## Two Men Drown Off Tillamook Bar

Ralph Emerick and John Rathjan  
are Carried out to Sea and  
Drowned

Some time on Friday night Ralph Emerick and John Rathjan of Portland who were camping at Bayocean were carried out to sea in a small boat and drowned.

Emerick and wife, John and Will Rathjan and Roy Hickey had been camping for a month at Bayocean, where Mr. Emerick owned property. On Friday afternoon Mr. Emerick and John Rathjan went to Bay City for a small boat which they secured and with which they left Bay City for Bayocean that evening at about 9:30 or 10:00 o'clock. It is thought that while they were on their way, the outgoing tide caught them and carried them to sea, which resulted in their boat being upset and their being drowned. On Saturday morning the boat came ashore on the ocean side of Bayocean, with the anchor line severed.

The shore has been searched for the bodies, but as yet they have not been found. Mrs. Emerick and Will Rathjan returned to Portland Monday, while Roy Hickey remains here to keep up the search.

Mr. Emerick was a ball player, having formerly played with the Seattle Club of the Northwestern League, and played with Tillamook the Sunday before he was drowned, having caught both games of the double header played with Bay City.

## A WORD TO CANNING CLUB GIRLS

Dear Canning Club Girls:

Now that school is out for the summer, I am sure you are coveting much of your spare time to your Club work. I am always glad when I receive a letter from one of you because then I know that you have accepted me for your friend, and that you have taken me at my word when I invited you to write to me if you needed help in your work.

I want to impress upon you the importance of doing your best. Select only whole, ripe, fresh fruit and vegetables to can. Gather at one time only what you will have time to can at once and then prepare and put up in the best way possible.

When you label your jars, be sure to paste the labels on neatly. Have the name of the product neatly and plainly written in ink or printed or typewritten. Be sure that the jars are clean.

Do not allow yourself to be satisfied with your results until you have done the very best it is possible to do.

Work for the sake of learning to do something well.

Work that you may win the State prize in canning for your County first, for your Club or school second, and for yourself last.

Above everything do not let difficulties discourage you. Remember that anyone who wins in spite of obstacles is always the stronger in character for the struggle.

Clear, white glass jars will show off your products to better advantage than will jars made of glass with a bluish cast, so if you have to buy jars, choose clear, white ones rather than blue. Be sure to keep a careful record of all that you are doing so that your final report may be complete.

Please write to me and tell me about your work, how many there are in your Club and whether you have an advisor.

I wish you the best of success, and hope to meet each one of you some time.

Your sincere friend,

Helen J. Cowgill,

Assistant State Agent, Boys' and Girls' Club Work, U. S. Dept. Agric.

## BETTER BABIES CONTEST

Forty-nine babies were examined and scored at the better babies contest here last Saturday. Those having this work in charge were somewhat disappointed as over 75 babies had been entered. Other matters such as picnics, etc., seemed to keep the mothers and babies away. However, forty-nine is a pretty good showing and with the prize lists from other parts of the county, the better babies exhibit promises to be a splendid feature of our fair.

## FIRE WARDENS FOR TILLAMOOK

Following is a list of fire wardens for Tillamook County given us by Supervising Warden Geo. Williams. The boys have all been given their positions and are duty

- 1 Geo. H. Williams, Supervising Warden, P. O. Bay City

## WEDDING

On Sunday last at the home of Jonas Olson in this city Miss Esther E. Borgquist of Mount Vernon, Wash., was united in marriage to George W. Olson, Rev. Gittins pastor of the M. E. Church officiating.

The services took place at the noon hour after which the wedding party which consisted only of relatives, sat down to a sumptuous repast.

The bride's father and the groom's father were old friends in Michigan four years ago. They came to the coast together thirty years ago. Mr. Borgquist settling in Washington and Mr. Olson in Oregon.

The groom was raised in Tillamook and but recently completed a four year term of service in the navy. He is industrious and has the respect of many friends. The bride is a fine talented young woman whom we are sure will make many friends here.

The young couple will make their home here, it being their intention to go on the Jonas Olson dairy ranch. The Herald joins in wishing them a long and happy wedded life.

## LOGANBERRY INDUSTRY

### THRIVING AT BEAVER.

A. E. Gardner made a visit at his home at Beaver last week and while there interested himself in the conditions surrounding the loganberry industry of that locality. This is the second year that loganberries have been harvested at Beaver and the results are very flattering indeed. The dried product has been contracted for at 22 cents per pound. It takes six quarts of fresh berries to make a pound of dried fruit. This year's yield will net from \$50 to \$60 an acre and this is considered very good as the vines now bearing will not be in full yielding condition until they are about two years older.

The high lands are producing a purer and sweeter berry than the low lands are.

Frank Payne who has the largest acreage there (5 acres) is now making a large amount of juice. There is a good sale for juice and good money in it.

The Beaver locality now has about 20 acres set out in loganberries.

## HARVEST HOME PICNIC.

The First Annual Harvest Home Picnic of the Pleasant Valley Grange will be held at Pleasant Valley school house on Saturday, Aug. 7.

A cordial invitation is extended to all and a general good time is arranged.

Public speakers are expected to attend and a good ball game will be one of the features of the day.

Refreshments will be served on the grounds. Everybody take a full basket and attend and have an enjoyable time.

The committee who has the arrangements in charge is: B. W. Turner, F. W. Robitsch and A. T. Blackburn.

## CONCERT AT BAR VIEW

The Portland Orchestra which is now located at Bar View will give a concert at that place on Sunday next from 10:30 a. m. to 12 o'clock. This concert will be free. All are invited.

## Commercial Club To Re-Organize

New and Commodious Quarters in  
Patzlaf Building. Dues to be  
Lowered.

At a meeting of the Board of Directors of the Commercial Club held Friday night, it was decided to re-organize the Commercial Club and start on a more business like basis, by making a campaign for members among the live business men of the city. The policy of the Club in the future will be to devote all of its efforts toward the fostering, encouraging and developing the resources and home interests of the city of Tillamook, and the County in general.

The Club is now located in very comfortable quarters on First Street opposite the Ramsey Hotel, where all members and out of town visitors are welcome at all times.

The Club has recently shipped some of our Tillamook cheese to the San Francisco fair for exhibition, and are now endeavoring to have the different factories in the county donate some cheese to be served on the exposition grounds.

The monthly dues for members have been reduced to one dollar and the board feels that they are entitled to the support of every business man who interested in the future development of our county and city.

## BAILEY SAWMILL READY TO RUN.

(Wheeler Reporter.)

The whistle of the new sawmill of the Bailey Mill Co. at Wheeler blew its first blast on Monday of this week. The mill is now completed and ready to begin cutting lumber. We are advised that orders for lumber have been secured which will keep the mill running for three months or more. The new mill is well built and substantial and is equipped with ample power. The owners of the new mill have endeavored to make every dollar expended count for full value in the construction of the mill, and the result is an exceedingly well built mill, erected at a very reasonable figure. The mill when running to capacity will cut about 20,000 feet B. M. of lumber per 10 hours. The operation of this new mill and the resulting saw mill will mean a great deal to Wheeler and to the entire valley.

## BEACH ROAD PLANKED.

(From Beach Comber.)

A welcome announcement was made by the county court this week when that body informed the public that the beach road would be planked immediately as far as Lake Lytle. The work has been nearly completed and all that remains is to change new planks for some old ones that were

## TILLAMOOK WINS FROM BEAVER

Manager Millis took his champions to Beaver Sunday and defeated the team of that place by a score of 9 to 5. It was a good fast game but the Tillamookers had the Beavers well under control during the greater part of the game. Only once in the fourth inning was the game in danger when Schoulsen walked, stole second and went to third on Fordner's grounder which was fumbled by Tillamook's first baseman. Millis tightened up and fanned the next two batsmen retiring the side. Alderman's one handed stop of a fast liner in the eighth was one of the features of the game. Crimmins was tried out behind the bat and played a good game. Millis struck out 13 and allowed one to pass; Johnson struck out 5 and walked three. Batteries: Millis and Crimmins, Johnson and Fordner.

The Redmen took another defeat from the Bay City team on the local grounds. There was no evidence of any tie in Sunday's game, the tail-enders being outplayed and outclassed in every department of the game. Wilson struck out 5 and allowed 13 hits. Provost struck out 5 and was found for 8 hits. Score 11 to 1. Batteries: Wilson and Rowin, Provost and Patterson.

aid temporarily wear the depot at Rockaway, the lumber is ordered for the bridge work and that work will be done the fore part of the week.

Geo. R. McMillens, county commissioner from this district was on the beach Tuesday and in speaking of the road work stated that he was very sorry that the delay had been caused and that he was doing all in his power to have the balance of the road finished as soon as possible. When asked regarding the completion of the road through to Wheeler, Mr. McMillens said that his present county court would not do any more work until they had a right of way, and that the members would not pay for the right of way. He said that the court would not again pay as much for the right to put a road through as it cost to build the road which was the case of the Twin Rocks road.

Of course the residents of the beaches are glad that they now have a good road as far as Rockaway, but that is only a step and they will not stop until they have what they want, a road through to connect with Clatsop county line. Apparently from the attitude of the county court it is up to the people to devise a way to secure a right of way to complete the road. Mr. McMillens promised to send the particulars to this paper as soon as he could get them and then they will be published. If there is no other way out of it, the Booster Club will probably take the matter up. Anyway the club has started something and to all appearances will not stop until they have gained their ends, a road down the beach from the Clatsop line to Tillamook. We are going to keep at it anyway.
