

# Going Out of Business!

## The Wahlen Jewelry Co. of Tillamook, Ore

Having sold the fixtures and some of the stock to A. H. Harris, we still have a large stock of high grade Watches, Jewelry, etc., which we are compelled to close out at retail. The remainder of the stock we have is all the High Grade Goods this well known Firm carried in stock. As we are anxious to wind up our affairs in a few days we will sell everything for whatever it will bring regardless of cost.

Everything will be sold Wholesale and Retail. Merchants are especially requested to take advantage of this sale, as we do not expect the goods to bring 50 per cent of the Wholesale Cost

WE WILL SELL EVERYTHING—NOTHING RESERVED—Including all of the Household Furniture, consisting of Chairs, Tables, Beds, Pictures, Rugs, Dishes, One 6 ft. and 8 ft. Show Case, Diamonds, Watches, everything in Jewelry, Silverware, Clocks, etc. For example, following are a few of the bargains to be had while they last.

Ratchet Springs, any kind -	10c	Watch Glasses - - - -	5c	Hands, each - - - -	5c

#### NEHALEM NEWS.

From Enterprise:

About 50,000 feet of lumber will be used in the new plank road now building across the sand spit below Croen's Dock from Nehalem Bay to the ocean beach. The lumber is being furnished by the county but the labor of putting it down will be done by resort owners along the Nehalem beach who have volunteered their services to do this part of the job free of charge. They intend to build a big floating dock in the bay so that all launches will have a good place to land. It is no doubt the intention of the resort owners to divert the beach traffic as much as possible over the new route, but it remains to be seen if the change will prove to be more satisfactory than by going via Nehalem City as has been done heretofore. It is worth trying, however, from their point of view.

D. S. Boyakin has ordered lumber for a new dock on his property at upper town, which will be built at once. He also intends to put up a modern store building on his property adjoining Albert Crawford's tract in the near future in anticipation of increasing business to keep pace with the rapid growth of this valley. The location is a most desirable one, it being directly on the county road which makes it possible for teams to drive up to the store. The docking facilities too are most desirable and will permit boats of any size that may enter this bay to land safely at his dock as the depth of water is sufficient to accommodate them at any stage of the tide. It goes without saying that the change will be beneficial to all concerned and especially to Mr. Boyakin who has been at a slight disadvantage in his present location, owing to the fact that his place of business is not located directly on the road. With this feature eliminated it is an assured fact that the volume of business will increase rapidly in the near future.

The channel between Nehalem City and Wheeler opposite Lodd's point is becoming a source of considerable annoyance to launch owners who operate between these places owing to the difficulty of getting over the shallow places at extreme low tide, and steps have been taken to secure a dredge to remove these obstructions to boat traffic. Word was received from Major McIndo of Portland who is in charge of this district to the effect that a dredge could not be secured until some time in July. This is a rank injustice to our port in our opinion as we are solely de-

pendent upon boat service to make train connections at Wheeler and unless some definite action is taken soon it will be utterly impossible for the Juneta to make her regular run owing to the extreme low tides in June, which was also the case upon several occasions last year. It is to be hoped, however, that the Nehalem Port Commission will succeed in getting a dredge before July and thus to be able to do some effective harbor improvement work within the course of two or three weeks at most.

Supervisor Thompson and crew have been busily engaged during the past two weeks in moving the rock crusher from its former location on the North Fork road about a mile from its junction with the road leading to Mohler, to Coal Creek where they have found a big ledge of suitable rock for road building purposes. The bins have already been put up and the hill excavated so as to give ample room for loading wagons. The dirt has also been removed from the rock so as to give them enough material to begin operating the crusher as soon as the roads are in condition to withstand the heavy wear incident to rock hauling. Mr. Thompson had twenty teams at work during the good weather of last week and was just getting his work lined up in good shape when the rainy weather again interfered with his plans. Deputy Supervisor Garry had eight teams at work hauling gravel from Neahkanle mountain to put on the road between Nehalem City and the beach. They were making splendid progress and would have finished graveling this piece of road at the end of two weeks if their plans had not been frustrated by unfavorable weather conditions which put a temporary halt on all activities. It is time, however, that the weather would become more settled soon and enable them to prosecute the work more vigorously. Supervisor Thompson has also been informed by Attorney-General Crawford that a public work after June 3 will come under the eight hour law so that he can only work his crews for that length of time after that date. It is now up to the county court to decide whether or not the present wage scale will prevail in road work for teams and men under the eight hour law, but it is quite probable that no reduction will be made, however, since the wages are not overly high when compared to other lines of work. Their decision will be awaited with great interest by those engaged in road work for the county.

#### HAPPY BEND.

Mesjames Stone and Jenson spent a few days visiting friends near Pacific City, the first of the week.

Mrs. E. P. Mills made a flying trip to Sandlake Monday, returning the next day. She was accompanied by Mrs. Virgil Magarrell and Della Mills.

Mr. Louis the cheese maker at Happy Bend, is a happy man as his wife and son have just arrived from New York. Mr. Louis has not seen his family for a year or two.

Miss Stone has left the Boulder district. She left last Thursday morning. She expects to attend school at Corvallis for a while.

Wilbur Booth brought his wife and children up to Blaine to visit with Mrs. Booth's mother Mrs. Smith.

Tom Blackburn and family went to Beaver Sunday. They had to camp for a while on the road as one of their horses got very sick. However, it got better and they made their trip all right.

#### CLOVERDALE NEWS.

From Courier.
