

NEWS FROM OUR NATIONAL CAPITAL

President Declares Trust Legislation Will Be Pushed at Present Session.

Washington — President Wilson came out with a flat declaration that, despite what he characterized as a deliberate campaign by certain interests to bring about an adjournment of congress and postponement of the administration trust legislation, he would use every influence at his command to get the pending bills through the senate at this session.

Showing his words carefully, the president declared his belief that organized distribution of circular letters and telegrams among business men, members of congress and other public officials, calling for an adjournment of congress, a halt in the trust bill, an increase in freight rates for the rail roads and a "Test for Progress" was responsible for what he recently described as a "psychological depression."

In support of this view the White House made public copies of such letters and telegrams which have been brought in by friends of the administration. One of the letters which fell into the hands of White House officials was circulated by the Simmons Hardware Company, of St. Louis, under date of June 9.

Just prior to that date President Wilson had offered to E. C. Simmons, president of that company, a place on the Federal Reserve Board. Just before the president expressed his views on the trust program, it was announced that Mr. Simmons had declined the appointment and that Charles S. Mellem, of Boston, would be nominated in his stead.

Statements Create Sensation.

White House officials denied the Simmons letter had to do with the declination of the appointment. It was said, moreover, that the president did not know of the letter when he offered Mr. Simmons the place.

The president's declaration and the publication of the letters created a misapprehension approaching that which followed the president's denunciation of the "insidious lobby" which he said, was threatening the tariff bill last year.

Wilson Will Open Canal Formally.

President Wilson will leave Washington on March 5, 1914, for Panama, to attend formal opening ceremonies of the Panama canal at a date to be determined later. The president will leave the capital the day after congress goes out of session. He will make the journey to Panama on the battleship New York. The date of the formal opening ceremony for the canal will be decided before the president leaves here and the exercises will take place soon after he reaches there.

On the old battleship Oregon, which attracted world-wide attention on her famous run around the Horn just before the Spanish War, the president, with members of his cabinet will make the first official passage through the canal and then proceed to the Panama-Pacific Exposition at San Francisco.

National Capital Brevities.

Peace treaties will soon be signed by the United States, Great Britain and France, after plans suggested by Secretary of State Bryan.

Action on the Hobson national prohibition amendment has been postponed by the house rules committee until July 1.

Immunity of members of congress from civil and criminal action as result of their official duties, has been strengthened as by ruling of the United States supreme court.

Impeachment charges were presented in the house against A. G. Dayton, United States district judge for the northern district of West Virginia.

The interstate commerce commission suspended until October 13, the proposed increase of the carload minimum weight on mixed carload shipments of vegetables from California points to points in Oregon. Hearings will be held before fall to determine the reasonableness of suspended order.

The unusually prolonged fight in congress over canal tolls ended when the house, after a brief debate and without the formality of a conference, accepted by a vote of 216 to 71 the senate amendment specifically reserving all rights the United States may have under the Hay-Pauncefote treaty or otherwise.

The house of representatives passed Congressman Sinnott's bill amending the homestead law by providing that homesteaders may divide their five months' leave of absence each year into two periods if they so elect, provided they reside on their homestead seven months in each year. As the law now stands the leave of absence must be taken during five consecutive months.

MEDIATORS ARE WARNED

Semi-Official Statement to Press and A. B. C. Board.

El Paso, Tex.—A semi-official statement from General Carranza's headquarters at Durango criticizes the efforts of the A. B. C. mediators at Niagara Falls and an announcement from General Villa reiterating his objection as a military leader to Carranza were the latest developments of the Mexican situation here.

The statement from Durango, where Carranza's provisional government has been established, was addressed to the American press, with a note to the effect that it had official sanction, and states that the commander-in-chief of the constitutional army will be provisional president of Mexico during the elections, and if let alone constitutionalists will settle the entire Mexican problem.

Huerta Paves Way to His Resignation.

Niagara Falls, Ont.—General Huerta is preparing to resign. He authorized his representatives at the mediation conference to announce that "neither mistaken pride nor personal interest" would prevent his withdrawal after Mexico is "politically pacified."

Coinciding with the announcement by the Mexican delegates of their position, the mediators sent a note to the representative of General Carranza in Washington, replying to the communication brought here last week, which in effect, asked if the constitutionalists were willing to discuss internal as well as international questions.

Marshall Cushing, editor of How, a magazine representing the big manufacturers, denied the existence of a plan to boycott newspapers by withholding advertising from those who opposed their interests.
