RUSSIANS ARE STILL BEING FORCED BACK

Berlin Reports That Austro-Germans Are Taking One Position After Another.

Berlin, via London.—Advices from the Galician front continue to be extremely favorable to the Austro-Germans. According to a dispatch from the Austrian headquarters the Russians are being maneuvered out of one position after another and are in full retreat from Mielzka, east of Przemyśl. It is considered doubtful if they will be able to make a stand at Mielzka.

The line of the lakes running north and south through Grodek, which would be the next natural line of defense, is being taken on the flank by the Austro-German advance from the south. If this army forces a passage of the Dniester, the Grodek line may be untenable in which case the Russians might have great difficulty in retaining Lemberg.

Desperate Russian attempts to relieve the situation in the center by attacks on both wings have been fruitless, according to the German reports.

A dispatch from Czernowitz, capital of Bukovina, says the Russians to the east and northeast of that city are retreating.

A colossal battle, unsurpassed in desperation, is now raging along virtually the entire Galician front, with the Austro-Germans continuing their dogged attacks with bayonet, rifle and hundreds of cannon of all calibers, while the Russians are resisting valiantly, using reserves, which reports say include men showing signs of age, as well as the class of 1917.

GREAT ITALIAN ARMY MASSES AGAINST FOE

Rome.—Three hundred thousand Italian troops have been massed against the Austrian defense on the left bank of the Isonzo. Two hundred thousand Austrians, it is estimated here, are attacking the hostile works. The battle is raging with extreme violence.

The main Italian attack is being pressed on the far slopes of Montevetro and the neighboring Austrian artillery positions. These command the approaches to Tolmino, generally considered the key to the gateway of Trieste. Upon this battle largely depends the fate of the whole Isonzo campaign of the Italians.

Meanwhile on the Tyrolean front the Italians are making slow but steady progress in the direction of Rovereto, which guards Trent along the Adige valley.

Scattered reports from the front and from the coast tell of developments which indicate that Italy is losing no time in her aggressive campaign. Already the military authorities have contravened under the provisions of the royal decree 57 Austrian and German steamships with a total of 216,779 tons.

ROMANIANS WANT WAR

30,000 At Capital Make an Anti-German Demonstration.

London.—Reuter's correspondent at Bucharest telegraphs that a great demonstration was held there Sunday in favor of intervention by Roumania in the war in support of the allies. About 30,000 persons marched with flags flying and bugles sounding, to the Italian legation, where speeches were delivered eulogizing Italy.

Later partisans of Alexander Marghiloman, the conservative leader, together with socialists, organized a counter demonstration.

At a meeting of the executive committee of the conservative party, the attitude of M. Marghiloman in favor of Germany, was discussed. After a debate the majority condemned the leadership of the party. M. Marghiloman thereupon left the meeting, accompanied by his supporters.

Germans Take 33,000 Russians.
Berlin, by wireless to Sayville.—General von Mackensen captured 33,805 prisoners in accomplishing the fall of Przemyśl, according to official announcement here. The statement added:

BRIEF WAR NEWS

Fighting of the fiercest character on the Gallipoli peninsula has resulted in the allies still maintaining their offensive along the whole of the front. The Turks are reported to have massed 275,000 troops for the defense of the Dardanelles and Constantinople.

British, French and German officials reports agree that the fighting has been intense on the western front, and the British and German accounts are in accord in indicating engagements of special severity between those two contestants.

A determined offensive has been launched against the British line along Ypres. Dispatches tell of a renewal of the vigorous bombardment of the British trenches. The center of the attack is from Hooge and the heavy artillery fire being poured against the British line is accepted as being preparatory to a general assault in an attempt to break the British front.

With Przemyśl again in the hands of the Austrians, sledgehammer blows are being struck at the Russians on the eastern front. General von Mackensen's victorious army is closely following the retreating Russians eastward. As yet there are no indications of withdrawals from von Mackensen's forces for use in France as fighters, but the apparent determination of the Austro-German forces to crush the Russians and drive them completely out of Galicia.

ZEPPELIN IS BLOWN UP

Great War Zeppelin Falls Blazing to Earth and Crew is Killed.

London.—For the first time on record a Zeppelin in the air has been destroyed by an aviator in an aeroplane. Lieutenant J. Warneford, a young Canadian lieutenant in the royal navy, who mastered aeroplaning only last summer, has performed the feat, and landed within the British lines, after a Zeppelin had taken, approaching the rear and ground of an ordnance warehouse.

Feeling a blazing mass after being struck by the young aviator's bombs, its crew of 28 men were killed, as well as several occupants of the ordnance buildings.

The Zeppelin, which was flying comparatively low, began to mount at once when the aeroplane attacked, but the British was speedier and climbed into the air in long spirals, reaching a position at length over the German's vast bulk. From this point of vantage Warneford burst the Zeppelin's shell repeatedly with his incendiary bombs.

SOUR GRASS ROUTE WILL BE TAKEN

On Wednesday, J. B. Dodson, Judge, and W. S. Allen, Commissioner, met with our county court and discussed the building of a new road over the mountains over what is designated as the Sour Grass route. It was decided to build this road which will cover 5 1/2 miles and will cost \$20,000, Yamhill paying half the expense and Tillamook the other half.

The counties have been enabled to do this by the enactment of a law at the last session of the legislature which permits county courts to establish road districts made up of lands in two or more counties.

The above mentioned improvement will be a splendid one, as it will eliminate the bad hills now traveled in getting over the mountains at that point. This road will have a four per cent grade only and when completed will be a good road for autos the year around. It is thought the road will be completed for winter travel.

For Sale: A good blooded Jersey bull. Inquire of Frank Blaaser, Tillamook, Ore.

CARD OF THANKS
Undersigned wish to sincerely thank all those who so kindly assisted during the illness and at the death of my wife and daughter Mrs. Albert Olds and daughter Mrs. Albert Olds, Mr. and Mrs. I. C. Quick.
