TILLAMOOK, OREGON

OREGON YOUTH ROBS BANK AND ESCAPES

Glendale Institution Loses \$3000 in Bold Daylight Holdup by Lone Bandit.

Glendale, Or.—Headed by Sheriff George Quine, of Roseburg, a posse of experienced mountaineers are scouring the densely timbered districts west of Glendale in search of Ray Diamond, the 22-year-old desperado, who held up Acting Cashier R. P. Smith, of the Glendale State bank, Monday morning at 9:20 o'clock and secured something over \$3000 in cash.

Trained bloodhounds in care of their master arrived here from Cottage Grove, and soon after were given a scent from a pair of socks which were found in the fugitive's lonely cabin. The hounds took the scent and started over the rough mountain trail in a westerly direction, followed by the sheriff and members of the posse.

The country west of Glendale is thickly timbered and is traversed by hundreds of mountain trails. Many of these trails lead in the direction of Grants Pass, while others furnish a direct route to the coast.

Inquiry has satisfied the officers that Diamond had made careful preparations for the crime and that he is prepared to stay in the mountains for weeks if necessary. Only a few days ago he purchased 10 boxes of cartridges, and these he carried when he entered the bank. It is also said that he secretly has carried food over the mountain trail leading west of town for several days, and has the same cached in some isolated section of the dense wilderness within a few miles of Glendale.

That he will remain in hiding for several days before attempting to make his getaway is the belief of the officers working on the case.

GOVERNMENT LOSES SUIT

Titles of Settlers Between Two Proclamations Confirmed.

Cheyenne, Wyo.—The government suit against the Midwest Oil company—a test case involving the title to millions of dollars' worth of oil lands in California and Wyoming—was dismissed by Judge Riner, of the United States district court. While the government sought to recover only 4000 acres of land in this suit, the issue involved covers thousands of other acres of California and Wyoming lands included in President Taft's sweeping order, designed to conserve the country's resources and to afford the government a supply of fuel oil for the United States navy.

California Gets Batch of New Laws.

Sacramento, Cal.—A mother's pension act, a minimum wage commission act and a so-called "blue sky" act, the latter seeking to prevent wildcatting by promoters, were among a big batch of progressive measures signed here by Governor Hiram Johnson. A pipe line law, making oil ducts, now owned by big corporations common carriers, and an eight hour law for women, to include student nurses and employees of lodging houses and places of amusement, also were signed.

HAWAIIAN VOLCANO TO BE FORTRESS

Boston.—American troops in the Hawaiian Islands have taken possession of the crater of a large extinct volcano situated on the coast, and are working night and day to convert it into a fortress capable of withstanding a long siege. Ammunition and food supplies are being stored within it, guns are being mounted, a water supply has been arranged for and gardens have been planted on the slopes of the crater to provide food and thus render the place self-sustaining in case it is besieged for any great length of time.

This information reached Boston from an authentic source in Honolulu, and the communication further said that Americans residing in the Hawaiian Islands, including troops, are much exercised over the Japanese situation.

Lewiston Goods Confiscated.
Lewiston, Idaho.—The investigation by the state pure food commissioner of Idaho while in Lewiston resulted in confiscation of a large quantity of groceries and fruits.

KAISER WILHELM

Kaiser Wilhelm, emperor of Germany, who celebrated the silver anniversary of his reign Monday.

Brief News of the Week

Seventeen-year locusts are moving northward in Nebraska, after invading the southern part of the state, and have settled in Johnson county in large swarms.

Reports from Winnipeg, Man., say that crops in Manitoba and Saskatchewan are drying up under an intense heat wave, reaching at many points to 132 and 133 degrees.

The Servian and Bulgarian governments have both agreed to accept Russian arbitration in their dispute over the territory acquired during the Balkan war.

The federal government has filed an anti-trust suit at Chicago against the Quaker Oats company. This company controls 90 per cent of the oatmeal products of the country, and is known as the "oatmeal trust."

The women suffrage bill has passed the lower house of the Illinois legislature by a vote of 81 to 58. It already has been passed by the senate.

Official notice has been issued from Sacramento to all railroad agents in California that every shipment of potatoes must be held for rigid inspection. The order followed the discovery of a shipment infected with the potato tuber moth.

American troops were killed and 12 wounded in a desperate encounter at Bagrag with Moros under the sultan of Jolo, according to reports from Manila.

Appraisal of the estate of the late John Jacob Astor, one of the Titanic victims, has been completed at New York, and shows net assets of over \$85,000,000, of which nearly \$70,000,000 goes to Vincent Astor.

Orders have been issued by James J. Hill stopping all work on the Great Northern railroad lines that is not absolutely necessary, according to an announcement made at the general offices of the road. It was said the action was taken as a result of the recent supreme court decision in the Minnesota rate cases.

Night Fishing is Target.

Astoria.—With the avowed object of putting a stop to night fishing for trout in the various streams in the county, an organization of 200 sportsmen of this city and vicinity has been formed and each member has been appointed a deputy game warden to serve without pay but with authority to arrest offenders. Some of the best trout streams in this district have been practically ruined by the night fishers, who build large bonfires adjacent to some of the deep pools and as the fish attracted by the light rush in, they are slaughtered by the wholesale.

Mineral Resources to Be Detailed.

Ashland.—In accordance with an appointment from the state commission of mines, Dr. Winchell, of the faculty of the University of Wisconsin; L. E. Reber, of Madison, Wis.; Sidney W. French, of Corvallis, and C. B. Watson, of this city, will meet in Ashland to prepare a report on the mineral resources of the state of Oregon. The appointees have been making an exhaustive investigation of the various geological formations and mineral belts of the state.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

West Will Not Seek Office.

Salem.—Despite rumors to the effect that he would be a candidate for reelection and that preliminary arrangements for his campaign were being made, Governor West positively announced here that he would not be a candidate for the office again.

"I want it distinctly understood," declared the governor, "that anybody who says I will be a candidate for reelection does not know what he is talking about. I think when my term expires I will have accomplished all I started out to accomplish and that will satisfy me. There is much hard work connected with the office, and the remuneration is not such that a man can save any money."

Opinion of Liquor Shipments Given

Salem.—An opinion rendered by Attorney General Crawford holds that transportation companies cannot accept intoxicating liquor for shipment to dry territory unless they have in such territory an agent to keep a record of the shipments as provided in the bill passed at the last session of the legislature. It also is held that intoxicating liquor shipped into dry territory must be labeled as such, and a record must be kept by the transportation companies at the office where received and the office from which it is delivered.

Will Ask President to Aid Project.

Portland.—Secretary of the Interior Lane and the Oregon conservation commission are working in unison for a complete department of irrigation and water power projects of the state. Secretary Lane announces that, in cooperation with the Oregon commission he would ask President Wilson to set aside approximately \$450,000 for reclamation service use in developing the lands of the Deschutes valley, if engineers' reports are favorable.

TO RECLAIM TULE LANDS

Owners Anxious to Close Channel Between Lake and River.

Klamath Falls.—Owners of tule land bordering on the lower Klamath lake have begun negotiations with the reclamation service to close the channel connecting the lake with Klamath river. If this is done the lands will soon be reclaimed by evaporation. When the railroad was built across the marsh, concrete headgates to control the flow of water across the channel were partially installed through the efforts of Abel Ady, who owned most of the land across which the railway company had to get a right-of-way. The closing of the gates has been prevented by the Van Brimmer Ditch company, a private irrigation concern, which gets water from the lower Klamath lake. It is now proposed by the swamp land owners to supply water for the Van Brimmer ditch from the main canal of the Klamath project.

The channel could then be closed and close to 30,000 acres of marsh land made available for grazing and farming. The plan meets with the approval of the local officials of the reclamation service.

Chicago Women to Study Politics.

Chicago.—Special classes in politics for women are to be opened in some of the churches as soon as Governor Dundy signs the woman's suffrage bill passed by the legislature last week.

Subscribe for the Herald it costs twice each week.

"DROP IN AND LOOK AROUND"

PREPAY FREIGHT ON FRUIT

Railroads Take No Chance on Cars That Cannot Be Sold.

Seattle.—Fruitgrowers throughout the northwest are being notified by transportation companies that hereafter no fruit shipments will be forwarded unless the freight is paid in advance or guaranteed by some responsible person or bank.

The action of the railroad companies is brought about, it is said, by the fact that during the past season large amounts of fruit did not bring enough on the market to pay the expense of transportation.

The grower did not feel like digging down into his pockets for the amount of the freight bill, in view of the fact that he had received nothing for his fruit, and the commission men felt no obligation toward the railroad companies, so the roads lost out all around. They will take no chances the coming season.

"Bridle" Webber Stabbed in Back.

New York.—Bridle Webber, the New York gunman whose testimony aided in sending Police Lieutenant Charles Becker to the death house at Sing Sing, gave a new evidence of the grim spirit of the east side thug Saturday when he absolutely refused to give the name of a man who stabbed him in the back about 1 o'clock in the morning, probably in revenge for his turning informer.

Nebraska Farmers Give Pledge.

Lincoln, Neb.—To do their part in reducing the high cost of living, 200 Nebraska farmers have pledged themselves to devote their time, talents and energies to increasing the production of beef cattle in this state, and to follow the instructions of the university experiment station, which for several years has made a special study of raising cattle for beef by the best methods.

ADMITS OFFERING BRIBE TO SENATOR

Santa Barbara, Cal.—C. H. Ercanbrach was arrested by a deputy United States marshal on a federal indictment charging him with an attempt to bribe United States Senator Works. Ercanbrach wanted the appointment of postmaster here, and is alleged to have written a letter to Senator Works offering \$1000 if the appointment were procured for him.

Ercanbrach's letter was turned over to the department of justice at Washington by Senator Works. The department sent the letter to United States District Attorney McCormick here. The latter presented the matter to the grand jury and an indictment was returned.

Ercanbrach is a carpenter who is considered fairly well to do. No one knew he had political aspirations. He was surprised when the warrant of arrest was served on him. He admitted that he had written the letter to Senator Works, and added:

"I did not know it was a crime to offer to pay a man for getting a political job for you."
