TUESDAY AUGUST 3, 1915

drownings at Dillamork Visintics beaches. This is to be deplaced. Prople are price to take too many chances with the treacherous tribes and a diff waves. Repeated deaths and other warmings are given, but still the toll of human life is ever given. There is but one proper rourse to pursue, will Do not take chances. If a proposition looks the least doubtful weep away

Those who may have the muce and are dissatisfied with conditions here should read the communication in an other column from the pers of C A. Smith, who has been a resident and now owns property in this county. Tellamosk county is good enough for our.

The state authorities and timber interests, working in conjunction; have placed their fire wardens over the county, and many of our boys are new engaged in the work of preserving our vast timber resources which mean so much to the future prosperity of us all. It is to be hoped that our ranchers and all those who may have any burning whatever to do, ideluding campers; and others will work in harmony with the fire wardens and all care taken to preserve the timber. Remember that our timber is not only a matter for future consideration but it is belong as right now. Eighty per cent of our road money comes from the timber. We are all proud of our good roads but it must be remembered that if it were not for our timber lands we would not have these roads. So let all do what they can to preserve them as such.

In the last few issues of the Headlight Bro. Baker has considerable to say in regard to the effect of the Demperatic administration on business conditions of the coast country. He blames the slumpish candition of the lumber market and everything else to the trail was held here amenday and the Democrats. Will be please tell us who analous manus and paper as well as was to blame when he last a nice little indis kids are nightly glad of it.

Twad' is the saw mill brainess here. Donlors Ranchart, of Wheeler, and during the Tatt administration? Choose is being shipped to foreign markets by: the boat loads and we have not had any teeth of the confestants. foreign competition for many manths. ket is down not because of foreign competition but because of lack of transportation by water. The mills of Canada are as blo as urs. The mills and industries of this coast have the home market all to themselves, and according to the nigh protectionist theory they ought to be running on full time. The nigh protectionist theory in this day is wrong. Our business enterprises are so constructed and built up that we are dependent to a considerable extent upon the prosperity of other nations. If we will not buy from other nations other nations will be restricted in buying from us. Ships can not afford to make trips one way loaded and the other way empty, and they will not. The war which has effected the commercial activities of the whole world is the cause of our troubles, and is generally considered so by all thinking people.

CLOVERDALE ITEMS

(From Courier.) Mrs. Chas Blum and Mrs. Frank Owens accompanied Owens to McMinnville the forepart of the week, where a joint meeting of the county courts was held.

Mr and Mrs. Frank Ray, who have been doing the cooking at the Clover-dale Hotel, left Tuesday morning for St. Helens, where they have property interests. Mr. and Mrs. Henry Kemp, who held this position some time ago have returned

Mr and Mrs. Carl Shortridge, of Dolph, were guests today of Mr. and Mrs. Geo. Worthington. The deal was closed today whereby Mr. Shortridge becomes the owner of the 40 acres across the river formerly owned by Mr. Worthington.

The three stores owned by Rav &; Co., comprising the Tillamook store, the Cloverdale store and the dock store, have all ben placed under the management of W. G. Dwight, The store at this place is being re-arranged and the interior painted white. An ad on the back page tells of some in-

teresting prices.

The baby contest held at the Grange Hall yesterday was very successful. Mrs. L. M. Kraner was in charge of the work in the south end of the county and has been indefati-gable in her efforts in getting all of the babies in line, knowing full well that the old Nestucca Valley produces that the old Nestucca Valley produces the best of everything, Mrs. Dunstan, Mrs. Campbell, Dr. and Mrs. Hoy, Dr. McGee, Mrs. Callahan, of Tilla-

FLORAL FAIR AT W .. ELER.

(Wheeler Reporter)

Arrangements are being completed or several special features for the loral and Industrial Fair to be held n Wheeler on August 21st. The Zim-nerman building will be used for the lisplaying of all exhibits and as sen-eral headquarters for the day. A special hand is being arranged for, to supply music throughout the day and also for the big dances in the

What is most needed however is exhibits and everyone is urged to arrange for an exhibit either of flow-ors or small fruits and berries. In the floral exhibits it has been decided that no prizes will be awarded. But myone exhibiting a certain number of flowers and of a certain number of

arieties will be paid for the exhibit The management of the Floral Fair rishes as earnestly as possible to call this matter of exhibits to the attention of everyone and to urge that special efforts be made to have the xhibits esticcially fine this year Posters and cards will be sent to all points in the county during the next wo weeks inviting everyone to come to Wheeler on August 21, and a large crowd is expected. Fine exhibits will ie a great advertisement for the Nehalem Valley.

Do your share and get an exhibit ready for the Fair.

Once on this ancient plain, how ever lived wise women-the communif kings whose names and fame come that a to us through the centuries. National Geographic Magazine.

CALL OF THE SEA.

Land Is Existence, but the Oceans Are Life and Civilization.

From the dawn of time, humanity has dreamed of the sea. Land is existence, but water is life. The open sea is the open mind. The oceans are civ-

Watch the movements of the progressive races. It is from hand to water, from water to wider water. First there are the rivers, like the Euphrates. and the Nile, and the civilizations upon their banks are vastly superior to the civilizations of the interiors. But once the seas are discovered and mastered the civilizations of the rivers sink into second pince, and nations like Greece and Home wake into life. Then the oceans. And once the oceans are conquered, you have France and Germany and England.

Suppose back there in the long ago a naked sword too been and a ross the months of the languages and the Nile And suppose humanity, having discov ered an overhand route to the southern peninsulas of Europe, had found but ring their further march another sword across the strait of Gibraitar. And suppose that thereafter all overland routes to the ocean had been blocked say with long lines of cannon. If the democracy of Greece never arose on the Euphrates and the strong type of the independent from an never developed on the Nile, or if, in the second case, that sane, stable constitutional government that is the pride of England never bloomed in Greece and the spiendid educational system that is the pride of Germany never flourished in Rome. upon which jands would the blame lie upon those on the haide or upon those on the outside, upon those that found the sword across their path or upon those that laid it there?-From "The World Storm-and Beyond," by Edwin Davies Schoonmaker.
