

## Every Woman Should Look as Pretty as She Can

A woman's virtue and talents win a man's respect, but it is her beauty that wins his heart and hand.

There is no better and more elegant complexion beautifier than

### COUNTRY CLUB FACE CREAM

It is absolutely non-greasy, is healing and soothing and leaves the skin soft, smooth and velvety. It is superior to any toilet cream on the market. It bleaches the skin and will not grow hair as some widely advertised creams will do. It will give a PEACHES AND CREAM Complexion. It contains no mercury or compound of mercury. There is nothing of a corrosive nature in its composition. It is a pure skin cream in which the harmless and efficient whitening agent has been successfully incorporated. A light application night and morning will keep your skin clean, sweet and wholesome, and thus add to your personal charms.

## The First Evolutionist.

The first to suggest the transmutation of species among animals was Buffon, about 1750. The eccentric Lord Monboddo was the first to suggest the possible descent of man from the ape, about 1774. In 1813 a Dr. W. C. Wells first proposed to apply the principle of natural selection to the natural history of man and in 1822 Herbert first asserted the transmutation of species in plants.

## Not Complimentary.

Mrs. Black: I don't want to make a scene, but that man over there is staring at me very offensively. Mr. Black: He is old. I'll speak to him. Mrs. Black: A few moments later. Did he apologize? Mr. Black: Yes; he said he was looking for his aunt and thought at first that you were she!

## They Avoid Odd Numbers.

The Siamese have a superstitious dislike of odd numbers, and they studiously strive to have in their houses an even number of windows, doors, rooms and cupboards.

## Ought to Be.

Mistress—This isn't a clean knife, Jane. New Servant—I'm sure it ought to be, mum. The last thing I cut with it was a bar of soap.—Boston Transcript.

## SUMMONS

In the Circuit Court of the State of Oregon, for the County of Tillamook.

Ella Sherwood, Plaintiff,

vs. George Sherwood, Defendant.

IN THE NAME OF THE STATE OF OREGON: I,

You are hereby required to appear and answer the complaint filed against you in the above entitled suit within six weeks from the date of the first publication hereof in the Tillamook Herald, the date of said publication being the 28th day of December, 1914; and if you fail so to appear and answer, for want thereof, the plaintiff will take a decree of this Court dissolving the bonds of matrimony existing between the plaintiff and defendant, and that the plaintiff be granted an absolute divorce from the defendant; that the custody of the children mentioned in the complaint, namely: Isabella, Howard, Orrie, Claude and Kenneth, be awarded to the plaintiff; and for such other and further relief as to the Court may seem just and equitable.

This summons is served upon you by publication thereof by order of the Honorable Webster Holmes, Judge of the Circuit Court of the State of Oregon, for the County of Tillamook, dated at Tillamook, Oregon, the 28th day of December, 1914.

C. W. Talmage and E. J. Chausser,

Attorneys for Plaintiff.

## RATE INCREASE NECESSARY

FARMERS' UNION OFFICIALS THINK RAILROADS ARE ENTITLED TO MORE REVENUE.

Products of Plow and Farmer Who Lives at Home Should Be Exempt From Increase.

By Peter Radford,

Lecturer National Farmers' Union.

The recent action of the Interstate Commerce Commission in granting an increase in freight rates in the eastern classification of territory, the application of the roads to state and interstate commissions for an increase in rates, and the utterances of President Wilson on the subject bring the farmers of this nation face to face with the problem of an increase in freight rates. It is the policy of the Farmers' Union, to meet the issues affecting the welfare of the farmers squarely and we will do so in this instance.

The transportation facilities of the United States are inadequate to effectively meet the demands of commerce and particularly in the South and West additional railway mileage is needed to accommodate the movement of farm products. If in the wisdom of our National Commissions an increase in freight rates is necessary to bring about an improvement in our transportation service and an extension of our mileage, then an increase should be granted, and the farmer is willing to share such proportion of the increase as justly belongs to him, but we have some suggestions to make as to the manner in which this increase shall be levied.

Rates Follow Lines of Least Resistance.

The freight rates of the nation have been built up along lines of least resistance. The merchant, the manufacturer, the miner, the miller, the lumberman and the cattleman have had their traffic bureaus thoroughly organized and in many instances they have persuaded the railroad without mercy and with the power of organized tonnage they have hammered the life out of the rates and with unrestrained greed they have eaten the vitals out of our transportation system and since we have had railroad commissions, these interests, with skill and cunning, are represented at every hearing in which their business is involved.

The farmer is seldom represented at rate hearings, as his organizations have never had the finances to employ counsel to develop his side of the case and, as a result, the products of the plow bear an unequal burden of the freight expense. A glance at the freight tariffs abundantly proves this assertion. Cotton, the leading agricultural product of the South, already bears the highest freight rate of any necessary commodity in commerce, and the rate on agricultural products as a whole is out of proportion with that of the products of the factory and the mine.

We offer no schedule of rates, but hope the commission will be able to give the railroad such an increase in rates as is necessary without levying a further toll upon the products of the plow. The instance seems to present an opportunity to the Railroad Commissions to equalize the rates between agricultural and other classes of freight without disturbing the rates on staple farm products.

## What is a Fair Rate?

We do not know what constitutes a basis for rate making and have never heard of anyone who did claim to know much about it, but if the prosperity of the farm is a factor to be considered and the railroad commission concludes that an increase in rates is necessary, we would prefer that it come to us through articles of consumption on their journey from the factory to the farm. We would, for example, prefer that the rate on hogs remain as at present and the rate on meat bear the increase, for any farmer can then avoid the burden by raising his own meat, and a farmer who will not try to raise his own meat ought to be penalized. We think the rate on coal and brick can much better bear an increase than the rate on cotton and flour. We would prefer that the rate on plows remain the same, and machinery, pianos and such articles as the poorer farmer cannot hope to possess bear the burden of increase.

The increase in rates should be so arranged that the farmer who lives at home will bear no part of the burden, but let the farmer who boards in other states and countries and who feeds his stock in foreign lands, pay the price of his folly.

Lands Cheaply  
Logged Off  
Feeney-Bremer Co., Pat Economical Land Clearing Machine on Market  
Tillamook, Oregon.

The Feeney-Bremer Co. has just completed a very economical device for clearing land in the shape of a gasoline donkey engine, equipped with a 10 h. p. heavy duty engine. The total weight of the machinery is 5,200 lbs., mounted on runners and can be pulled anywhere on a straight line by its own power.  
The donkey part consists of a double drum, double friction, equipped with breaks. It has 400 feet of 1/2 in. cable and 800 feet of 3/4 inch cable. As a demonstration it recently pulled with ease a 20 foot log 3 feet in diameter over rough ground. Anyone wishing a demonstration of the workings of the machine can witness the same by calling at the Feeney-Bremer Co. Works.  
The price for the above equipment ranges from \$700 for 10 h. p. up, larger sizes costing accordingly.  
The engine consumes distillate, consuming 6 gallons in 10 hours, cost 10c. a gallon.  
The engine used is detachable and can be used for other things.  
Feeney-Bremer Co. are offering a fine proposition for two or more farmers who wish to go in together on a device that will clear their land cheaply and easily. Two men can run the machinery used and handle it successfully.

Those who may have use for such a machine will do well to investigate.

DON'T SPOIL A GOOD HORSE by keeping him in shabby old Harness. We are selling Harness made of the best stock at prices that ought to tempt you.  
A WELL MADE HARNESS will not only improve the appearance of your horse, but contribute to your safety as well. Many a runaway could be avoided if the old Harness had been discarded in time.  
W. A. WILLIAMS, TILLAMOOK, OREGON

## Correspondence

### Cards

For Short Notes

Few people use a sheet of paper in writing short notes nowadays—the correspondence card is the popular way.

More popular still is the correspondence card with your initial in the upper left corner.

We have a fine correspondence card, neatly initialed in gold—a real snappy stock which is proving very popular, which we have marked at an attractive price—

40c per box
