ESTELLE FRANKLIN GRAY AND HER COMPANY.

Miss Gray's success has been instantaneous and universal. Although still but a girl, she has attained a recognized position as a legitimate artist of the highest rank in the great musical centers of the United States, Canada and Europe.
Miss Gray gave her first violin recital when ten years old, at which time she played the Mendelssohn Concerto. Even at that early age the San Francisco critics recognized her individuality.
From early childhood she has won a series of scholarships that has given her an opportunity to study under the greatest masters of the west, New York and Europe.
Miss Gray plays with a warmth of tone and a freedom of bowing that is masculine in its breadth, and yet with feminine charm. She is distinguished for her unobtrusive graciousness of manner and simplicity as much as for her music as an artist.
Miss Florence Crawford, pianiste of this company, has remarkable ability. She rapidly won favor in New York, where she studied and played in concert, appearing several times with the Philharmonic Orchestra. She has been before the public for many years and plays with brilliancy and buoyant musical feeling. She astonishes her audiences with her strength, endurance and her manipulation of difficult and rapid passages.
Miss Margaret Gray always travels with her daughter. Mrs. Gray is a center of great ability and has won success from end to end.
She is a great favorite with audiences and gives readings with music, spoken songs or character delineations at the option of the local management.

The Distance Between WHEELER And Nehalem City

Is less than 2 miles. Between these two towns there is more traffic than between any other two towns in the county located but that distance apart.
Yet to drive a team from Wheeler to Nehalem you would have to drive over 10 miles around through the valley.
A wagon road between the towns of Wheeler and Nehalem should be built at once and thus eliminate the waste of time and money occasioned by forcing traffic over a 10 mile haul instead of over a two mile haul.
We believe work should be started on this project at once.
