## City Council Meets In Regular Session

Several Matters of Importance Discussed. G. B. Lamb Elected Chairman. Treasurer Gaylord Demands More Pay.

On Monday evening the city council met with the following officials present: Mayor, F. R. Beals; Councilmen, A. G. Edmunds, S. A. Broadhead, M. Melehoir, Geo. B. Lamb; City Attorney H. T. Botts; Recorder, P. W. Todd. Geo. B. Lamb was elected chairman of the council.

A resolution was passed directing the city treasurer to pay warrant No. 1343 for \$884.66, which was issued to the Warren Construction Co., to cover the discount on a warrant previously issued to the company. The treasurer was also ordered to deduct and not pay \$112.04 of another warrant said sum being a commission paid the Warren Construction Co., in connection with the payment of a premium of \$1,120.48, for employer's liability insurance secured by the city for its protection against claims for damages for workmen and employees employed in the construction of the storm sewer.

The finance committee asked further time to report on the report of the Recorder and Treasurer.

The city attorney was instructed to draft an ordinance regulating drays and auto trucks.

Petition of Mrs. Royal Stillwell to furnish rest room with table and chairs was referred to the ways and means committee.

Application of F. D. Small and D. C. Urie for a city light and power franchise as well as the application of the Tillamook Light & Fuel Co., for another franchise was referred to the street committee.

The committee on health and police was instructed to inspect the city jail and order necessary improvements.

The city attorney was directed to confer with Attorney Gearin of Portland as to the advisability of appealing the pavement case, the city being a defendant with the Warren Construction Co. in the suit. From a technical standpoint it may be necessary for the city to take action on an appeal in order to protect its interests.

Attorney Clausen, president of the fire department, asked the council to take up the consideration of an ordinance in regard to better safeguards against fire. An ordinance relative to this matter was placed before the council last year, but nothing was done about it. The mayor instructed the recorder to look into the matter and resurrect the ordinance presented last year.

Mayor Beals made the following appointments on the library board: Messdames Groat, Willett and Everson.

A motion was made and carried giving the mayor authority to draft ordinances bearing upon the reforms as suggested in his message, and incur whatever reasonable expense might be necessary for the securing of good legal advice in regard to the matter.

City Treasurer Gaylord asked the council for a raise in salary, stating that if his salary was not raised he would not qualify for another term. The salary of treasurer is now \$75.00 a year. Mr. Gaylord wants \$15.00 per month and the city to pay the expense of his surety bond. The matter was referred to a committee.

## "WHEN SMITH LEFT HOME."

Will be offered at the Star Theatre by the Dramatic Club in a few weeks. This is a comedy, of modern, up to the minute style. It will make you laugh, if there is such a thing concealed anywhere in your composition. Only the very choicest of plays will be offered at all, so you can feel assured, if you see a play presented by the Club, it will be good, or it will not go on. Mr. McCowell is very careful in selecting plays, and only uses those that can be handled by the members. He assures us this play is a very funny one, and one the company is making good progress with. The date will soon be announced.

Mrs. Lydia Morgan, who now owns the Watch Tower building, recently found several leads that had been damaged by fire when that building was occupied by the old Watch Tower printing plant many years ago.

## RAILWAY TRAFFIC TO BE RESUMED JANUARY 27TH.

We have received word from the officials of the P. R. & N. to the effect that in case there are no more bad washouts or slides, railway traffic between Tillamook and Portland will be resumed on January 27th. Traffic between Tillamook and Mohler was resumed on Monday with the following schedule: Train leaves Tillamook at 7:30 a. m., arriving at Mohler at 9:04 a. m., arriving at Tillamook at 4:35.

When traffic is resumed between Tillamook and Portland trains will leave Tillamook at 7:30 and arrive here from Portland at 4:35 p. m., instead of at 4:15 as has been the case.

## SCHOOL SUPT. BUCHANAN MAKES ANNOUNCEMENT

The second semester of the present school year in the Tillamook Public Schools will begin Monday Jan. 26th. The work required in each grade is divided in two parts each of which is completed in a half year. Pupils in each grade who are doing the first half of the work for that grade are styled the "B" class and those doing the second half are the "A" class. Pupils who have satisfactorily completed the work of the "B" class will be promoted to the "A" class of the same grade while those who have finished the work of the "A" class will be promoted to the "B" class of the next higher grade.

All children six years old or over who have not attended school, or who dropped out without completing the first half year's work, should start at this time as the "B" class of the first grade is arranged for just such pupils.

A new ninth grade or high school class will also start at this time. Pupils who have just passed the eighth grade examination or who failed in but one subject are entitled to enter this class and are urged to do so, no matter whether they live in Tillamook school district or not. Also those who dropped out without finishing the first semester's work are urged to start again. Beginning classes in English, Algebra, Botany, Roman History, Bookkeeping and advanced Arithmetic will be offered.

Very truly yours,  
J. W. Buchanan, Principal.

## FOREST NOTES.

The American forestry association has members in every state in the union, in every province in Canada, and in every civilized and semi-civilized country in the world.

Makers of phonographs are aiming to use wood instead of metal in all parts of the instrument where this is possible, in order to increase the mellowness of the tone.

On the Pocattello forest, Idaho, 230,000 trees were planted during the past year, and almost half a million during the past three years, fully three-fourths of which are alive and doing well.

Experiments in the use of aspen for shingles show that the shingles do not check in seasoning, and that they turn water satisfactorily, but that they are too easily broken in handling.

There are somewhat more than 500 recognized tree species in the United States, of which about 100 are commercially important for timber. Of the 500 recognized species, 300 are represented in the government's newly acquired Appalachian forests. All American species, except a very few sub-tropical ones on the Florida keys and in extreme southern Texas, are to be found in one or another of the national forests.

Mr. and Mrs. Lewis Wilson and daughters Frances and Iva were in the country over Sunday visiting Mrs. Wilson parents, Mr. and Mrs. F. E. Pangborn.

## Tillamook High School Notes

Mid-Term Finals This Week; Chess and Checker Club May be Organized; Freshmen Sustain Defeats At Basketball.

This week is the time for mid-term finals and a busy time it is. Some of the students, those with grades above ninety per cent will get out of the examinations, but many of them will be compelled to take the finals. Examination time is always a time of horror to the school but it will be worse than ever this year since the classes will be taught along just the same during finals. This method will work quite an unnecessary hardship on those who must take the examinations for they already not as far advanced as those who escape the finals, will lose several days work and be considerably behind after the examinations are over.

There is a movement on foot at the present to organize a Chess and Checker Club, more properly stated Double C Club, among the students. The preliminary steps have already been taken for the organization of a Camera Club.

The work on the Junior Annual is progressing nicely. Joke Editor Schueller reports a good supply of jokes to be coming in. The Juniors have undertaken an enterprise requiring a great deal of work and as it will be of benefit to all the school, the other classes should assist them as much as possible.

In the sphere of basketball the poor Freshmen have been getting sadly worried. Friday night they met the Juniors and were defeated by a score of 25 to 7. The chief feature of the evening was the basket throwing of Cliff Jope; Cliff threw eight field baskets and one foul during the game. Last week the Seniors defeated the Freshmen 23 to 6; and by comparison with the junior score over the Freshmen, the Juniors would appear slightly superior. Whether they are or are not will be settled this coming Friday by a Senior-Junior game. Before the Junior-Freshmen contest a preliminary scrub game was played.

## KNIGHTS OF PYTHIAS INSTALL.

Everybody that attended the Knights of Pythias installation last night report having spent the most enjoyable evening ever spent in Tillamook.

The following officers were installed: P. C. C., C. C. Johnson; C. C., J. Selby; V. C., John Zunstein; P. E. J. Geinger; K. of R. & S., H. E. Edmunds; M. of A., B. Stillwell; M. of E., H. Rogers.

T. B. Handley acted as installing officer assisted by E. W. Stanley and N. J. Myers.

A fine program consisting of several piano solos by Leland B. Erwin and vocal music by Mr. and Mrs. Frank Rhodes, John Zunstein and several others was enjoyed beyond measure.

After a bounteous supper and more music every body departed to their several homes very much pleased with their evenings entertainment.

## STATE ENGINEER ISSUES PERMITS FOR WATER RIGHTS

During the quarter ending December 31, 1913 the State Engineer issued 88 permits for the irrigation of 6,933 acres and the development of 1,958 horsepower. Among these permits was one issued to F. D. Small of Tillamook, and D. C. Urie of Camas, Washington, for the development of 1,209 horsepower with the waters of Trask River in Tillamook County.

For the year 1913, a total of 446 permits were issued for the appropriation of water. Under these permits 42,181 acres will be irrigated, 39,225 horsepower developed and 41 reservoirs constructed at a total cost of \$44,000,000.

Permits issued in Tillamook county for the past quarter are as follows: The Title and Trust Company of Portland secured a permit to use waters of Lewis and Clark River for municipal water supply. This is to supply the town of Gearhart and adjacent towns. J. W. Hunt of Tillamook for domestic supply with the waters of Fall Creek, to be diverted in Sec 31, T p 1 S., R. 10 W. P. J. Trough of Beaver for domestic supply with the waters of Trough Springs located in Sec 30 T p 3 S R 9 W. H. C. Sanders of Cloverdale, for irrigation of 12 acres, including domestic use. The water being diverted from Sanders Creek in Sec 21, T p 4 S., R 10 W. The Brighton Development Company of Portland, for domestic supply, diverting the water from Mess-house Creek in Sec 16 T p. 2 N., 10 W.

## NOTICE TO TAXPAYERS

All tax including half payments remaining unpaid April first will be collected with an interest charge of one per cent per month until September first when all tax becomes delinquent and an additional penalty of ten per cent will be added. Please give a complete list of all property you wish to pay taxes on when writing for statement.

B. L. Beals,  
Tax Collector.

Referees: Lamar and Bain.

Basket Ball, Opera House, Friday Jan. 23, 7:30 P. M. Juniors vs. Freshmen (2nd Teams). Juniors vs. Seniors (1st Teams). Admission 15cts.

## On Your Own Account

Have you any money in the bank? A part of your earnings ought to be placed there, anyway. Everybody can afford to save something, however little. Have a bank account of your own and you will feel happier, better, more independent. Make your little money earn more, and so grow bigger. Better than hoarding it where fire or thieves can reach it. Your bank-book is a receipt and an evidence of your wise economy.
