COMMUNICATION

Jan. 25, 1915.
Tillamook Herald:
You kindly explain why the
board would pay a higher salary for
judges of an election, at one
place than at another.
In your paper of Dec.
governer election the county
board increased the salary
from \$3.25 to \$6.50 for
judges. Now why this great

CITY ADVERTISING FOR BIDS ON MUNICIPAL BONDS

Tillamook City is advertising for
bids on municipal bonds to the extent
of from 30 to 40 thousand dollars. The
sale of these bonds is for the purpose
of paying outstanding warrants issued
since Oct. 1912, in payment for labor,
materials, legitimate expenses of the
city and the storm sewer. Money se-
cured on these bonds will not be used
for the payment of the sanitary sewer
or for the pavement.
The city recorder has already se-
cured a large number of inquiries from
prospective bond buyers.

in the discussion.

THE TIDE IS TURNING.

A group of men casually came to-
gether at a dinner party the other
evening, and one happened to look
over the table which the woman had
just left, and commented on the bot-
tle of alcohol that had been consumed. An-
other here is what these men said:

The first was a business man of
large interests: "I wouldn't think of
voting for state prohibition, but if
national prohibition came up and I
will have my vote in a minute. Drink-
ing has become an economic issue,
and I am willing to give up my whis-
key and soda for the good of the
many."

The second was a large employer of
men, some eighteen thousand: "I am
ready for national prohibition; up to
this time it has seemed a far away
ideal to me, now I see it as a pure
efficiency measure."

The third was a clear seeing Irish
man: "Alcohol has been the curse of
my people; I have stopped taking it,
after forty years of occasional drink-
ing, and my vote is ready for national
prohibition."

"Go ahead," said the fourth man, a
railroad official of high standing: "I
am ready for it personally, and so are
all the officials of our road."

A physician was the fifth: "Medicine
can do without it; science is against
it; the old idea of alcohol as a food
is exploded. I am ready for my vote
for national prohibition."

It was a club man who spoke next:
"When I see drinking among the car-
dies at our club, and our caddy master
silly with it, I am ready to give up my
cocktail and vote against the whole
business."

And, last of all, was a wholesale
dealer in liquor who started the talk,
and who finished with the significant
statement: "You're right, we are see-
ing the handwriting on the wall. I
said at a meeting of our wholesale
liquor dealers the other evening that
we did not have five years of life
ahead of us. Strange as it may seem
to you, I would vote for national pro-
hibition. It's for the best all round."
Not a dissenting voice!

Boosting For The New Road

Strong Pull is Being Made For Better
Road Over Mountains to the South

J. W. Boyer of Grande Ronde, is in
the city in the interest of the proposed
road which will pass by the Geo. Baxter
place through Bear Creek and Bentley,
and which will eliminate the heavy
grades of the road now being used. The
court of Yamhill county is convinced
that the proposed new road is the most
economical to build and is ready to put
\$15,000 into it but as a part of the new
route lays in Tillamook and Polk
Counties, Yamhill residents who live
on the old road are objecting, and for
this reason a move is now on foot to
have the legislature make a special
road district of a certain tract in Yam-
hill, Polk and Tillamook counties,
which will include the proposed new
route, so that the three counties can
legitimately expend money on the new
road. As the law now stands a county
can not legislatively expend money on
roads in another county.

A. G. Beals is now in Salem in the
interest of the proposed new road dis-
trict, and Mr. Boyer will go from here
to Portland and from Portland to Salem
in the interest of the new road.

We understand that Portland good
road enthusiasts are boosting for the
proposition and will contribute sub-
stantially for it. An endeavor will be
made to get the construction of the
new road under way by March 1, so
that it can be completed by July 1, and
be ready for the summer auto travel to
the coast. An endeavor will be made
to secure an appropriation from the
state.
If this road is completed by July 1,
many auto tourists who visit San Fran-
cisco this year will no doubt come here.

THE REAL ECONOMY PROGRAM.

The big reform bills to reduce
overhead expenses a half a million
were introduced last week at Salem.

There are five big measures to con-
solidate boards and commissions and
abolish useless functions.

One of these bill will consolidate
all the medical boards and commis-
sions and State Board of Health.

Another is to put all the domestic
animal and live stock inspection
boards under one head—animal in-
dustry.

Six boards of regents and commis-
sions dealing with higher education
are to be consolidated into one board
of education.

These bill are backed by a joint
committee on consolidation measures
headed by speaker Selling and Presi-
dent Thompson.

CORPORATIONS AND EMPLOYEES.

The American Telegraph and Tele-
phone Co. is selling stock to all em-
ployes on the installment plan of two
dollars per month.

This is a sound principle, and should
be established by all public and private
corporations that desire to get
good results.

The employe as a share holder in a
business feels that he or she is one of
the proprietors, and has a stake in the
success of the game.

One step farther should be taken,
and that is to share profits with em-
ployes and give them insurance
against accidents and sickness.

The last arrangement has been suc-
cessfully carried into effect by the
American Telephone and Telegraph
Company in employe benefits.

Profit-sharing with employes need
not be made contingent upon being
shareholders, but it will be more
profitable to share profits with all.

When every employe of a great cor-
poration is a shareholder and a profit
share and has reasonable insurance
against calamity what next?

Friendly co-operation on the part
of every worker in his or her own
self interest, and teamwork on the
part of the leaders of labor.

Doing away with all hostility and
distrustfulness and carelessness and
indifference among the employes who
have about a minimum of brains.

Labor controversies and strikes will
be minimized and ill will and class
hatred between laborers and officials
and proprietors goes.

The example of the American Tele-
phone and Telegraph Corporation—
better known as the Bell Telephone
Co. is to be highly commended.

COMMONSENSE AND TAX REDUCTION.

The citizens and the press of Ore-
gon have been making themselves
felt in a very decided way during the
past year. Both have been insistent
in their demands for reduced taxes
and a common sense session of the
legislature. That this strong senti-
ment has had at least some effect is
very evident and everything points to
a session almost if not entirely free
from freak legislation. One of the
things which will appeal to the tax-
payers is the refusal of the solons to
go on any junketing trips. Cutting of
appropriations and setting fire to the
red-tape surrounding the introduction
and passage of new legislation are al-
so things of which "the people" will
approve.

It is absolute FOLLY for a man who intends to
marry or who has a WIFE and CHILDREN directly de-
pendent upon HIM not to save a part of his income from
his earnings or his business.

A bank account is like a ball of snow; it will melt
away unless you ADD to it. The habit of constantly
INCREASING the balance to their credit will make any
man or woman RICH.
