## OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout  
the State During the Past  
Week.

### Plan to Secure Tourist Traffic.

Portland.—Officials of four trans-country railroads terminating in the northwest and representatives of commercial organizations in Portland, Seattle, Tacoma and Spokane held a conference here and planned a joint campaign to bring to the northwest as large a share as possible of the influx of eastern tourists expected on the Pacific coast next year.

The plan calls for the establishment of a permanent northwestern tourist and travel bureau at Chicago, which will act as a clearing house for all exploitation, publicity and advertising done by each of the northwest cities by each of the roads.

### Fifty-Cent Pieces Bad.

Salem.—The police of Salem are looking for a mysterious woman, who has passed numerous counterfeit 50-cent pieces here.

It is not believed that the bogus money was made in this city or county, but the theory of the police is that the woman is a confederate of the counterfeiters and was sent here to dispose of as much of the bogus money as possible. All the coins were printed in the same mold and were made by an expert.

### "Miss-Fire" Facts Told.

The Dalles.—That in one single day he unearthed 20 "miss-fired" holes of dynamite, any one of which, had the "exploder" been struck, would have resulted in an explosion similar to the one which resulted in the disaster on The Dalles-Celilo canal works, when four were killed and as many injured, was the testimony of R. S. Morris before the coroner's jury which is investigating the cause of the explosion.

### Held on Serious Charge at Condon.

Condon.—Bert Strickland, who says his home is at Gladstone, Or., was arrested here charged with setting fire to the Oregon hotel, which burned to the ground, causing one death and several serious injuries. He was arraigned before Justice Hollen and after considerable evidence had been given, was bound over to appear before the next session of the grand jury. His bond was fixed at \$4000.

### MANY SEEKERS FOR OFFICE

Filing Time Ends with 258 Aspirants in the Race.

Salem.—Petitions and declarations of 258 aspirants for party nominations for state and district offices had been received by Secretary of State Olcott when the time for filing ended. The number sets a new record, and a score or more of exciting contests are assured.

Of the aspirants 199 are republicans, 44 are democrats and 15 are progressives. In 1910, 81 republicans and 23 democrats filed, and in 1912, 125 republicans and 54 democrats filed.

The increase in filings is due largely to an amendment of the primary law passed at the last session of the legislature providing for aspirants for all except county offices to file with the secretary of state. The change has greatly increased the work here and as a result Mr. Olcott has had day and night forces of clerks at work for more than a week and there still is a large amount of work to be done.

Of all the contests, that for governor promises to be the most exciting. There are 16 aspirants for party nominations, a new record, and all are actively engaged in campaign work.

### Brief News of the Week

The faculty of the university of California has voiced a vigorous protest against that portion of the proposed immigration bill which virtually excludes Asiatic students from American universities.

For fear that they will interfere with the plans of the prohibitionists to secure nationwide prohibition, the anti-saloon forces of Nebraska have halted their fight in that state for a law preventing saloons from locating two miles from any state institution.

The reserve clause in the contracts of "organized" baseball players was held to be invalid and unenforceable, in a decision handed down by Federal Judge Clarence W. Sessions in denying the application of the Chicago Federal league club for an injunction to restrain Catcher William Killifer from playing with the Philadelphia National league club.

Co-ordinate development of the greatest possibilities that lie in the Columbia and Snake rivers and their tributaries, is the aim of the Columbia and Snake River Waterways association, and every phase of this work as it deals with improvement of navigation and harnessing of water power were discussed by experts at the fifth annual convention which opened at the Portland commercial club Monday morning.

## WARSHIPS WILL BACK DEMAND FOR SALUTE

Atlantic Fleet Is Ordered to  
Mexican Waters to Force  
Apology.

Washington.—President Wilson ordered practically the entire Atlantic fleet to Mexican waters to force a public salute to the stars and stripes from the Huerta government as an apology for the arrest of American marines at Tampico last week.

No ultimatum has been issued—that is, no specified time has been set within which the Huerta government must comply—but the naval demonstration has been ordered as a concrete evidence of the fixed determination of the United States to back up Rear Admiral Mayo's demand.

The status of the case as summed up by cabinet officers and other officials familiar with the facts was described as follows:

"Assistant Paymaster and Charles C. Copp and a boatload of bluejackets landed at Tampico a week ago to obtain supplies. They were arrested, but later discharged.

"Rear-Admiral Mayo, considering that an unwarranted arrest had been made and that the uniform of the American navy had been disregarded, demanded reparation in the form of a salute of 21 guns. He allowed the Huerta commander until 6 o'clock to fire a salute, but later extended the time in order to afford the local commander an opportunity to communicate with his superior officers in Mexico City. A statement of apology was issued in Mexico City by General Huerta and the local officer who arrested the marines was ordered punished.

"This did not satisfy the United States government, and the salute was insisted on, and word was sent that nothing short of a public salute to the American flag would be satisfactory."

Vera Cruz.—The Mexican foreign minister, Senor Portillo y Rojas, has transmitted to the American charge d'affaires, Nelson O'Shaughnessy, a note dealing with the arrest of the assistant paymaster and a detachment of bluejackets, which in effect says that the Mexican government cannot see wherein the federals have inflicted any insult on the American nation; that ordering the army to salute the American flag would be an admission that the United States is exercising undue influences over this country's free action, and that President Huerta is disposed to uphold the honor and sovereignty of Mexico at any cost.

## TWO TRAIN ROBBERS CAUGHT AND BEATEN

Seattle.—One passenger was shot and two highwaymen were severely beaten when they attempted to hold up a Tacoma-bound interurban train near Riverport station, eight miles from Seattle Monday night. The robbers were captured and brought to a hospital in Seattle.

That they were not successful was due to the presence of mind of J. Rose and F. Smith, employes of the traction company, who led the attack on the bandits.

The bandits boarded the train at Chicago avenue, in south Seattle. After the train had left the city limits the men masked themselves with handkerchiefs and started to rob the passengers. Commanding everyone to hold up his hands, Trew walked toward the smoking compartment. Just as he entered the compartment he turned and looked at his companion following him down the aisle. Trew turned his back to the men in the small room.

Smith, wielding a steel drill, hit Trew a stunning blow over the head. Immediately all the other men rushed to Smith's aid and in a short time both highwaymen were disarmed, lying bruised and bleeding on the floor.

### Webb Law Is Held Constitutional.

Topeka, Kan.—The Kansas supreme court upheld the Webb law giving states control of liquor shipments when it sustained a seizure of a carload of beer shipped by the Columbia Brewing company into Kansas.

## EXPLOSION, CARELESSNESS

Jury Says Men in Charge Should Be Held Criminally Liable.

The Dalles, Or.—After a probe covering four days Coroner Murget and jury who have been investigating the explosion on The Dalles-Celilo canal last week, when four were killed, reached a verdict that the fatal accident was due to the carelessness and inexperience of the men in charge of the powder work on the big project. The men in charge the jurors contend should be held criminally liable for the loss of lives. It is recommended that the federal war department investigate the explosion, learn who is responsible for the calamity and then no longer allow an "incompetent man to continue in this work and further endanger the lives of the hundreds of men who are working on the canal project."

### Copper Strike Ends.

Houghton, Mich.—The strike of the copper miners in upper Michigan has come to an end as a result of a vote taken among the Western Federation. The strike had been in effect since July, when 13,000 men, according to figures of the federation, demanded better wages and working conditions and recognition of the federation.

## IRRIGATION CONGRESS ADOPTS RESOLUTIONS

Denver, Colo.—With sectional lines on every vote closely drawn between the mineral and agricultural states and with the mining communities putting through all of their resolutions by a vote of 9 to 6, the Transmissour irrigation conference adjourned here. Simultaneously the conference of western governors also adjourned, after deciding to oppose the Ferris land leasing bill, now pending in the lower house of congress.

Before adjournment, the irrigation conference gave voice to many demands, including the following:

That postal savings funds be invested in the bonds of irrigation districts.

That grants of non-mineral lands be made to states wherein there yet remain large tracts of the public domain, for the purpose of creating trust funds to be used on irrigation projects.

That grazing lands be thrown open to settlement in reasonably large tracts.

That the government take as compensation for its irrigation and reclamation work the bonds of the districts involved.
