board that are doing over time now and a great many with only a few days to do and you can imagine how they feel about having to stay another month out here.

We will get a bunch of recruits as soon as we get to Manila. 250 came out on the last transport.

Well I can't think of any thing more to night. Please write soon.

Joe Atkinson.

P. S. We haven't gotten any mail since Christmas all our mail has been sent to Manila from Japan.

CITIZENS MEETING

LARGELY ATTENDED.

On Saturday evening a large number of our citizens who are disposed to fight the paying of the paving assessment met at the court house and decided on a plan of procedure.

It was decided that those feeling themselves so disposed should band themselves together under an agreement to pay 10 per cent of the amount assessed against them for pavement into a fund which will be used to pay the expense of a law suit.

Some sixty names have already been secured representing about \$80,000 of the paving assessment, and the prospects are that many more will come in, bringing the total up to more than \$100,000 as representative of the pavement amendment.

Among the property holders who have taken hold of the fight are: C. and E. Thayer, who have retained a special attorney, H. T. Goodspeed, Dave Martiny, W. G. Dwight, Beals Bros., Geo. Edmunds, C. H. Wolfe, W. C. King, F. S. Whitehouse, Odd Fellows, Chas. Kunze and J. S. Lamar.

The citizens are taking hold of the matter with a strong hand and will no doubt give the Warren Construction Co. a hard fight, with the best of chances for winning.

PROPOSED NEW ROAD TO SANDLAKE.

N. J. Myers spent several days and nights in the woods between here and Sandlake last week while endeavoring to find a short cut trail that might be made into a good road. He was successful in his endeavors and tells us that the route which he has blazed will shorten the road between Sandlake and Tillamook over eight miles. The distance between Sandlake and Tillamook is now traveled by way of Hemlock is twenty miles.

Mr. Myers contends that as the county is contemplating building a new road from Sandlake to Hemlock, it would be better for the Sandlake people to have the new road built over the hill.

trail lately blazed by him and connect with the Bewley Creek road. The distance between Sandlake and the Bewley Creek road is but a little more than the distance between Sandlake and Hemlock and would make a difference of 8 miles as previously stated in the trip to Tillamook.

We understand that if this route is taken settlers in the vicinity of Bewley Creek will donate towards the new road.

If this new route is taken the people of Woods will no doubt pull pretty strong for a road from Woods to Sandlake. With the completion of a new road from Woods to Sandlake and from Sandlake to Bewley Creek the distance between Woods and Tillamook will be shortened over eleven miles.

COUNCIL MEETS IN REGULAR SESSION.

On Monday evening the city council met in regular session and passed a blanket ordinance ordering cement sidewalks to be laid in the central part of the town.

The district included in the blanket ordinance takes in, in a general way, the following territory: From Front Street south on Stillwell Ave. to Fifth street, from the corner of Stillwell Ave. and Fifth Street east to Third Ave. East, running on Third Ave. East to Fourth Street and then to Fourth Ave. East and from there north to First Street.

Considerable cement walk has already been laid in the territory included in the above description. While the above ordinance gives the council power to lay walks at any point it wishes to, the fact that there will be considerable building in this section this summer may cause the council to eliminate some of the walks for this season.

An ordinance was passed calling for bids for the sale of two street improvement bonds, one bond for \$500 and the other for \$317.91. These bonds cover the improvements in the matter of cement walks in Maple Grove Addition.

A party from Portland who is desirous of starting a saloon at the Ramsey House endeavored to have his bonds approved for the same but his request was denied.

On Your Own Account

have you any money in the bank? A part of your earnings ought to be placed there, anyway. Everybody can afford to save something, however little. Have a bank account of your own and you will feel happier, better, more independent. Make your little money earn more, and so grow bigger. Better than hoarding it where fire or thieves can reach it. Your bank-book is a receipt and an evidence of your wise economy.
