Meats are high and it takes money to handle a meat business these days. The Tillamook Meat Company has the contract to furnish meat to the P. R. & N. at all points between Tillamook and Timber. For Flies On stock in and around barns Clough's Carbolic Compound is the most effective and cheapest fly killer made. It costs, ready to spray, from 7c to 10c a gallon. It is to be mixed with water and therefore is less expensive than other fly killers. Clough's Carbolic Compound is many times stronger than any other—one pint is sufficient for 16 gallons of spray.
