A. F. COATS LUMBER CO.

The Distance Between

# WHEELER

## Nehalem City

Is less than 2 miles. Between these two towns there is more traffic than between any other two towns in the county located but that distance apart.

Yet to drive a team from Wheeler to Nehalem you would have to drive over 10 miles around through the valley.

A wagon road between the towns of Wheeler and Nehalem should be built at once and thus eliminate the waste of time and money occasioned by forcing traffic over a 10 mile haul instead of over a two mile haul.

We believe work should be started on this project at once.
