The Question Has been Asked:

What effect will the European War have on my Fire Insurance. in case I should suffer a Fire Loss?

And My Reply:

Your Fire Insurance Protection is just as safe with a so-called "Foreign Company" as its invested assets in the United States makes it.

Facts Worth Knowing:

The United States Branches of all "Foreign Companies" to all intents and purposes AKE AMERICAN COMPANIES, and are PRO-TECTED BY FUNDS in the bands of AMERICAN TRUSTEES-Citizers of the United States of recognized standing and financial ability, and solely for the protection of AMERICAN FOLICY HOLDERS.

The SECURITIES in which they must invest are well DEFINED 23.13Y LAW and are of a character that can be readily converted into cash in any emergency.

The Funds of a "Foreign Company" cannot be withdrawn from the United States as long as it has a risk in this country upon its books.

Your Fire Insurance Protection is Safe with this Agency.

WOMAN'S CIVIC CLUB.

An enthusiastic meeting of the Woman's Civic Club was held in the Commercical Club on Saturday aftercoon, being the first meeting after the organization was perfected,

Among the various matters of interest was the vote to join the State Federation. Although this was but the third meeting of the club, it was able to report the sale of \$10.00 worth of Red Cross stamps, thus clacing this community in a position that centifles it to ask assistance from the state fund for needy tuberculosis sufferers.

The president outlined work that seemed advisable and appointed standing committees to have charge of the varions departments.

The Public Health Committee, Mrs. Stranahan, chairman, is to have charge of all matters pertaining to that line of work, conduct the annual sale of Red Cross stamps, look after cases of helpless tubercular patients, reporting to the state officers so that help may be had from Red Cross fund and in every way possible help to promote the hest conditions for the city and county

The City Beautiful Committee, Mrs. F. R. Beals, chairman, will have charge of all work pertaining to the one, in addition to paying the exbeautifying of the city, confer with a see of her ally, Turkey. r. a " recomme - Their & to line provement of its property, and aims to 000,000.

> "Submarines will be perfected and evolved to prevent torpodo attacks. bridlery will be proved the greatest entractive agency of modern war-

The above prophecy was the outonce and results of the European ar was made yesterday by Thomas A. relicon He continued:

"Benzul, the advent material used charipally by India rabber and gutla percha manufacturera, will be made out of the wastage of coke manniacture, and the loss of 10,000 galions of hencel, worth 30 cents, daily, will be prevented.

"Ammonis will be made out of the ir. It is probably already being done by the Cremans, and later reconverted into nitric acid, which process is probably responsible for the German high-powered explosives.

"American manufacturers and American business in general must stop worrying and bemoaning the war and get busy. Look at B lguim for a real measure of disaster, and then look at our resources, our works men looking for work, our materials, our money, our opportunities - why does not the country go ahead?"

Mr. Edison accompanied these statements with flashing eyes and thumping fists to stress how one man would have all others turn disaster into triumph as he has done and build on the ruins of misfortune an era of more marvelous achievements,

Edison who recently declared he was "beginning all over again" after his laboratories had been destroyed by fire, had this New Year's message for the country:

"Think of that German firing line 900 miles long. Look at Belgium for a real measure of disaster. Don't worry-get busy."

One rumor has the whole Edison plant booming with expectancy, but the "king of the optimists" only smiles. The rumor is that the government shortly will grant the Edison Company a contract for the installation of about \$15,000,000 worth of the new Edison storage batteries for use in United States submarines and battleships. Secretary Daniels recently visited the Edison factories and the hatteries have been tested at length in the Brooklyn Navy Fard.
