ROOSEVELT ADMITS "BOSS" AIDED HIM

Letters Read Show Colonel
Consulted Senator Platt in
Many Matters.

Syracuse, N. Y.—Theodore Roosevelt admitted under cross-examination in the suit for alleged libel which William Barnes has brought against him, that while governor he had freely consulted the "boss" of the republican party in New York State in reference to the appointment of officials in the state government and various legislative and political matters.

The "boss" named was Thomas C. Platt, who at that time represented New York in the United States senate. The ex-president said he took the advice of the senator in many matters.

The testimony resulted from questions asked after letters of a series that passed between Colonel Roosevelt and Senator Platt had been read to the jury. In these letters, both writers discussed all manner of political and legislative affairs. In one, Colonel Roosevelt asked the senator's advice about making speeches.

The letters that passed between Roosevelt and Platt showed that the two continued to consult on friendly terms while the former was governor, vice-president and then president. In a telegram sent to Roosevelt while he was still governor, the senator urged the signing of a bill for exempting from the franchise tax grade crossings of steam railroads, and said that "our friends of the New York Central" and Senator Depew were "anxious."

Colonel Roosevelt replied that he had received the telegram "too late" and that, anyway, he considered the matter was one upon which he should take the "advice of the tax commission unless it could be shown that they were wrong."

PORTLAND MILL FIRESWEP

Albers Brothers' Milling Plant and
Stack is Damaged.

Portland.—Fire, which for a period threatened to develop into a disastrous waterfront conflagration, swept a portion of the plant of the Albers Brothers' Milling company on the west waterfront, between Lovejoy and Marshall streets, at 4:40 o'clock Sunday morning, resulting in a loss estimated at \$140,000. The damage is fully covered by insurance. The origin of the fire is not known.

Prompt and efficient work of the Portland fire bureau saved a complete loss and perhaps a grave waterfront conflagration. Had there been a wind and the flames had reached the wooden docks the damage might have exceeded that of any other Portland waterfront fire. At this place the docks are the thickest and the Broadway bridge might have been in danger as the mills lie on either side of it.

Must Test the Sanity of Thaw.

New York.—The question of the sanity of Harry K. Thaw will be determined by a jury. Supreme Court Justice Hendrick, in a decision handed down, granted the application for a trial made by Thaw's attorneys.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout
the State During the Past
Week.

D. C. O'Reilly Buys North Bank Fleet.

Portland.—Drake C. O'Reilly, head of the Diamond O line and interested in waterfront properties, as well as being a member of the Port of Portland Commission, has become the owner of the stock, steamers and other holdings of The Bates, Portland & Astoria Navigation company, an adjunct of the Spokane, Portland & Seattle railroad. The exact amount of money involved is not publicly stipulated but is generally estimated to be between \$45,000 and \$75,000 as the property had been held at that figure, it is reported.

Apple Increase Unlikely.

Hood River.—Indications in all parts of the Hood River Valley point to an apple crop no larger than that of last year, despite the fact that numerous young tracts will come into bearing this season. While a few scattered orchards promise a big yield, growers say that the old tracts will bloom scantily. Judging from the expression of growers who have inspected the orchards, the crop will about equal that of last year, when the Apple Growers' association handled 843 carloads of apples and the Fruitgrowers' Exchange 90 carloads.

Owner Not Compensated.

Roseburg.—Holding that an employer is not entitled to recover money for injuries sustained, even though he has taken advantage of the workmen's compensation act, Judge Skpworth, of Eugene, handed down a decision in which he held that the state industrial accident commission acted within its rights when it refused to pay the claim of E. F. Lang, of Dillard, Douglas county. Mr. Lang, who owns and operates a mill near Dillard, was injured in August, 1914, and later filed a claim for compensation.

BANK ROBBED OF \$600

Robber Throws Ammonia in Officer's
Face and Escapes.

Medford.—Throwing a bottle of ammonia in the face of E. R. Rosser, cashier of the Rogue River State Bank at Rogue River, and then gagging him with an ether-soaked handkerchief, an unidentified robber obtained \$600 in cash, stepped into a waiting automobile and escaped. Later he was pursued by sheriff's posses from both Jackson and Josephine counties.

According to the cashier's story, he was just closing his books for the day when a strange man entered and, coming swiftly toward him, directed a savage blow at his face. Mr. Rosser put up his arm in defense, while the robber, with his other hand, threw the contents of a bottle of ammonia full in his face.

Blinded and gasping, Mr. Rosser tried to escape, but was quickly overpowered, bound and gagged and soon succumbed to the ammonia fumes.

Fruit is Hurt by Frosts.

Pendleton.—Farmers who have made a survey of their crops since the drop in temperature, which brought frost and ice in some sections of Umatilla county, report considerable damage done to fruit and vegetables. The general opinion among wheatgrowers is that the grain has not been injured, but much alfalfa has fallen. The damage in this county is confined largely to the irrigation district around Stanfield and Hermiston, especially in the lower lands.

Corvallis Man Stabbed to Death.

Corvallis.—The body of Will Purdy was found near his home here by two members of the railroad section crew. Purdy evidently had been murdered. He had been struck just below the heart with a knife. Appearances were that he had jumped through the window after being stabbed, and had crawled or fell forward a short distance.

The sheriff and coroner were notified and George Avery was arrested on suspicion.

The Grand Leader will move about May 15th into the building now occupied by the post office.

JAPANESE DEMANDS ON CHINA MOUNTED

Pekin.—A new draft of the Japanese demands on China was presented to the Chinese foreign minister by the Japanese minister.

Some modifications of several minor points in the demands have been made. The clause in the original demands relating to supervising in the organization of Chinese police by the Japanese has been withdrawn, except with reference to Manchuria, and the second clause of group 3, relating to the Hanyehping company mining concessions, has been eliminated entirely.

The Japanese plenipotentiaries have it is said, informed the Chinese plenipotentiaries that the revised draft is the irreducible minimum, the acceptance of which Japan insists upon. But Japan, it is stated, makes one noteworthy concession, offering to restore

Tang Tzu-shan of China defers no longer the acceptance of Japan's demands.

Son of Ex-Secretary Seward Dies.

Montrose, N. Y.—Frederick W. Seward, assistant secretary of state in the cabinets of Presidents Lincoln, Johnson and Hayes and son of the late Secretary of State William H. Seward, died here in his 65th year. He leaves a widow, Anna M. Seward, and one brother, General William H. Seward, of Auburn.

Oil Found at Baker Causes Excitement

Baker.—Towns of an eastern Oregon oil field, with this city at the center, are in order here, following heavy seepage of oil in the drill hole at the test well being sunk by C. S. Blackmon and associates. It is known there is oil in the valley, as heavy seepages from artesian and other wells have been noted at many points, but the greasy mud and pure oil in the drill hole was of such quantity that a bucketful was dipped out.
