NO. 5

RESUME OF WORK OF STATE LEGISLATURE

First Three Weeks of Session
See Practically All Big
Bills Introduced.

Salem.—Although three weeks of the 25th legislative session have slipped by with all the big measures still to be passed upon by both houses, yet really more progress has been made during the first half of the present session than during the same period in many previous sessions. Practically all the important bills have been introduced and many of them have received attention from the various committees and are in shape to be passed upon. The beginning of the fourth week of the session found both houses in shape to get down to business, and unless there is an unusual flow of oratory much serious work will be accomplished.

The bill to do away with the petition-peddling that created such a stir in the house last week will be back from the revision of laws committee this week. It was recommended with instruction to amend so that candidates may have the option of filing for office either by the petition route or by paying a cash fee to the county or state authorities.

The section requiring a candidate to support his or her successful opponent in case of defeat also will be stricken out or modified. In that case the bill may get through the house.

The prohibition bill was reported back to the house in the form of a substitute for the original measure with the favorable recommendations of the committee on alcoholic traffic.

The bill remains in substantially the same form as when originally drafted by the Committee of One Hundred and introduced by Dr. Anderson. It has been amended, however, but has more teeth in nearly every section.

Probably the most pronounced change is in the limit set on the amount of liquor that can be shipped to for home consumption. The bill now fixes this quantity at either two quarts of whisky or 15 quarts of beer in a month. The original bill specified two limits.

Appropriations for six state institutions are provided for in as many bills introduced in the house by the way and means committees of the house and senate. The amount allocated reaches a total of \$1,289,000. The corresponding appropriations for 1912 and 1911, respectively, were \$1,634,767.71 and \$1,645,233.45. The current appropriation, therefore, shows an apparent saving of about \$245,000 over two years ago.

The bill of Senator Lammie's bill permitting women to serve on juries was sounded so far as this session is concerned, when the majority report of the judiciary committee was adopted and the measure was postponed indefinitely. Favorable action had previously been taken by the senate on the measure, but it was recalled from the house and reconsidered.

Qualifications for county school superintendents were "tightened up" by the house when it passed the Hinkle bill providing that persons holding this office must have at least 27 months' actual experience in teaching school and hold a state teachers' certificate. Twelve months of the past experience must have been had in Oregon.

The house passed Dr. J. E. Anderson's bill appropriating \$6000 for the experiment station at Hood River. For the second time in three days the house voted not to repeal the physical examination marriage law, passed at the 1913 session.

Senator Dimick's bill providing that sacks of shorts shall weigh 80 pounds, passed the senate, was reconsidered and indefinitely postponed. The house passed Representative Huston's bill empowering the governor to fill vacancies in the office of United States senator, pending a regular election.

Miss Towne's bill for an increase of the length of the rural school term from six months to eight months, was defeated in the house.

By a vote of 18 to 12, the senate adopted the majority report of the judiciary committee that the bill repealing the law passed at the 1911 session providing that school districts may furnish free textbooks, be passed.

BRIEF WAR NEWS

The end of six months of Europe's great war finds the armies of the nations completing arrangements for a new series of operations or actually engaged in campaigns the extent of which hardly was anticipated when the declarations of hostilities were made. In Flanders, France and Central Poland a deadlock still exists, but largely because of Russia's tremendous resources and the action of Turkey, the sphere of operations has been widely extended.

Russia alone is engaged in fighting hostile armies from Tilsit, far in the north of east Prussia, to Tabriz, in Persia, a distance of more than 1500 miles. Only that portion of her territory bordering on Roumania is free from menace, but according to her reports all is going well with her immense armies. The Russian outflanking movement in northern east Prussia is said to be gaining momentum.

The armies on each side of Tilsit have cut the German railway between that city and Memel on the Baltic.

On the southern front in east Prussia another army is advancing toward the German fortress of Thorn, while still another is holding a line of entrenchments which protect Warsaw and which General Von Hindenburg has been trying to batter through for three months. Other armies are again preparing to meet a big Austro-German force which is attempting to reach Galicia and Bukovina, thereby turning Grand Duke Nicholas' left flank.

Battles in the west still consist of local engagements, although the Germans, who apparently are preparing for an extensive offensive before the allies get their full strength into the field, occasionally deliver rather more serious attacks. These are scattered all along the front from the sea to the Swiss frontier, but always come back to that portion of the allies' line which lies between the Germans and the French coast towns.

The Argonne, too, has been the scene of another attack, and in this case, according to a German report, success fell to Emperor William's forces, who say they have taken over 700 prisoners and counted between 400 and 500 dead.

To the eastward—the Muscovite troops are battling against the Turks in the Caucasus and Persia. They apparently have inflicted another defeat on the Turkish forces, for the Russian official report says their opponents are retreating to Tabriz, while another dispatch says that the Russians are nearer that city.

There has been more serious fighting in the vicinity of the Suez Canal, but the latest reports say the British are withdrawing their forces from there and still have doubt whether they will be committed to a battle in the month of March. The British are reported to have invaded Egypt.

Kaiser's Threat Affected.

London.—The German emperor's return to Berlin from the front was due to the state of his health, according to a report from the German capital. The emperor, the dispatch says, will consult his medical advisers concerning his threat, which has given him much trouble.

McAdoo's Daughter Off to Nurse.

New York.—Among passengers on the liner Lusitania, was Miss Nona McAdoo, daughter of Secretary of the Treasury McAdoo. Miss McAdoo plans to engage in Red Cross work in France.

Inventor of Barbed Wire Dies.

San Diego, Cal.—Henry W. Putnam, 90, inventor and philanthropist, is dead at his palatial home in this city. He was the inventor of barbed wire and horseshoe nails.

Senator Farrell's bill providing for a reduction of 20 per cent of salaries of county and state officers receiving \$8000 or more a year was defeated by the senate.

At a conference called by Governor Withycombe, at which Senator Kathryn Clark, of Douglas, Attorney-General Brown and the members of the senate judiciary committee were present, it was virtually decided to abandon the object sought in senate joint resolution No. 15, to empower the executive to remove district attorneys and sheriffs in case he becomes convinced that they are not performing in good faith their official duties.

VESSELS OFF HAVRE SUNK BY SUBMARINE

Irish Sea Raider Sinks Three
and Escapes After Chasing
Numerous Others.

London.—The toll taken by the German submarine U-21 in its raid Saturday in the Irish Sea in the vicinity of Liverpool, stands at three ships, the steamers Ben Cruachen, Linas Blanche and the Kilecan, the latter a small vessel. The crew of the Kilecan was landed on the Isle of Man by a coastwise steamer.

In addition a German submarine also has torpedoed two British steamers in the English channel near Havre—the Toko Maru and the Icaris.

The Irish Sea raider easily made her escape and shipping interests, confident that she has returned to her base, ordered a resumption of normal traffic.

This under water Emden is the same vessel which last September torpedoed in the North Sea, the British cruiser Pathfinder, with a loss of 245 lives, and later destroyed two British steamers off Havre. She found numerous vessels in the waters to which she has centered her activities. In addition to the three vessels she is known to have sunk, at least five other steamers were chased by her.

These include the steamer Graphic with 100 passengers and a crew of 45, and the smaller boats, Atreus, Arz, Kathleen and Edymon. All these vessels escaped in a zig-zag flight.

Slight Gain Costs Germans Heavily.

London.—The new German attack on the Warsaw front has led to some of the heaviest fighting of the war in the east thus far. An official statement from Petrograd admits that the Germans succeeded in carrying Russian trenches in the region of Sochaczew and Horzow, near the Vistula and about 20 miles west of Warsaw, but say that the German successes were of small importance compared with the losses they sustained.

Food for Teutons is Now Contraband.

Washington.—Ambassador Page, at London, cabled the state department that the British fleet had been ordered to treat cargoes of grain and flour destined for Germany or Austria as conditional contraband, subject to seizure and confiscation.

Ranch for rent: Good bottom land and ranch of 165 acres, one mile from town. Stock and personal property for sale. Address J. M. Lissberg, Carl Hunt place.

GERMAN BLOWS UP BRIDGE

Escape into United States Creates
New War Problem.

Vanceboro, Me.—Another international problem incident to the war was thrust upon the United States by the action of Werner van Horn, who, operating on the Canadian side of the border, dynamited the railway bridge over the St. Croix river and then escaped into this state.

A few hours later, in a room at a hotel here, Van Horn quietly submitted to arrest, but immediately proclaimed himself an officer of the German army and set up the contention that he had committed an act of war, and, having fled to a neutral country, could not be legally surrendered to an enemy of the fatherland.

The Canadian authorities, however, at once instituted proceedings to obtain Van Horn's extradition on a charge of destruction of railroad property. Pending the outcome of these efforts, Van Horn is held at the immigration office here.

The bridge which Van Horn sought to destroy was not greatly damaged.

TEUTON ALLIES ARE VICTORIOUS IN EAST

London.—Sweeping claims of military successes along virtually the entire eastern front, except in the extreme north, are made in an official report from the Austrian war office. It is asserted that in Poland, on the Warsaw front; in Galicia, Bukovina and northern Hungary the Austro-German allies are battering down the Russian resistance.

The rearward communications of the Russians in Galicia are threatened the report says, by the Austrians, while the Russian forces which invaded Bukovina and northern Hungary have been unsuccessful, and in Poland the trenches of the Austro-German armies are approaching the Warsaw forts. No mention is made of east Prussia, which, according to Petrograd reports, now is menaced by a new offensive movement on the part of the Russian army of invasion. Reports from the Russian war office recently have indicated that the Austrians have gained some advantage in the fighting in the Carpathians, but neither the Petrograd nor Berlin statement has shown important changes on the Warsaw front.

\$2,000,000 Asked for Alaska Road.

Washington.—Secretary Lane asked the house appropriations committee to include \$2,000,000 in the sundry civil bill for the Alaskan government railway.
