"That's the sixth Studebaker we've passed—the only kind to invest in"

"The only kind-because, as I always say, when a man puts money in a thing he wants to know that he's going to get the worth of it out again."

That's plain business as I look at it."

"That's why I say the price doesn't tell you anything at all. There's only one thing that talks-except the wagon itself. That's the name of the maker."
"When you buy a Studebaker you're buying a

vehicle that has behind it and in it sixty years of experience—sixty years of success—and sixty years of reputation for the square deal. That's why a Studebaker always looks good to me."

"My father used to say that Studebaker honor was as sure as a United States bank note. He was talking after having used Studebaker vehicles since he was a lad, and he told me his father before him said. Be safe—get a Studebaker."

"Vehicle builders can't hold that sort of reputation now-a-

days without delivering the goods. A Studebaker wagon has the best in it. That's why a man gets the most out of it—why it's

always an economy."

"Dealers may say to you something else is 'just as good.' But when you buy a Studebaker, you're making a said investment every time." See our Dealer or write us.

Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness if not corrected. Digestion begins in the mouth. Food should be thoroughly masticated insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

Advertise in the Herald, because the Herald, because the Herald because Food should be thoroughly masticated

the Herald has the largest circulation of any paper in the county.

SUPREME COURT SAYS PORT OF BAYOCEAN WAS ILLEGALLY ORGANIZED.

The Supreme Coart has affirmed the decision in the Port of Bayocean caseon appeal from the decision of Judge Galloway In the Circuit Court, who held that the election was illegal in that the territory embraced in the Port overlapped into other water sheds. Attorneys S. S. Johnson and T. B. Handley represented the citizens, who won out in both courts, while Webster Holmes had the Port's side of the case.

Following is the mandate of the Supreme Court :

This is a proceeding in the nature of quo warranto to test the legality of the organization of the port of Bay-ocean, an alleged municipal corporation claiming to have been organized under the provisions of the statutes providing for the organization of ports. The petition for an order for an elec-tion to determine whether the proposed port should be organized is in proper form and specifies the boundaries of the proposed port with convenient certainty. In the notice of the election, after specifying the place of beginning and several calls not necessary here to observe, occurs the following indefinite call: "Thence north five miles to the southwest corner of section 3, town-ship 2 south range 10 west of the Willa-mette Meridian, thence west one half mile, thence north along the quarter section line in section 4, township 2 south range 10 west of the Willamette Meridian, and sections 33 and 28 to the north line and section 28, township 1 south range 10 west of the Williamette Meridian"—the indefinite call being italicized. The proposed boundaries also included portions of the watershed tributary to Nestucca Bay, and a por-tion of the watershed tributary to Netarts Bay. The relators brought this proceeding alleging these errors and also fraud and irregularity in the conduct of the election, which matters are stated in the opinion. The court declared the proceeding void, and the de-

fendants appeal.

McBRIDE, C. J. The first contenttion of appellant is that by filing a
complaint against the corporation eo nominie relators have admitted the exstence of the corporation, and in sup-port of this proposition they cite 2 Spelling Extraordinary Remedies, 1844; 3 Abbott Mun.Cor., Sec. 1145, and numerous decisions. These do not apply in this case as the defendant is described, not as a corporation, but as a pretended corporation, and the persons claiming to be the officers are not described nor impleaded as such, but as individu-

als only.

We do not believe the notice of election sufficiently describes the exterior boundaries of the proposed port. The omission of one call from the description of the boundary leaves a hiatus to be supplied by the imagination of the person reading the notice. A defective description of a boundary in a deed may be corrected by a suit to have it reformed according to the true intent of the parties, but a misde-scription in an election notice cannot corrected nor reformed by any of proceeding. It must be absolutely definite in itself. This notice lacks that quality, and the proceeding is void. We are also of the opinion that the

inclusion of part of the watersheds of two other bays renders the proceeding void. In State ex rel. v. Port of Bay City, 129 Pac. 496, we held that a sub-stantial and not a technically mathenatical compliance with the statut sufficient; but the area of watershed tributary to other ports is so extensive in this instance that it passes beyond a nere technical deviation from statute and becomes a matter of substance. It is not contemplated that imbabitants of other ports shall be bound by the notices posted in the district proposed to be included, and their rights can only be protected by the ports refusing to sanction any substan-tial deviation from the area which the statute permits the inhabitants of any particular locality to include within their port boundaries.

The two propositions above discussed settle the case, but we deem it proper to call attention to the irregular manwhich the attestation of the qualifications of nonregistered voters was conducted. Sec. 3449. L. O. L., prescribes a form, designated as "Blank to be subscribed by a nonregistered person claiming the right to vote at an election, wherein he is required to set forth particularly his place of resi-dence and length of time he has resided in the state. This the Judges may require to be attested by not more than x witnesses, who must be freeholders of the county and who are required to subscribe to the following oath: the undersigned witnesses do swear that our names and signatures are genume; that we are each personally acquainted with the elector and his resience as stated, that we believe all his other statements are true, and that we are each freeholders in the county." It will be seen that there are two facts of which the witness must have actual and personal knowledge: (1) Of the actual residence of the person offering his vote; and (2) that he has resided in the state for six months immediately preceding the eletion. The statements of the intending voter, or of other persens, to the subscribing witness to the affidavit, are not sufficient to qualify him to testify as to the residence of the voter. He must know at first hand that the voter resides in the precinct and that he has resided in the state for six months; and this, of course, invoter for that period. It does not ap-pear that the subscribing witnesses to the affidavits referred to had any such acquaintance with the persons whose qualifications they vouched for. The witnesses did not even reside in the

(Continued on Page 4)
