OFFICIAL VIOLATES FISH-ING LAW

Green of the State Highway Commission, who came here last week on a business trip, was arrested and fined \$25 for fishing without a license. Green started out on a very small fishing trip. He cut down on the amount wherever possible, but failed to secure a license. He did not think that one of his standards would be overlooked, and then it was found that those fellows in the Willamette Valley make fishing laws for the fellows on this side of the mountains to obey anyhow. It is not fair to give some of those out-of-taste of their own medicine.

R. N. Henkle Home Scorched by Fire

Fire Boys Respond Quickly and Save Property. Loss Nearly \$1,000

On Sunday evening at about 8:30 o'clock, fire was discovered in the roof of R. N. Henkle's home on Stillwell Ave. The fire had gained quite a headway before it was discovered, for upon breaking through the roof the flames leaped several feet in the air. However, as soon as the alarm was sent in the fire boys delayed little in getting to the fire and in a few minutes had it under control.

The fire was confined entirely to the roof. A ladder was placed upon the roof and a hole was made through the roof with an axe and the fire was soon put out.

Mr. and Mrs. Henkle were at Rockaway at the time. However, those who were at the scene of the fire first broke into the house and got out all the furniture on the first floor. The fire did not damage anything but the roof of the house. The water, however, did quite a bit of damage. The loss is estimated at from \$800 to \$1,000.

The origin of the fire is unknown.

THE COMMUNITY SING

The Community Sing which was held at the club rooms on Friday evening last was well attended and much enjoyed. The program was carried out as previously advertised, with the exception of a few changes. Besides the singing on mass by the entire audience there were some good special numbers. The vocal solos by Mr. Baird were fine. Mr. Baird has a splendid voice and his selections were well selected. Attorney John Leland Henderson, as a recitation, gave Mark Anthony's oration at the burial of Caesar, from Shakespeare's Julius Caesar. Mr. Henderson had his audience with him from the first and putting his whole soul into the effort held his hearers spell-bound. In Mr. Henderson's effort a flash of genius was no-doubt displayed, the like of which few of those present will ever see surpassed in that particular line of endeavor. The audience gave Mr. Henderson a rising vote of thanks at the conclusion of his number.

The vocal solos by Mrs. D. A. MacKenzie and Mrs. C. E. Trombley were well rendered and much appreciated, as was also the beautiful violin solo by Mr. Koch.

12,000 SIGN WHEN BRYAN FLAYS LIQUOR

Philadelphia, March 17—Secretary of State Bryan Monday night used all his eloquence in the hall here, and as a result over 12,000 people took the total abstinence pledge.

Bryan at first devoted himself to a straightforward discussion of the liquor question, quoting figures to show how much could be done with money now spent for drink if expended in other ways. He called attention to the increasing ban on liquor users by steamship, railway and other employers of labor.

Then he called upon all who would sign the abstinence pledge to arise. Bryan had brought pledge cards with him and they were passed through the audience.

Two schoolboys asked Bryan to autograph their pledge. Then started an unprecedented scene. The cry for autographs was taken up all over the house and 5000 persons were soon in a struggling mass trying to get to Bryan. It took him two hours to sign.

CARL HABERLACH COMMENTS ON CHEESE SITUATION

Carl Haberlach reports considerable quantity of cheese in cold storage in California. San Francisco alone holds 309,634 lbs. California flat, 29,295 lbs. Cal. Y. A's and 1,081,330 lbs. of Oregon and Eastern cheese, a total of 1,420,259 lbs. in storage on March 10th. Also, receipts are very heavy, mostly California. Last Monday California extras were 12 cents, declined to 10c on Tuesday and to 10c on Wednesday, with butter going at 22 1/2c. Cheese price nets the farmer about 80c per 100 for his milk, so it would seem that he would soon go into butter. Of course there is no danger of Tillamook cheese going as low as that, but with many communities going into cheese making and offering their cheese at low prices, it will be up to Tillamook prices to come down or else hold their cheese, which is of course impossible at this time of the year. It was hoped that some of the surplus could be sent east for export, but refrigerator service through the Panama canal is still very meager and the freight across the continent by rail is too high to permit of much hope from that source for a while at least. Then, too, it is hard to get transportation across the Atlantic, all service being engaged about a month in advance.

GET-RICH-QUICK SPECULATION GOT HIS MONEY— WAS HE A "PRUDENT MAN"?

No wonder this man is discouraged! He thought he could make a fortune quickly. He believed some oily tongued rascal; he sent his money away; he LOST IT.
Would it not have been better for him had he kept his money SAFE in our bank and let it PILE UP until he had enough to buy something right here at home he could watch himself? He would have helped the community and increased the value of his property.
