BOTTS RESIDENCE BURNS

On Monday afternoon the residence of H. T. Botts caught afire from the kitchen chimney, so it is thought, and before anyone knew anything about it the whole roof on the inside was ablaze. Dr. Bulgin Holds Crowds at Rink

Largest Meeting of the Series Last Sunday Evening. Civic League Formed in Afternoon.

The revival meetings have been growing in interest with each succeeding day and night and several conversions have been reported. Those who are able to hear Dr. Bulgin are congratulating themselves upon the fact that they have had the privilege to listen to one of the greatest thinkers and preachers this country has ever produced. Dr. Bulgin does not follow altogether in the groove of the Academic thought of the day, but rather strikes out upon original lines, making his point in a manner that startles and gives you a view of things from an angle entirely new to you. He preaches the old gospel truths in a manner that is decidedly original, and refreshing.

On Sunday afternoon an organization for the purpose of assisting in the work of making the state dry at the fall election was organized with the following officers:

An executive committee will be appointed later as will also a committee made up of representatives from each precinct.

A strong organized effort is now about to be made to carry Tillamook County for Oregon dry.

By practically a unanimous vote at the annual meeting of the Hood River Apple Growers' Association, the members of the organization adopted by-laws that will revolutionize the methods by which the affairs of the local selling agency, an affiliated concern of the North Pacific Fruit Distributors, have been administered. Revealing a material falling off in national bank deposits and a large gain in state bank deposits, a statement issued by State Bank Superintendent Sargent of the condition of the banks of Oregon June 30, while indicating a decreased volume of trade as compared with the same period of last year, reflects sound financial conditions. Mr. Sargent is unable to account for the decrease of national bank deposits unless it is due to the nation-wide lull in business, and with that decrease he is also unable to account for the increase of almost \$2,000,000 in deposits in state banks.
