OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Health Resort Talked.

Ashland—Encouraged by outside as well as home influences, the possibility of creating in the state of Oregon a popular watering place and health resort is being studied by the commercial interests of Ashland, with the help and advice of the industrial and survey department of the University of Oregon school of commerce.

The help of the consular service of the United States has been enlisted through the efforts of Director H. B. Miller, of the school of commerce, who was a visitor in Ashland during the Chautauqua period, and data, financial statements, analyses of business and advertising policies and of medical and sanitation attractions are being collected from all the famous water places in both hemispheres.

"Agate" Carnival Is Set.

Port Orford.—The annual Agate Carnival will be held August 6, 7 and 8.

The exhibition will be in a large tent located on the lake front near the ocean and two miles and a half from town. There are fine camping grounds near the lake, with boating, swimming and fishing in connection, making the location ideal for such a celebration.

Ashland to Sell Own Bonds.

Ashland.—Owing to unsatisfactory bids on the \$175,000 auxiliary water bond issue, a special committee will take up the matter of disposing of the securities direct to investors at private sale, in blocks to suit purchasers. The bonds bear 5 per cent, and par and accrued interest will be the least the city will accept. They run for 30 years and will be redeemed serially.

Trainmen Strife Mediation Scores.

Chicago.—Mediation between the 98 western railroads and their engine men scored a victory when the men agreed to continue negotiations with the roads. A week ago July 28 had been set by the men as the final date for conference.

NEWS FROM OUR NATIONAL CAPITAL

Members of Congress Anxious to Return Home to Repair Political Fence.

Washington.—Members of congress are hearing from their constituents, urging them to get through with their legislative business as soon as possible and come home to look after their political fences.

"We need a rest," is the declaration of the republicans, likewise it is the slogan of some of the democrats. It is an open secret, however, that behind the desire for a rest is a desire on the part of the republican senators as well as the democrats to doff the toga for campaign togs.

Senate democrats in caucus agreed on a definite legislative program, in which they expect to put through the anti-trust and appropriation bills and bring about adjournment of congress at the earliest possible moment. While no predictions as to adjournment were made, "hurry" was the keynote of the meeting.

National Heavier Than State Burden

The debt of the national government is a greater financial weight upon the people of each state, except Arizona and Massachusetts, than the obligations of the state in which they live, according to statistics issued by the census bureau.

The figures showed that on June 30, 1913, the per capita debt for the 45 states amounted to \$3.57, while that of the national government was \$10.59. The total debt of the state governments on that date was \$422,126,525. An offsetting item was \$76,980,571 in sinking fund assets.

The national government had a total debt at the end of June last amounting to \$2,916,204,914. However, less cash in the United States treasury available for the payment of debt, that would be reduced to \$1,028,564,055.

Imprisoning Navy Deserters Ended.

Abolition of imprisonment for desertion from the navy in times of peace was ordered by Secretary Daniels.

Under the new regulation, bluepackets who overstay their leave or commit similar breaches of discipline, will be summarily dismissed instead of being sent to prison, while men who become dissatisfied with the service and want to quit may have an honest discharge by merely refunding certain enlistment allowances.

The secretary announced that the navy now had practically a full quota, 51,348 enlisted men, compared with a shortage of more than 4000 18 months ago, and that the time to take the step had come.

Federal Grain Grades Favored.

Establishment of standard federal grades, to which all grain sold in interstate and foreign commerce under government certificates would be required to conform, is proposed in the Meess bill, favorably reported to the house by the agricultural committee.

The bill contemplates eliminating differences between export and domestic grades of the same quality, but is not designed to affect the shipment of grain in bond.

An appropriation of \$375,000 is proposed to carry out the terms of the bill and to facilitate supervision of grain traffic. The department of agriculture proposes to establish branch laboratories at important grain receiving markets.

Fly Doomed by Borax.

The doom of the germ-carrying fly is seen in a new discovery announced by the department of agriculture. Its use is declared to assure the complete extermination of the common household pest that is largely blamed for spreading typhoid.

The method consists only of the sprinkling of a small amount of ordinary borax daily on household and table refuse.

National Capital Brevities.

Opening of the Panama Canal to vessels drawing 30 feet on August 15 next was announced by Secretary Garrison.

The senate foreign relations committee received a request from Colonel Roosevelt for permission to appear and tell why he opposed the payment of \$25,000,000 to Colombia. Senators of Oregon, Washington

and California have accepted the invitation of Senator Chamberlain of Oregon to join in asking President Wilson to have made deckload measurements of ships using the Panama canal.

Sudden withdrawal by President Wilson of his nomination of Thomas D. Jones, of Chicago, to be a member of the federal reserve board ended the bitter controversy over his confirmation in the senate.

Money from the federal treasury will be deposited in national banks throughout the country to facilitate the movement of crops and promote business generally.
