NEWS FROM OUR NATIONAL CAPITAL

President Wilson to Pass Peace Treaties With Twenty Foreign Nations.

Washington. — President Wilson, through Secretary Bryan, has notified the senate foreign relations committee he wishes to press for ratification before adjournment of this session of congress the new peace treaties signed with 20 foreign powers.

Secretary Bryan set forth the following analysis of the general purpose of the treaties:

"That investigation shall be resorted to in all cases where the ordinary resources of diplomacy fail.

"That the contracting parties reserve the right to act independently on the subject matter after the submission of the report.

"That there shall be no appeal to force until the investigation is completed.

Treaties already have been signed with Salvador, Guatemala, Panama, Honduras, Nicaragua, the Netherlands, Bolivia, Portugal, Persia, Denmark, Switzerland, Costa Rica, Dominican Republic, Venezuela, Italy, Norway and Peru. A treaty with Uruguay will be signed next week.

"The text of the treaty with France has been agreed upon," Mr. Bryan said, "and also the treaty with Great Britain, which is being submitted to their various colonies."

Federal Court Clerks Put On Salary.

The conference committee on the sundry civil bill agreed to the Chamberlain amendment, abolishing double fees in the federal courts of Oregon and fixing the salary of the clerk of the federal court at \$2500 per annum. A similar amendment by Senator Poindestor, affecting the federal courts of Washington, was also agreed to.

In the deficiency appropriation bill, as passed by the senate, are the following appropriations for public building sites: Puerto, Wash. \$10,000; Colfax, Wash. \$7000; Caldwell, Idaho, \$10,000; Nampa, Idaho, \$2500.

Appeal Put in Trust Bill.

After months of deliberation the senate judiciary committee agreed upon the final revision of the Clayton anti-trust bill to supplement the Sherman law, which passed the house last spring.

Most important of the amendments recommended by the committee is one to provide for a court review of orders issued by the interstate commerce commission or the proposed interstate trade commission against corporations found to have violated the trust statutes.

The amendment would provide that in case corporations or individuals neglect or fail to obey orders of either commission, the commission, through its attorney or district attorneys, may apply for enforcement of the order to the United States district court, transmit the original record of the proceeding, including all testimony taken, and the ruling of the commission shall be taken as prima facie evidence.

Law Takes Course With New Haven.

Civil suit to separate the New York, New Haven & Hartford Railroad company from its subsidiary rail, trolley and steamship lines will be brought by Attorney General McKennedy in the United States district court at New York shortly.

A final effort to settle the problem without litigation ended in failure. The stumbling block in the negotiations has been over the disposition of the Boston & Maine stock controlled by the New Haven. It was agreed by both parties months ago that it should be sold. Massachusetts, always possessed of the right to buy it, recently enacted legislation permitting its sale, but on the condition that on each share sold this right be plausibly set forth. The New Haven directors balked at this legislation.

National Capital Brevities.

The senate confirmed the nomination of Nelson Morris, of Chicago, to be United States minister to Sweden. President Wilson has recovered from his recent attack of indigestion.

The trade commission bill, framed in the first instance to meet the views of President Wilson, and passed by the house of representatives as an administration measure, soon will pass the senate under the presidential influence, it is believed.

Zapata, according to reliable reports to the state department, has 24,000 men, and though most of them are poorly equipped they would constitute a serious menace to a new government at Mexico City if they remained in revolution.

A suggestion that the 6400 Mexicans, principally soldiers, interned at Forts Rosecrans, Brown, McIntosh, Bliss and Wingate, be released, provided definite assurances are given that they will not take up arms again, was received by the war department from General Bliss.
