REALIZES DIPLOMACY DELICATE

Government officials, states and the people of the United States are almost to the point of realizing the delicate nature of the relations between the United States and Mexico. Huerta is anxious to develop, he does not want to see the representatives of the United States in a note, which in effect is a declaration of war. Huerta said it was now the duty of the United States to take the recent elections in the few precincts had in the voting and that the new congress would be called and he would inaugurate a programme of pacification.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Two Men Killed; Duel Indicated.
Prineville.—Evidently the victims of a rifle duel between themselves, the bodies of Felix Jones and Roscoe Brown were found at a remote spot on Grizzly mountain, near the sawmill of J. W. Jones, father of Brown's wife. The opinion is general that the fatal fight was due to Brown's jealousy for his wife.
The bodies were lying 36 feet apart. Jones had been shot through the back, while Brown had been shot through the chest. Each still clasped his rifle in his hands when found, indicating almost instant death in the case of each.

Breeding For Mutton.
Hood River.—85 men of Umatilla county are in the midst of their breeding season and reports from them indicate that many are changing from the fine wool breeds to the coarser, and that a number are also breeding for early or winter lambs. There seems to be a growing tendency among local flockmasters to pay more attention to the growing of mutton, the reason being the high prices of meat, and the change which the tariff has made in the wool market.

The increase over 1912 is \$42,172,346. Messrs. Eaton and Galloway, state tax commissioners, said the levy which would be made December 1 would be about 5 mills, a large increase being necessary to meet the appropriations and other expenses of the last session of the legislature.

WANT EXPERIMENTAL FARM Never Has Been Determined What Section Offers in Agricultural Way.

Klamath Falls.—The first steps have been taken to get an experimental farm for Klamath county. The county court has been asked to make a special levy to employ an expert and to maintain the farm. The members of the court have signified a willingness to further the movement.
Farming in the Klamath country is yet in the experimental state. A farm conducted under an expert should prove of material assistance to the early development of the farm lands of the vast area embraced in Klamath county. Rapid strides in farming have been made in recent years.

AMERICA REASSURED BY GREAT BRITAIN

Prime Minister Asquith Declares Political Intervention in Mexico Not Intended.

London.—Prime Minister Asquith discussed the Mexican question in his annual speech at the lord mayor's banquet.
"Our interests in Mexico," said the prime minister, "call for vigilant care. Mexico is still in the throes of a civil war, but there never was and never has been any question of political intervention by Great Britain in the domestic concerns of Mexico, or in the Central or South American states."
There have been rumors that after the United States had adopted a line of their own in regard to Mexico we took a line calculated deliberately to thwart America. There is not a vestige of foundation for such a rumor.
"We have recognized President Huerta, because, having neither the will nor the power to intervene, we were bound to deal with the de facto government, and, because of information then in our possession, there appeared to be no element except that of Huerta and his supporters which offered any prospect of the restoration of the stability and order."

CONVENTION WILL DECIDE Held That Republican Committee Cannot Change Representation.

Washington.—That power to change the basis of representation in the Republican national convention does not lie with the Republican national committee, although the committee has authority to call an intermediate convention to act on the question, was determined by the law committee of the national committee, after an all day discussion of various questions referred to it preparatory to the meeting of the national committee here next month to consider reorganization of the party. The law committee decided that if the national committee should decide to call a convention, the basis of representation would have to be just what it had been in the past.
It was also agreed that the committee had no power to alter the meth-

BLIZZARD SWEEPS OVER GREAT LAKES

Chicago.—The shores of Lakes Superior, Huron and Erie were strewn with the wreckage of a three-day gale and snow storm, which cost the lives of probably three-score persons, turned bottom up in midlake a 300-foot steel vessel with its crew, wrecked or grounded numerous other craft and caused a property loss which will run into the millions.

On land the storm hit hardest at Cleveland, where five persons were killed and 19 others lost and where \$2,000,000 damage was caused. The death toll, with many ports unreported, is told thus:
Twenty-five or 40 men probably drowned in the overturning of a freighter found floating in Lake Huron.

Five bodies washed ashore at St. Joseph, on the Canadian side of Lake Huron (four had belts marked "Wexford" and one wore a belt marked "London").

Three bodies washed ashore on the west shore of Lake Huron.
Two bodies washed ashore opposite the position of the overturned boat.

Six members of a party drowned in Lake Erie, near Buffalo, N. Y.

Seven bodies washed ashore at Kettle Point, Lake Huron, and seven other bodies rolling on the decks of a ship wrecked there.

It is interesting to note that future conventions and that it would be inexpedient to make such a change except in accordance with state legislative action.
