Capt. Stillwell Celebrates Birthday

89 years old last Sunday. The Occasion Serves as a Reunion of Old Pioneers.

W. D. Stillwell, familiarly known as Capt. Stillwell, on Sunday last celebrated his 89th birthday, amid relatives and friends. Mr. Stillwell, who is a veteran of two Indian wars, and who is now vice-president of the Oregon Pioneer Association, is a well preserved man for his age, and looks and acts much younger than he is. However, he is compelled to walk with a cane on account of an Indian arrow head which lies embedded close to the hip bone. Capt. Stillwell is a veteran of the Cayuse War of '47-'48 and the Yakima War of '55-'56. Mr. Stillwell was Sheriff of Tillamook County during the years of '72-'73, during which time the entire tax collected was not more than \$2000 each year.

One of the guests at the celebration was a brother, T. J. Stillwell of Bandon, Or. The visiting brother is accompanied by his wife. He is also a well preserved man for his age. T. J. Stillwell was a resident of Tillamook County from '65 to '68 and during that time was sheriff of the county. The annual tax for the county at that time amounted to \$6000. This is Mr. Stillwell's first visit to Tillamook County in 42 years.

One of the features of the celebration was a splendid dinner provided by the ladies. Those present claim that the ladies more than outdone themselves.

The following guests were present: Captain W. D. Stillwell, Eli Okis, W. H. Hayes, Mr. and Mrs. Thomas Stillwell, Mr. and Mrs. G. W. Grayson, Mr. and Mrs. Dave Martiny, Mrs. Rhoda Johnson, Mr. and Mrs. Arthur Stillwell and son Billy, Mr. and Mrs. Robert Stillwell and daughter Marcia, Mr. and Mrs. Geo. Bean, Mr. and Mrs. L. L. Stillwell and son Lee, M. V. Stillwell, Mr. and Mrs. Fred Davidson and daughters Illa and Ella and Baxter Stillwell.

JOS. ATKINSON WRITES TO THE HOME FOLKS AGAIN.

N. A. S. Aberanda, Shanghai, China. Oct. 8, 1913.

Dear Mother: I am off the Cincinnati at last and hope I never see her again.

There are twenty-six of us here on the Collier and we sure are having a fine time—plenty to eat and nothing to do. We can sleep all the time if we want to and go ashore when we feel like it and come back when we get ready. We will probably be here ten days yet and may be longer but are pretty sure of about a month on this ship before we get to Manila as she will stop at Hongkong a few days.

The Albany leaves for home tomorrow and is taking all the short timers on the station. She is flying her homeward bound pennant. It is four hundred and fifty feet long and is made of silk. It is the largest pennant that ever left the station.

We will get some more men on here as soon as the Saratoga gets back from Chefoo. I have been here three days now and spent one night aboard and eat one meal on ship so far and will go ashore again after dinner. It sure is easy on here. The ship has a Filipino crew but they don't stay in the same part of the ship with us and we get better grub than they do.

I expect to have it pretty easy on the tug boat I am going to, but of course can't tell yet what she will be like. They say all we'll have to do is to see that the Geo Goos do their work right and stand engine room watches.

I am glad to go to the Islands it is always summer down there and I like the people better, it is a more civilized country than this. Although it gets pretty warm some times a person gets used to the heat down there and don't notice it very much. It is as healthy there as any where now days, they seldom ever have fever there any more since the Americans got hold of the place and cleaned it up.

Well it is dinner time now so I will have to quit and eat. I am going ashore after dinner. Write soon.

Joe.

For sale; five cows, one being fresh, also two bulls. Cason & Downs, Blaine, Ore.

HIGH SCHOOL NOTES.

Last week was Institute week and as a result news is very scarce about the school. The students have had a five days rest from intellectual duties and consequently the thinking machinery has become a little rusty. But we trust that the teachers fresh from oily Institute, can straighten things out and start the wheels rolling again.

The Football Team, accompanied by a large crowd of students and Prof. Moore, left for Forest Grove on Friday. They were given a royal reception by the Grovites. One feature of the reception was an address by the Tillamook Manager, Coach Moore had a conveniently bad cold and Captain Stanley was mysteriously absent at the time hence Manager Ebbeson was given the honor of responding with words.

On Saturday our boys met the Forest Grove team for a football game which resulted in a defeat for Tillamook by a score of 16 to 3. The three points secured by Tillamook was made when King kicked a field goal early in the game. Forest Grove's score was the result of two touchdowns and a safety. The most sensational feature of the game was an eighty yard run for a touchdown by Ireland, Forest Grove right half.

The line up was as follows:

Forest Grove	Tillamook
Miller, Capt. F B	Ebbeson
Ireland R H B	King
Higley L H B	Stanley, Capt
Taylor Q B	Anderson
Doane C	H. Harris
Lantrall R G	De Lillies
Hutchens L G	Roquist
Thompson RT	R Harris
Todd LT	Crimmons
Swanson RE	Case
Norton LE	Newman

Saturday night after the game a banquet was given by the Domestic Science Girls of the Forest Grove High School. The banquet consisted of four nicely prepared courses, but someone stole the third course. The boys report a good time and feel that they were treated the best possible in every way.

The Webster Club had its weekly meeting on last Tuesday. The question, Resolved, "That the United States should maintain a large navy," was debated. The Negative received the decision.

Loud Sox day was duly but untimely celebrated last Tuesday. The girls also celebrated the day by school girl braids of hair and queer kinds of ribbon. We admire the enterprise of those who proposed this affair and hope similar undertakings may be undertaken, but not by the undertaker as this affair should have been. The idea in itself is alright, however it would be very much better if the regular date for Loud Sox Day had been used instead of a date that signifies nothing of this nature.

CLOVERDALE NEWS

From Courier: Reports have it that Miss Katie Bauer, of Neskowin, was wedded yesterday at Tillamook to Tillman Trent, of Neskowin.

Carl Hatfield, of Ewen, Michigan, brother-in-law of the Willett Bros., formerly of this place, was in Cloverdale Wednesday to look at the mill property here with a view of taking it over and operating the same. Before leaving for Portland he was unable to say what he would do in regard to it.

J. J. McGinnis of Hebo has bought residence of Elmer Webb, at Cloverdale and will move here some time next summer. Mr. McGinnis has also purchased from Mr. Ray six acres of the meadow land opposite this residence.

United States Customs Officers McGrath and Trowbridge, of Portland, were here this week checking up the power boats on the Nestucca river and advising the fishermen regarding the use of lights while caring for their nets at night.

News reached here this morning of the serious accident which befell Andy Heater yesterday. In some manner Mr. Heater fell against one of the iron tanks at the cannery cutting a large gash in his head. The loss of blood was so great that it was feared he would bleed to death before it was stopped. Dr. George was summoned and drove to the cannery last night where he attended the injured man.

Trojan Blasting Powder leave no bad effect after using. None better. Get literature and price from the Tillamook Feed Co. See Shrode.

Our Weekly Portland Letter

Oregon Hen Produces 303 Eggs in One Year. Today is Apple Day. Pigs Profitable.

Portland, Ore. Nov. 18 (Special)—A short time ago the Oregon Agricultural College announced the fact that a cross-bred hen had turned out 291 eggs in her first twelve months of usefulness, stated that no other egg machine had ever before reached that rate of speed. Now, the college announces, the original best-hen-in-the-world will have to take a back seat, as another bird at the same institution has succeeded in laying 303 eggs in exactly one year. This new hen, like the former record-breaker, is a cross between the Barred Rocks and White Leghorns.

Professor Dryden, in charge of the poultry department at the college, says that no special attempt, outside of the breeding, was made to secure high records. The methods followed in feeding and general care were such as might be profitably followed by any farmer or owner of poultry. The 303 eggs produced by the record-breaking hen weighed 42 pounds, or about eight times the weight of the hen herself, and were remarkably uniform in size, shape and color. Many requests have been received at the college to place the hen on exhibition, but on account of her great value as a breeder it has been decided that the risks are greater than the value of the advertising.

Widespread observance of apple day, Nov. 18, is expected to give the Oregon apple one of the greatest bits of advertising it has ever received. Apples and apple dishes will be served in hotels and restaurants all over the United States. Scores of menus and promises of co-operation have been received at the Portland Commercial Club, even far away Alaska having fallen in line, and newspapers all over the country are boosting the matter along.

Eight pigs, six months, 1632 pounds, \$123.00. This is a condensed story of what has been accomplished by a farmer at Independence, Oregon, who recently hauled his pork to market and disposed of it. Each hog was 6 months old and averaged 204 pounds, making an average value of \$15.38 a head, or \$2.56 per month per hog. "Never let your pigs make hogs of themselves," is the advice of a prominent farm expert in urging farmers to hurry the growth of their pigs and getting them to market when from 6 to nine months old.

Of great interest to every section of the great Columbia basin is the announcement, made by James J. Hill himself within the past week, that a new line of steamers will be put in operation between the mouth of the river and California points within the next fifteen months. Two fine combination freight and passenger steamers are now being built at Philadelphia, and it is said they will be the fastest vessels ever sailed under the American flag. Each will have capacity for 800 passengers and 1,500 tons of freight, and they are expected to beat the present best railroad time between Portland and San Francisco by about four hours.

For rent, a three room furnished house. Call at Herald office or Bell phone 111 J.

"THE MOST PROFITABLE APPLES."

In the Fruit Grower and Farmer of Nov. 1, there is an interesting article on the above subject. Each locality has its best varieties. Prof. W. N. Hutt says, "Other things being equal the man of average intelligence on the ground familiar with local conditions is in better shape to pass final judgment as to varieties than any one else, regardless of training or experience." I thought when I read the above article it might be well to write something on the most profitable apples to grow in Tillamook County. I find that some apples grow to perfection in some places of this county, but I would not recommend the people of Tillamook to go into the apple business to any great extent. Most of the farmers want to plant a small home orchard, but if your land is all river bottom I would not advise even that, for your land will pay better in something else.

If you have proper soil and location, the following varieties will do well: Summer—Yellow Transparent, Duchess of Oldenburgh and Early Harvest.

Fall—Gravenstein, Bismark, Winter-Banana and King.
Winter—Baldwin, Grimes Golden Yellow Belleflower, W. W. Pearmain and The Missing Link. The list is some that do well here. There are other varieties that do well, but if you plant the above list and care for the trees, you can have apples all the year. But you cannot have good apples unless you care for your trees no more than you can have good cows and not feed them.

There are two things you must do, three things necessary to produce fine apples:

1. Cultivate. 2. Prune. 3. Spray and thin the apples. A tree cannot do its best with grass or weeds sapping the life from its roots. Neither can it when loaded with useless limbs.

It is better to raise one box of apples worth \$1.00 than two worth 50 cts. I like to take something to market that commends my place if I raised it. Take something good and they will want more. This is a safe rule to follow in anything you have to sell.

It always pays to raise the best, to fail, is a waste of time, a waste of soil, a waste of sunshine and a waste of rain. Let us not be wasteful in Tillamook.

Yours for the success of Tillamook County,
R. Y. Blalock,
Beaver, Oregon.

There will be a basket social at the Hebo school, Friday evening, Nov. 21st. Baskets will be auctioned off and there will be a program. Everybody is invited.

"DROP IN AND LOOK AROUND"

On Your Own Account

have you any money in the bank? A part of your earnings ought to be placed there, anyway. Everybody can afford to save something, however little. Have a bank account of your own and you will feel happier, better, more independent. Make your little money earn more, and so grow bigger. Better than hoarding it where fire or thieves can reach it. Your bank-book is a receipt and an evidence of your wise economy.
