

Frederick K. Blackadar, Who Will Explain the Rosenthal Pictures at the Star Theatre on Thursday Evening, May 22.

From San Francisco Chronicle.—One of the most interesting exhibits presented at the Grand Theatre last night was the... *(transcription of the rest of the article text)*

NEHALEM NEWS.

From Enterprise: U. F. Knight received his appointment as postmaster for the Nehalem postoffice this week and is now busy engaged in taking an inventory of the stock on hand before taking charge of the office as postmaster.

Messrs. Harley Merton and Arthur Evans of this place left for Portland Sunday morning where they intend to remain indefinitely. They will join the Portland Firemen's Band, now being organized there and also serve actively as fire fighters, taking their places on the hook and ladder brigade with others already enlisted in the service.

Clem Jolly, a bucker at McClure's logging camp at Rector, met with a serious accident Monday morning while at work, resulting in a broken ankle and also fracturing the bone above the joint. He was taken to the Bay City Sanitarium for treatment in the afternoon and a portion of the bone had to be removed entirely in order to prevent any possibility of his becoming a cripple for life. Mr. Jolly is about 35 years of age and has worked in logging camps for many years. It may require several months time before he will be able to work again.

J. A. Jensen started up his shingle mill at Wheeler Monday morning for the first time and considerable interest was manifested by those who watched operations at the plant. The mill is of 100,000 daily capacity and will employ about 15 men besides those working in the woods cutting out bolts for the plant numbering about twenty additional men. This means that the monthly payroll will amount to \$3,000 besides what is being paid to contractors cutting bolts on their own account for delivery at this mill. It all helps.

Plans are being perfected by the owners of the various resorts on Nehalem Beach to divert the Summer travel via Fishers Point, thence across the bay to the beach where they will be conveyed in automobiles to their destination, in an endeavor to find a shorter and more satisfactory route than by going through Nehalem. We doubt very much if the plan will prove successful at all but they are determined to make the effort and it is up to them to try it out.

CLOVERDALE NEWS.

From Courier.

Geo. Worthington and Mesdames Lois Gist and Bell Pierce will leave Saturday for Modoc to attend Grand Lodge, they being sent as delegates from the I. O. O. F. and Rebekah lodges here.

Mrs. John Bloom and son, of near Tillamook, were the guests yesterday of Mrs. Bloom's sister, Mrs. Frank Owens.

Clarence Vidito, Dr. Monk and Sam Brownhead, of Tillamook, were in Cloverdale Wednesday attending the Moose Lodge meeting in the evening.

A force of several bridge builders reached Cloverdale Monday, and Tuesday left for the point of construction of the bridge across the Little Nehalem for the new cutoff road. The bridge work on this road is completed and the next move is the building of the bridge.

The hollow iron cases for the concrete abutments passed through here Wednesday and we are informed by the commissioner that all the iron work for the bridge is in Tillamook and will be hauled here as soon as possible. Work on this road has progressed very rapidly and without doubt it will be completed before the summer is over.

Mrs. Rachel Ward died at her home in Neakow Sunday last at the age of 64 years. She leaves a husband, James D. Ward, and three sons to mourn her death. The funeral took place Tuesday, Rev. Clark officiating.

Yesterday, the 12 year daughter of Mr. and Mrs. Arch Mers, of Hebo, had the misfortune of having a sewing machine needle drive through her finger. The needle entered the finger at the root of the nail, striking the bone, the point remaining in the side of the finger, while the rest of the needle was forced out through the end of the finger. Dr. George was called and dressed the wound.

Rheumatism Quickly Cured.

"My sister's husband had an attack of rheumatism in his arm," writes a well known resident of Newton, Iowa. "I gave him a little of Chamberlain's Liniment which was applied to his arm and on the next morning the rheumatism was gone." For chronic muscular rheumatism you will find nothing better than Chamberlain's Liniment. Sold by all dealers.

BRIEF NEWS OF OREGON

Baker's council is proceeding with plans for the establishing of a municipal lighting plant.

Grants Pass city council has named nine women to act as judges and clerks of the city election.

When the next school year opens Myrtle Point will have a fine new schoolhouse, to cost \$6 the neighborhood of \$12,000.

George Messenger, who has been on trial in the circuit court of Crook county charged with larceny of cattle, was found guilty by trial jury.

With the arrest of Frank J. Allen, with \$240 worth of opium on his person, the Baker police have uncovered a big smuggling business.

The proceeds of Youncilia's school building bond issue of \$20,000 are held up by reason of an injunction suit filed on the signature of irregularities in the bonding proceedings.

The trial of Marshall Field socialists who were arrested recently for violating an ordinance prohibiting street speaking was postponed. Meanwhile the arrested men are allowed their freedom on their own recognizance.

The Portland city council passed an ordinance appropriating \$102.50 for the payment of the salaries and clerks of the recent election and an additional sum of \$100 for months terminated the officials.

County Judge W. H. Warden of Klaskan Falls has promised the hardest kind of a fight against the opponents who are seeking his re-election. He is a staunch foe because he has offered to all those in getting the recall election before the people.

Gilley was the verdict brought by the Marshfield jury in the case of State Representative J. B. Burton of Crook, indicted on a complaint of Miss Melissa Yorkston, an expatriate in his office. The jury was out only a few hours.

Frank Matsumi, a Japanese, has installed a plant at Independence for the purpose of making gasolene ships, used by sprayers, etc. The plant received 125 tons of raw from Japan at a cost of \$1000 plus \$1700, and will begin shipping them at once.

A number of dynamite bombs has been discovered near the old immigrant road a mile west of Beza. The bombs were 15 in number, and each consisted of a tube of dynamite in a lead pipe. They had been wrapped in an old heavy sack and stuck in a badger hole, evidently months ago.

An effort to introduce a disease that will exterminate rabbits in the western portion of Canada counts. Dr. W. H. Little, state sheep inspector, went to Idaho armed with a bottle of "culture of myxomatosis" with which he will inoculate a number of animals.

Declaring that rabies again has appeared in Oregon and that the situation in Multnomah and adjoining counties is grave, the state board of health in a report issued for the quarter ending in March, recommended that all dogs be muzzled.

The four representatives of a Russian colony in Saskatchewan, who have been touring western Oregon for 30 days, have closed a deal for the purchase of 350 acres, practically in one body in Lane county. They have filed incorporation papers under the name of the Society of Independent Doubleboners, with a capital of \$100,000. Ten families will come from Canada at once, and others will follow soon.

Timber owners of Polk county have organized for the purpose of protecting the forests in this county from fire during the coming dry season. W. V. Fuller, of Dallas, a prominent timberman of the county, has advised all owners concerning the work of forest protection, and all efforts by the owners will be put forth to lessen the extent of the burned districts this summer.

The homesteaders and timber claimants at Klaskan Falls have been awarded the final decision in the long drawn out 27-16 land case. The timber lands were claimed by A. D. Danfels and associates, who had placed scrip on them, and also by a number of individuals who proved up on the land under the homestead and timber laws. The litigation has been in progress for about 15 years.

Two accidents were caused at The Dalles by the explosion of flashlight powder. One of them may cost Karl Carlson, 14 years old, the loss of his eyesight, as he looked directly into the flash while attempting to take a picture at a vampire picnic. The kitchen range of Mrs. E. K. Vickers was wrecked by the explosion of a box which she supposed was empty, but which contained flashlight powder.

From Whitesville, Mo., to Pendleton, a distance of 2000 miles, is the journey completed a few days ago by two pair of homing pigeons. About six weeks ago Mrs. L. G. Peil of Pendleton shipped the four birds to N. G. Roderker in Whitesville. He liberated them with his other pigeons and they immediately disappeared. Upon receiving a letter from him telling of his loss Mrs. Peil went to her pigeon lofts and found the four birds resting on their home roosts. All were in good condition. It is not known how long they were in covering the distance.

COMMUNICATION.

Hydlock, Ore., May 14, 1913. To the Editor of the Tillamook Herald: Will you kindly give me a little space in your columns in which to reply to an article published in the Tillamook Headlight of Feb. 25 entitled "The Blasphemous Catechism."

The purpose of Mr. Baker seems to be to disseminate an article... *(transcription of the rest of the article text)*

For Mr. Baker's information I will quote some extracts from the many I have being possessed.

C. J. BLANCHARD.

Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by all dealers.

WILSON RIVER ITEMS.

About a year ago this community made an attempt to get a post office established in our midst, but it was turned down by the P. O. department, the reason given, not enough signers. Some of the settlers have to go 25 miles to get their mail and many of them not having horses it is not very pleasant. If the authorities want these isolated valleys settled and improved, they should give the people who are willing to suffer a pioneer's inconveniences some encouragement. A post office would not at first be a revenue producer for Uncle Sam but it would help a great deal in getting his land occupied and producing. This is a good suggestion for commercial clubs in Tillamook and Portland to consider.

Wm. Dier of Menominee, Wis., spent several days in this vicinity looking over some lands still subject to homesteaded, also a few ranches that are for sale, and was piloted about by Len Rush who is familiar with every inch of these woods. Mr. Dier has traveled extensively, always with a discerning eye, and assured us that we have the goods here and would experience a boom as soon as our mail and traveling facilities are better. He expects to return shortly with a number of prospective homesteaders, or purchasers.

Mr. Illingworth has disposed of very near all of his sheep. He had to Mr. Luitky the butcher of Nehalem. This herd of sheep have done very well, none having been lost by vermin or disease. Mr. Illingworth is going into cattle more extensively as they do not need as much care as sheep and his race is better adapted for cattle.

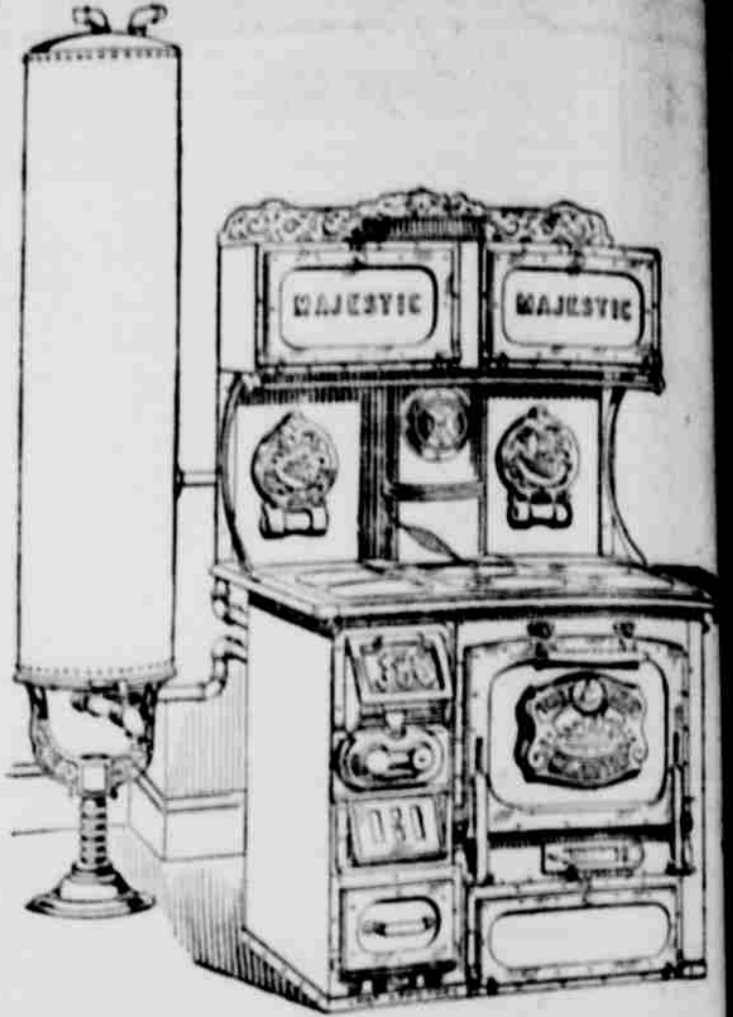

The natives are all praying for a let up in this equi-pour demonstration this spring, so that they can get at peeling addition bark which is now ripe for the knife. A considerable harvest of chitonia will be gathered in this locality if the weather permits.

Considerable travel from the outside is noticed along the Wilson River road, its condition is reported pretty fair with the exception of a few very bad places—around Zig-zag. The county court expect to go over the route as soon as weather permits and will vote all necessary repairs.

It is getting to be the habit now for Len Rush to report "another bear" when he comes down from his North Fork ranch. Old Joe the trusty male is called on to pack him out. The meat in every case is fine and trout and bacon have a respite.

Mrs. C. A. Lyons and daughter Grace have returned from Portland, where they enjoyed a short visit. Mr. Lyons is expected about the first of June.

Mrs. Wesley Sutton is spending a short time in Tillamook visiting friends.
