HUERTA CONTINUES TO OBTAIN MONEY

Mexico City.—Financial impoverishment and an increasing organization among scores of rebel bands have reduced the provisional government to what appears to be a desperate situation, but conservative residents of the federal capital profess to believe, in view of the recent military operations and the fact that Provisional President Huerta continues to secure money even though in small amounts, that the government may not fall for many months unless some unexpected turn for the worse occurs.

In all departments there was little delay in meeting the pay rolls. That the government may not be able to float another loan is conceded by Mexicans generally, but none has lost sight of the fact that the country is rich and that General Huerta as a last resort would not hesitate to take money where he could find it.

Already the cabinet has discussed the confiscation of the property of all individuals who are known to have arrayed themselves against the Huerta government.

Huerta Saves Bank by Holiday.

Mexico City.—Owing to protracted runs on the large banking institutions President Huerta issued a decree proclaiming banking holidays. With the possible exception of one other institution it is believed that no other bank than the Bank of London and Mexico will take advantage of the official edict, which authorizes financial institutions to do as little or as much business as they desire during what is regarded as a financial crisis.

The approximate amount withdrawn from the Bank of London and Mexico since depositors began demanding their money, several days ago, is said to exceed 17,000,000 pesos. Of this amount 14,000,000 pesos (\$7,000,000) was withdrawn since last Tuesday.

UMATILLA PROJECT STARTED

Secretary of Interior Orders Operations on West Extension at Once.

Pendleton.—H. D. Newell, engineer in charge of the Umatilla project at Hermiston, received orders by telegraph from Secretary of the Interior Lane to begin operations on the west extension of that project immediately. As this order has been eagerly awaited, no time was lost, and within one hour after the message was received a crew of men were busy locating the first construction camp. This will be about two miles west of Hermiston.

The 70,000 acres contained in the west extension will be reclaimed by units. There are 10,000 acres in the first unit. The principal part of the work will be the construction of the diversion dam across the Umatilla river, making a reservoir of the river valley. This dam will be located two miles west of Hermiston. Following the completion of the first unit, a second dam will be built across the river near Stanfield, converting a large part of the Umatilla meadows into a reservoir.

WISCONSIN EUGENIC LAW RECEIVES BLOW

Milwaukee.—The eugenics marriage law, which will go into effect January 1, received a blow when Horace B. Walmaley, an attorney, issued a statement that a marriage ceremony in Wisconsin was unnecessary and therefore the eugenic measure was useless.

"All that is required in this state is that two persons who are not married at the time agree to accept each other as mates," said Mr. Walmaley. "No service is necessary and the physical examination required by the late law cannot be enforced."

The contention of Mr. Walmaley is based on a decision of the state supreme court, April 8, 1913. The decision holds that any man or woman not married at the time may make a legal and valid contract of marriage without any license, medical examination, priest, clergyman or magistrate.

REFUSE TO OBEY ORDERS

Baker Sheriff Refuses to Close Copperfield Saloons.

Baker, Or.—Ed. Rand, sheriff of Baker county, flatly refused to carry out Governor West's order to close the saloons at Copperfield, and said that the only way he knew that the governor could have his wishes carried out was to declare martial law at Copperfield and take in the militia and enforce the law with their assistance. Mr. Rand declares that the district attorney has advised him that there is no law on the statute books which would warrant his closing the Copperfield saloons or any other saloon which has a license, and that therefore Mr. West's peremptory order must go unobeyed.

Sheriff Rand and District Attorney Godwin were disposed to make light of conditions at Copperfield, and declared that the governor had been led to believe that a condition of lawlessness existed, when, as a matter of fact, there was nothing, they said, other than a neighborhood quarrel.

Lictor Visits Centralia.

Centralia, Wash.—Governor Lister was in Centralia to look over the typhoid situation. The governor had a decidedly optimistic view of the situation. He said that he had found conditions not half as bad as they had been rumored.

MONROE DOCTRINE QUESTIONED IN CHILE

Colonel Roosevelt and Chilean Ex-Diplomat in Heated Argument.

Washington.—Members of the diplomatic corps, especially representatives from the South American countries, were greatly interested in a report reaching Washington that ex-President Roosevelt and Dr. Marshall Martinez, at one time Chilean minister to the United States, clashed in Santiago de Chile on account of divergent views on the Monroe doctrine.

The reported debate attracted unusual interest here because both of the prepared speeches were reviewed before delivery by the Chilean foreign office.

In his address at the Roosevelt re- the Monroe doctrine as a dead issue and arguing that the conditions which gave rise to its promulgation by President Monroe in 1823 have almost entirely disappeared.

This statement is said to have aroused the ire of Colonel Roosevelt, who replied with some heat, holding that the Monroe doctrine still was a vital principle of the foreign policy of the United States. He is said, too, to have suggested to the Chilean diplomat incidentally that it was ill-advised on such an occasion to inaugurate a controversy.

Nothing official has reached the Chilean legation here concerning any phase of what diplomats are inclined to consider a delicate situation.
