You like to be treated, when you go shopping, as if your business was appreciated, and not as though you are being waited upon as a matter of accommodation to you.

The spirit of this store is to make you feel welcome at all times—and more; we try to make our customers feel that they are actually one of us, for we are not the people most necessary to our success. True courtesy in business involves more than mere politeness. With us it means that our one dominating policy is to try to ascertain just what you want and then to see that you get it at the lowest possible price for satisfactory quality.
