UNION SERVICES DRAWING BIG CROWDS

The Sunday evening service at the Risk was marked by a large gathering and intense interest. It was estimated that between six and seven hundred people were present.

Mrs. Ross has joined her husband Mr. Ross the singer and leading in the work by assisting in the singing and organization work.

Dr. Bulein is delivering some splendid sermons. He is preaching a gospel of kindness and love. There has been no mud slinging. He is a fearless enemy of sin, but loves the sinner. He hits you hard but does it in such a way that you need not take offense. Those who are not attending the meetings are missing a rare opportunity to receive an uplift and to learn.

Dr. Bulein went to Portland on Saturday and returned on Sunday with Mrs. Bulein and his two sons who are now taking an outing at Boyocean. Mrs. Bulein's health is poorly at present, and it is thought that a stay at Boyocean may help her.

VALUE OF FEEDS.

Oregon Agriculture College, Corvallis, Ore.—The relative value of roots, kale and silage, the usual sources of succulence for winter feeding—depends upon their composition, comparative feeding values, cost of production, keeping qualities and convenience of feeding," says Professor R. R. Graves, head of the O. A. C. dairy department.

The total digestible nutrients in one ton of corn silage is 250 pounds. In a ton of red clover silage the total is 224 pounds, but the nutritive ratio is 1 to 6.9, while in corn it is 1 to 11. The digestible nutrients in a ton of sugar beet is 224 pounds, with a ratio of 1 to 8.5. In rutabagas the total is 180 pounds to the ton, with a ratio the same as that of sugar beets. The digestible nutrients in a ton of kale are but 130 pounds, while the ratio is very narrow—1 to 2.8. It is also true that the nutrients of apple pomace silage are pretty high, about 210 pounds to the ton. Their nutritive ratio is the widest of any of the common winter succulents, being 1 to 15.3. The corn and clover silage contain the greatest percentage of dry matter, while kale and some of the roots contain 90 per cent water. One ton of clover silage contains as much digestible nutrients as a ton and a half of sugar beet, 7.8 tons of rutabagas or carrots, and 2.3 tons of kale.

State's Weekly Industrial Review

Factories and Enterprises Providing Payrolls for The People.

A. D. Helms, Medford, has bought the Lebanon planing mill property and will convert the same into a cannery.

The Western Ceonage Co. has established a plant in Case's Astoria.

Hubbard Congregational church will be remodeled.

The Independent Telephone Companies of Corvallis and Florence ask that rates be advanced to meet increased cost of operation.

August 1st Springfield celebrates opening of the new Booth Kelly mill.

The Attorney-General holds that a wood handling company that hires men only for a day comes under the Workmen's Compensation Act.

A \$25,000 hotel and a \$10,000 operating company organized at Haddon.

The Union Furniture Co. of Albany has been reorganized with larger capital and will be operated on a larger scale.

Marshfield offers 152 acres cut up into new tracts for factory sites free to industrial enterprises.

General opposition continues among farmers and fruit growers against the universal eight hour day.

A representative of Libby, McNeil & Libby, Chicago, is making a survey of the Dalles district to locate a \$75,000 cannery there.

Three damage suits aggregating \$35,000 were filed the past week at Portland against employers in the face of the Workmen's Compensation act.

The S. P. Co. is putting 600 cars of gravel ballast on its Coos Bay line.

Latter Day Saints, (Mormon), plan a \$35,000 church in East Portland.

Gresham fruit growers begin erection of cannery plant.

Flavel gets a state bank with a capital of 15,000.

An ore find on Sugar Creek, Josephine County, runs \$2,500 to the ton.

The second dredger of the Hodson Co. of Portland is being installed in the Sumpter mining district.

County Assessor Strain of Umatilla County, an expert on taxation matters, call the \$1,500 exemption class legislation.

A sawmill will be built at Joler station on the Willamette Pacific.

Thirty men are employed laying pipeline for the new Baker waterworks.

Astoria has a \$50,000 apartment house under construction.

The recall is a new and active industry in Curry County.

The North Bank railroad will construct a 200 foot dock at Portland.

Roseburg is projecting a \$100,000 high school.

A second sawmill is being located at Wheeler by the Bailey Lumber Co.

The Oregon Supreme Court has just held that the freak law making it unlawful to use word "co-operative" in a firm name is unconstitutional.

The clam canning industry at Warrenton will have a larger plant.

South Coos River will erect a \$10,000 school house.

Portland has ordered \$200,000 of paving and sewer work.

S. A. Buck will erect a box factory at Eugene to employ 12 hands.

The Cascade Contract Co. is building houses and installing a crushing plant for rock ballasting 60 miles of the S. P. main line at Marion.

The Standard Oil Co. will erect a distributing plant at Gresham.

Construction has been started on the west Umatilla irrigation project.

A concrete pipe manufacturing establishment is a new industry at Astoria.

The holdover senators from Multnomah county are preparing a bill to consolidate about thirty commissions under five heads and save about half a million taxes annually.

The new bridge over the Sandy river will cost \$20,849.

Port Orford will promote the agate polishing industry with a carnival.

A Step Forward; County Bank Installs Statement Machine

Within the past few years banks the country over have been discarding the balancing of pass books, using them for recording deposits only and are issuing statements. In accordance with this spirit of progress the Tillamook County Bank has installed a bank posting and statement machine, the very latest device for this work and hereafter instead of bringing in the pass book to be balanced, each customer will get a neatly printed statement of his account when he wants it, without any delay, and regularly at times agreed upon between himself and the bank; either monthly or every two or three months as the activity of the account may require.

The ledger statement sheet is placed in the machine, the amount of checks subtracted from the balance of the day before and the deposit added, all automatically, and with the date automatically printed, a lever pulled and the sheet is ejected from the machine with the amount of checks, deposit and new balance correctly printed. As no mental effort is required this saves much time and assures accuracy and neatness in posting.

This system puts the bank on a par with the best up-to-date city banks, enabling it to give as modern banking service to its patrons as they could get in the big cities.

PORTLAND LETTER.

As an indication of the tremendous growth of the live stock industry in Oregon and other sections of the Pacific Northwest, the Portland Union Stockyards Company has found it necessary to immediately make a large addition to its pen space in order to keep pace with the constantly increasing shipments. The necessity for increased yardage for sheep feeding is largely responsible for the additions which will be made at this time, and it is estimated that the new pens will take care of at least 15,000 head, making the total sheep capacity of the yards approximately 35,000 head.

Farmer Smith, of the O. W. R. & N. Co., returning from an inspection trip through Eastern Oregon, states that the grain yield for this state has been considerably under-estimated, and that in most cases the wheat is turning out much better than expected. He states that farmers who plant of acclimated corn are meeting with great success and the growth of this crop is unusually good.

A big cannery and fruit packing plant, to be built and operated by Libby, McNeil & Libby, the Chicago packers, is practically assured for The Dalles. A free site for the institution has been offered and fruits and vegetables in immense quantities will be produced to keep it in operation.

An order has been received at the Roseburg land office to the effect that 16 sections of land, formerly a part of the Umpqua forest reserve, will be thrown open for homestead entry on October 2. Entries may be filed as early as September 12. The land is situated almost directly west of Roseburg, in the Coast Range, and most of it is heavily timbered.

At Sydney, in Polk County, the Krebs Bros., formerly in the hop business, are constructing an immense dairy barn which will be up-to-date in every respect. It will have cement floors, brass rails, modern ventilation removing water, and will cost about \$2,000. The employees will wear white suits, and at milking time the cows will be washed, milked by machinery and only the final "stripping" will be done by hand. Fifty grade Holsteins will be handled at first and 100 head additional will be purchased in the near future.

Plans are practically completed by the Gresham Fruit Growers' Association for the erection of a cannery at that point, nearly all of the \$75,000 in capital stock having already disposed of. It is planned to run the cannery on a co-operative basis, a plan which has been found successful in other localities, and it is believed that its establishment will result in the cultivation of hundreds of acres in Powell Valley now idle.

Don't forget buyers' week, in Portland, August 10-15. The program is now complete and visiting business men will sure have the time for their lives.

COMMUNICATION

Reuben, Ore., June 23, 1914.

Patrons of the Fairview Grange: I as a Granger feel as though I should say something in regards to the splendid entertainment you gave us at the encampment, and of the pleasure we experienced on the last day at the Commercial Club rooms, where dancing, singing and lots of fun was enjoyed, besides the refreshments. We old soldiers, like other people, notice all that is being done for our pleasure and we are grateful. Your city all through the four days made it its business to give us all plenty of pleasure so we could enjoy ourselves to the limit. I know I voice the opinion of all of the veterans present at Tillamook for I have heard many remarks to that effect.

Fraternally yours,
John M. Lindsey.

Goble Grange No. 329, Goble, Ore. Late of 116th, Penn. Vol. Infantry, 2nd Brigade, 1st Div., Hancock's Fighting 2nd Corps.
