LARGEST CIRCULATION OF ANY PAPER IN TILLAMOOK COUNTY

TILLAMOOK, OREGON, AUGUST 13, 1915.

NO. 59

**Oregon News Notes
Of Central Interest**

**Events Occurring Throughout
the State During the Past
Week.**

Pork Shipment Cause of Inquiry.
Portland—The state dairy and food commission is investigating a shipment of pork, said by health officials to be diseased, which was made from Yamhill. More than 500 pounds of the meat officials averred showed the presence of hog cholera.

195 Accidents for Week Reported.
Salem—During the week ending August 5, there were reported to the state industrial accident insurance commission 195 accidents, of which one was fatal. Of those reported, 124 were subject to the workmen's compensation act; 32 were from public utility corporations; 28 were from other firms and corporations who have rejected the provisions of the act, and three were from firms which do not employ labor in hazardous occupations.

Punishment 24 Hours After Crime.
Newport—Twenty-four hours after having waylaid and mistreated Mrs. R. H. Lakin, aged 19, of Blodgett, near Chitwood, Charles Reynolds, 27, of Tulsa, Okla., and Frank Jones, 28, of Tillamook, Or., were sentenced to life imprisonment in the penitentiary by Judge Hamilton.

The two men committed the crime at 3 o'clock in the afternoon and were captured at 7 o'clock. They were arraigned before the grand jury at Toledo the next morning, made a voluntary confession of guilt and were sentenced.

Mrs. Lakin was riding on horseback alone from Nashville, her home, to Toledo, when she was first accosted by the two men.

COLLISION INJURES CONVICTS

Engine Hits Auto Truck Loaded With Prisoners Returning From Work.

Salem—Struck by a Southern Pacific freight engine when attempting to cross the track at Capitol and Union streets, an automobile truck carrying 16 convicts was hurled from the track, seven prisoners were seriously injured, two of whom may die, and 20 others sustained painful cuts and bruises.

Following the convict-laden truck, which was returning to the prison with the men, who had labored in the flax fields all day, was Superintendent Minto and a number of armed guards in an automobile. With the guards close by, it was said that the prisoners feared to jump to safety when they saw a collision imminent, believing that the guards might shoot through failure to understand the cause. None of the men attempted to escape, but those that were aided in pulling the injured men from beneath the engine.

Cities Cannot Exempt Farming Lands

Salem—Cities may not exempt by ordinance farming lands within the corporate limits from municipal taxation, according to a decision of the state tax commission. The ruling was made following a query from A. B. Stearns, deputy assessor of Baker county.

Job Cost \$30,000, Says Cashier Head.

Portland—Frank Menefee, three times mayor of The Dalles, Or., once its city recorder, and for two terms district attorney there, testified in Federal Judge Bean's court that he was \$30,000 poorer for having left his home and law practice at The Dalles in 1910 to take over the presidency and management of the United States Cashier company.

60,000 Sheep on Forest Reserve.

Pendleton—More than 60,000 sheep and almost 10,000 horses and cattle grazed in the Umatilla national forest last year, according to the annual report of Supervisor Cryder, which has just been completed. Twelve miles of telephone line were constructed, three and one-half miles of road were built, two lookout towers for fire observers were built and a cabin to serve as a rangers' headquarters was completed, in addition to much fencing work.

SHORT NEWS NUGGETS

The number of known dead as a result of the Erie, Pa., flood last week, is 29.

Austria-Hungary has expressed her sympathy for the United States in the case of the sinking of the steamboat Eastland at Chicago.

Thomas H. Cannon of Chicago was elected high chief ranger of the Catholic Order of Foresters for three years at the closing session of the international convention at Providence, R. I. The investigation conducted by the U. S. commission on industrial relations has resulted in a report that telephone girls of the United States are receiving wages too low to enable a girl dependent on her own energies to maintain a proper standard of life. Lumbermen from northern Idaho, Montana and eastern Washington, representing \$75,000,000 capital invested in the industry and employing 30,000 people, summarized their troubles under three heads—Overproduction, cut-throat competition and fear of government interference. They testified before the federal trade commission at Spokane.

Villa Offers Concessions.

Washington—General Scott wired the state department confirming reports that General Villa had offered concessions to foreign interests in territory controlled by the Villistas.

Bank Teller Admits Guilt.

Cedar Rapids, Ia.—Officials of the Cedar Rapids National Bank, which was robbed of \$20,700, announced that the mystery of the robbery had been cleared by the confession of Leo Perrin, paying teller, that he had taken the money to settle debts incurred in land speculation.

Grand Jury Indicts Eastland Crew.

Chicago—Chief Engineer Joseph Erickson and five other members of the crew of the steamer Eastland, which turned over in the river here with a loss of more than 1000 lives, were indicted by the state grand jury on several counts, each carrying a manslaughter to criminal negligence.

**EMERGENCY RESERVE
NECESSARY TO SAFEGUARD
EVERY KIND OF BUSINESS.**

**Fred M. Rowley, Special Agent For the
Equitable Savings and Loan Association, Makes Known Some
Facts Pertaining to the Investment of Money.**

Few people realize the difference between the renting power and the earning power of money. Money power is best known by the financiers, they study this all important question and are thereby best qualified to know their knowledge comes only after years of careful study and experience. Any person desirous of investing or loaning money and who is not familiar with the investment or loan they are about to make should consult some competent person who they know is familiar with the investment or loan.

There is a common fallacy that while for legal advice we go to lawyers and for medical advice we go to physicians and for constructions of great works to engineers—financing is everybody's business. As a matter of fact it is the most profound and complicated of them all.

It is a good thing to become a PRISONER of the saving habit. Get the habit of saving then saving becomes a delight. It will soon be found that pennies are copper keys that unlock the doors of opportunity.

Don't wait until you have one hundred dollars in cash before realizing your ambition, but start now to save just so much just so often.

In addition to hundreds of professional and business men now investing their savings with us we have many Fraternal Orders also a number of little news boys and boot blacks place their nickles and dimes with us.

Our securities consist of nothing but First mortgages on real estate the securities are held in trust by Secretary of State and back of this is a strong board of directors consisting of Oregon's most brainy and wealthy men among them are Chas. E. Ladd, President; Theo. B. Wilcox, Vice President; The Equitable Savings and Loan Association has passed the quarter of a century mark having been in business since 1890 and having weathered all the past financial flurries and panics it is now a time tried and panic tested investment.

**Germans Complete
Control of Warsaw**

**Occupy New Positions Around
the City and Strengthen
Hold on Poland.**

Berlin, via London.—Further progress for the Austro-German forces which are attempting to cut off the retreat of the Russians was announced by the war office.

The statement says that Serock, at the mouth of Bug, north of Warsaw, has been occupied; forts near Nowogoriewsk have been captured; the Germans have occupied the east bank of the Vistula near Warsaw and to the south the Russians are being driven back by Field Marshal von Mackensen.

The text of the report is:

"The German troops on the Narew are approaching the Lomza-Ostrov-Wyszokow road. At some points the enemy offered stubborn resistance. South of Wyszokow the Bug has been reached. Serock, at the mouth of the Bug, has been occupied. Near Nowogoriewsk our siege troops took the forts at Segrze."

General von Mackensen and Archduke Joseph Ferdinand were pursuing the retreating Russians with unabated vigor, according to a statement from the German general staff.

The Russian rear guard is unable to hold the advancing Germans and the retreat toward Brest-Litovsk threatens to become a rout.

General von Scholtz has reached a point only eight miles from the Warsaw-Petrograd railroad and General von Woytsch is within 25 miles of the Warsaw-Siedlce railroad.

**GERMAN ATTACKS
VIOLENT IN VOSGES**

Paris—Fighting of extreme violence has developed in the Vosges mountains in consequence of the German attack. The official French announcement says this attack has been repulsed, but concedes that minor advantages have been gained by the Germans in the Argennes. The statement follows:

"In the region of Artois there were continual combats with hand grenades around Souchez."

"In the Vosges a German attack attained extreme violence. It was directed against our positions at Lingkopf and Schratmannelle and the neck of land which separates these heights. Our assailants were repulsed and suffered heavy losses. Before the portion of the front held by only one of our companies the corpses of more than 100 Germans remained in the network of our entanglements."

RECORD CROP IN PROSPECT

Wheat Yield Greatest Ever Grown; Will Exceed 1914 Figures.

Washington—Three billion bushels of corn, 1,500,000,000 bushels of oats and 1,000,000,000 bushels of wheat are in prospect for this year's American harvest.

The wheat crop, the greatest ever grown in any country, will be worth more than \$1,000,000,000, while the corn crop's value may reach \$2,500,000,000.

Estimates of the principal crops, announced by the department of agriculture, based on conditions of August 1, show that all crops will be greater than last year.

The estimates give for Oregon an increased production of 315,000 bushels of wheat and 540,000 bushels of barley over that of 1914. Washington estimates for winter wheat show an increase of 5,800,000 bushels over 1914 production and an increase of 2,400,000 in spring wheat. Washington's barley crop is reported in excellent condition, but the yield will be somewhat slighter than in 1914. Idaho's winter wheat yield is estimated as 1,078,000 bushels more than in 1914, while the barley crop estimate is for a yield of 870,000 more bushels than last year.

Complaints Made Against Canadians.

Seattle.—The Federal Trade Commission closed its hearings in Seattle after direct charges had been made that Canada is discriminating against American lumber and lumber products. An insistent demand for a better tariff and an American merchant marine marked the meeting. Plans were made for the American manufacture of creosote and other chemicals, with a sufficient advance in duty on German and British products to prevent dangerous competition.

GREECE REFUSES TO CEDE

Fiat Refusal to Cede Territory to Bulgarians.

London.—"Greece will not cede one inch of territory to Bulgaria," was the substance of a reply made by Premier Gounaris to a delegation of Macedonian deputies who asked a statement relative to the purpose of the government, says a Reuter dispatch from Athens.

In the negotiations which have been conducted by the allies of the Quadruple Alliance with Bulgaria, in an effort to induce her to enter the war on their side, she has insistently demanded that she be ceded that part of Macedonia which was awarded to Serbia at the close of the Balkan wars. She also has sought to obtain at least a portion of Macedonian territory which came under the Greek flag in the same way.
