We have had it tested by people who are in a position to know the value of tone and quality and they are unanimous in pronouncing it a high grade instrument possessed of a very rich tone.

Mr. G. Munson has not heard, since the European war broke out, from his wife and daughter Esther who are visiting at Stockholm, Sweden. He endeavored through the Department of State to get in touch with them this week but was unable to do so because of the cutting of the cable between London and that point. It is thought however, that they are all right, and at present at least there is no cause for fear.

Ask Shrodes about that piano that he is giving away at his store.

In another section of this paper is given the standing of the contestants in the piano contest being conducted by the Tillamook Feed Company.

Considering that this is the first count the firm feels very much elated at the interest being taken by the people of this community. All that the contestants need now is your co-operation, as these votes are given for commodities that are used every day—in every home so you are not investing one single penny that will tie your money up for or something that is not absolutely essential. We give these votes with every purchase, every cent paid on account, and double the regular value for coupons purchased and paid for in advance.

If there is anything that is not clear to you or should you like to know more about the manner in which this contest is being conducted call at our store and we will be more than pleased to explain it to you.

HIGH PRICES NOT JUSTIFIED

Reports indicate increases in cost of food are not warranted.

Washington.—Preliminary reports received from district attorneys and special agents of the department of justice all state that undue high food prices are unwarranted.

Reports are pouring into the department from all over the United States. These, without exception, hold that preliminary investigation finds no basis whatever for extortionate prices.

Encouraged by the early reports, the entire corps of special agents of the department is on the trail of the food speculators. It is stated that a number of cases have been found actionable and that prompt prosecutions will be instituted by the various district attorneys. Retailers, wholesalers, jobbers and commission men are all coming under the government probe.

The negro attempted to commit suicide by swallowing carbolic acid, but anti-dotes restored him.

REBELS ENTER THE MEXICAN CAPITAL

Mexico City.—The national capital is in the hands of the constitutionalists. In accordance with a prearranged plan, General Obregon marched in with his army and took peaceful possession of the city Saturday. The citizens greeted him and his soldiers with cheers. The evacuation by the federalists was completed Saturday and constitutionalist troops are now quartered in the barracks which the government soldiers recently occupied. General Carranza, with the main body of the army, entered the city Sunday.

With the resignation of the military governor of the states of Chiapas, Vera Cruz, Tabasco, Campeche and Yucatan, the last vestige of the old regime disappeared.

For the first time in months American flags flew beside the Mexican colors. General Obregon caused to be posted throughout the city a decree threatening the immediate execution of an officer or an enlisted man who disturbed public order.

Ohio Will Vote on Suffrage.

Cleveland, Ohio.—That the voters of Ohio will be given the opportunity to vote on a woman suffrage amendment at the general elections on November 3, was made certain when petitions with more than 200,000 names were placed on file with the secretary of state.

Awaits Regular Mexican Election.

Washington.—President Wilson, it was learned authoritatively, has decided not to recognize the constitutionalist government of Mexico until a regular election is held.
