BAYS-JOHNSON WEDDING

A pretty wedding was solemnized at the home of Mr. and Mrs. J. H. Johnson, foster parents of the bride, on Tuesday, June 30th, at 11 a.m., when Miss Crystal M. Johnson was united in marriage to Maurice J. Bays of Pacific City, Oregon. Rev. Herbert V. White, of the United Brethren Church, officiating. The bride is a school teacher having taught at the Fairview school last year, while the groom is a dairy farmer at Pacific City.

The home was tastefully decorated for the occasion with ferns, roses and ivygreen. The bride wore a messenger silk gown trimmed and flounced with silk shadow lace, with a long flowing bridal veil to complete the attire. This was followed by dancing and refreshments were served. Mr. and Mrs. Maurice J. Brief News of the Week

The much discussed order issued by Secretary Daniels last April banishing all intoxicating liquors from the American navy became effective Wednesday.

Thousands of school teachers from every section of the country will begin to assemble in St. Paul at the end of the week in anticipation of the opening of the annual convention of the National Educational Association.

The centennial anniversary of the battle of Horseshoe Bend, in which General Andrew Jackson broke the power of the Creek Indians and saved the great southwest from British domination, will be celebrated Saturday with exercises on the battlefield in Alabama.

One of the most drastic prohibitions laws ever adopted by any of the states went into effect Wednesday in West Virginia. The law not only prohibits the manufacture, sale and importation of intoxicating liquors, but forbids the sale of any newspapers or periodicals containing liquor advertisements.

The biggest mercantile failure in the history of the United States was precipitated when receivers were appointed for the H. B. Claffin Company, of New York. The company, it is estimated, owes more than \$20,000,000, which at the present time it is unable to pay. Its assets are said to be \$44,000,000.

Nearly half the "Old Witch City," of Salem, Mass., rich in historic buildings and traditions, was devastated by a fire that caused an estimated loss of \$20,000,000; destroyed 1000 buildings, including a score of manufacturing establishments and made 10,000 of the 45,000 residents home-

NEWS FROM OUR NATIONAL CAPITAL

Japan's Protests Against California Alien Land Laws is Absorbing Topic.

Washington. — Japan's protest against the California alien land law brought conspicuously before the public again by publication of the correspondence between the Washington and Tokio governments, was discussed with absorbing interest in official and diplomatic circles.

One phase of the negotiations disclosed in the correspondence which attracted particular interest in official circles was said to suggest the possibility of an issue entirely new in the history of the United States. In Italian in connection with the promise by the Japanese government to grant land ownership to Americans, appeared the words, "reserving for the future, however, the right of maintaining the condition of reciprocity with respect to the separate states."

This, it was pointed out, appeared to be a distinct reservation by the Japanese government of the right to retaliate directly upon the Californians by singling them out among American citizens for exclusion from the right to possess real property in Japan.

Wilson Refuses Women's Demands. Five hundred members of the General Federation of Women's Clubs marched to the White House and drew from President Wilson a final refusal to accede to demands that he support the movement for a woman suffrage amendment to the federal constitution.

The president reiterated his statement to previous delegations that his party had not embodied this question in its platform, and then for the first time announced his personal conviction that the suffrage issue was one for settlement by the states and not by the federal government.

The women went away plainly disappointed and disgraced. Headed by such leaders as Mrs. Ellis Logan, Mrs. Harvey W. Wiley, Miss Rheta Chiles Dorr and Miss Allow Paul they had marched to the White House with bands playing and banners flying. They missed themselves in the historic east room, many carrying babies, who added their share to the unusual scene by crying or crying accompanied to the speeches.

May Rush Railroad Land Survey. Surveying lands embraced within railroad grants will be pushed rapidly if the senate sustains an appropriation of \$100,000 made by the house.

The western members, with Secretary Lane, want to make sufficient appropriations each year to carry the work to a speedy termination. It was pointed out to the house that as long as the railroad lands remained unurveyed they were virtually the property of the railroads, while title could not pass and the lands could not be taxed.

There is a demand in most of the western states to have the railroad lands surveyed so that they can be taxed by the states and made to bear their proportion of the cost of local government.

House Insists on Mileage Cut. Amid a mass of parliamentary tangles that kept members guessing, the house sent back to conference the question of mileage of representatives in congress.

The body voted in favor of 5 cents a mile each way for senators, and the defeat, 184 to 58, of a motion to recede from disagreement to the senate proposition of continuing the present 20 cents a mile, sent the whole question back to be threshed out again by the conferees.

National Capital Brevities. Despite the opposition of Turkey the house agreed to the senate amendment providing for the sale of the battleships Idaho and Mississippi to Greece.

United States supreme court ruled that retail lumber dealers who black list wholesalers for selling direct to the consumer violate the Sherman anti-trust act.

The interstate commerce commission suspended until January 10, proposed increased rates on melons from California to Oregon and Washington.

Railroads are not liable for damages for personal injuries to interstate employees or their families who are hurt while riding on passes, according to a ruling of the United States supreme court.

It has been proposed to President Wilson that the name Culebra cut in the Panama canal be changed to the Gaillard cut in honor of the late United States engineer, who harnessed the mountain at that point.

For fear that the interests of the fall campaign would be affected, house leaders have decided not to force a vote now on the proposed Hobson amendment providing for nation-wide prohibition.

The new federal reserve banking system will not get in operation until some weeks hence, it is thought, as result of the delay of the senate in confirming the president's nominees.

Declaring that it would be un-American and unpatriotic for a French ship to lead the pack through the Panama canal at its opening, the Spanish-American War Veterans of Oregon, at their sixth annual reunion, which opened at Salem, adopted a resolution urging President Wilson to give the honor to the battleship Oregon.

The interstate commerce commission has further suspended from July 10 until January 10 the operation of certain schedules for increased rates applicable to transportation of melons in car lots from certain points in California to points in Oregon and Washington.

Mrs. M. C. Reed, of Portland, was chosen president of the Women's Home Missionary Society of the Oregon conference of the Methodist Episcopal church for the ensuing year, at the close of the 28th annual meeting of the society at Albany.
