## Tillamook 1915 Fair Eclipses Former Ones

All Exhibits Larger; Four Days Program Very Entertaining

In selecting the dates, Aug. 24th to 27th, for our County Fair, the Tillamook County Fair Board was very fortunate, for the weather on those dates was absolutely perfect.

The exhibits at the late fair were all that could be asked for. The exhibits by the Granges were first class and showed much care and hard work on the part of those who took an interest in them. The different Granges were awarded prizes as follows: Fairview Grange 1st prize, Nestucca Grange 2nd, Pleasant Valley Grange 3rd, Oretown 4th, White Clover 5th.

The school exhibits were certainly fine and showed much hard work and interest on the part of the teachers and pupils. The school exhibit prizes were awarded as follows:

School of three or more rooms, Tillamook, district No. 9, first prize.

Schools of two rooms, Maple Leaf No. 10, 1st prize; Garibaldi No. 14, 2nd prize; Fairview, No. 1, 3rd prize; Beaver, 4th prize.

Schools of one room, Riverdale, No. 28, 1st prize; Hunt, No. 56, 2nd prize.

The school prizes were given on general decorations, school work display and products.

In the two room contest Garibaldi received first on decorations, Fairview first on school work display and Maple Leaf first on products display.

We wish to make special mention in regard to the Garibaldi school, the teachers of which are H. S. Brimball and Miss Eva Wheeler. This school with only three ranches in the district took second prize. This school also camped on the grounds in a body accompanied by many of the children's parents, and besides had an organized ball team present which put on a game with one of the Tillamook teams one of the fair days. Such interest was taken by the Garibaldi school needs special commendation.

The individual farm displays were the best ever put on exhibition here. It was noticeable that those who put on the displays are learning more about this work every year. C. E. Donaldson won first prize in this class of exhibits and R. Y. Blalock second prize. Both exhibits were splendid and a credit to the county.

The live stock show was as good as one will see anywhere. There were some fine herds and they were all in good condition. Our people are getting hold of the pure bred stock idea good and strong and it is only a question of a few years until Tillamook County will be as noted for its pure bred stock as it is now noted for its cheese.

The evening programs in the school exhibit building were all good. They consisted of musical numbers, readings, etc. On Thursday evening Congressman Hawley of this district gave a talk on rural credits. Mr. Hawley is a member of the House Committee on rural credits and it is a part of his work to look into and understand this subject. His address was very instructive.

On Friday the big street parade was given under the direction of David O'Donnell. The parade was headed by the Cloverdale band and was made up of cowboys, Indians, the several granges and other interesting features. At the conclusion of the parade a realistic old time hold up by a band of Indians was staged at the fair grounds. The old stage coach which was used here for many years, was in the play, after the Indians had practically captured the coach a band of cowboys made their appearance upon the scene and drove the Indians off. There was much burning up of gun powder and a duce of a racket all around. The holdup which was under the management of Mr. O'Donnell was a decided success.

The Cloverdale Band which furnished music during the four days of the fair rendered faithful service. The band made a fine showing, musically and was always on the job when wanted.

Taking all things into consideration the work of the Fair Board and all those who were in official capacity deserves special credit for the splendid work done. There is a tremendous amount of work and detail to look after in the successful handling of a fair and all this was well looked after. Of course there is always some complaints in the awarding of prizes and the judges are many times subject to very

unpleasant incidents and criticisms, but this is a part of the work that must be considered and put up with.

There was a ball game at each day of the fair. On the first day Bay City beat Tillamook by a score of 5 and 6. On the second day Tillamook defeated Beaver by a score of 11 to 12. On the third day Tillamook school boys defeated Garibaldi boys by a score of seven to 12. On the last day the farmers beat the Tillamook City business men by a score of 27 to 7.

Following is a partial list of the premiums given. Our next issue will contain a list of the remainder of the prizes, also a report on the better babies contest.

## WARREN CONSTRUCTION COMPANY OFFERS TO SETTLE

A meeting of the litigants in the paving case was held at the Court-house last Monday for the purpose of considering an offer of settlement made by the Warren Construction Company.

The Warren Construction Company's proposal was to throw off 25c. per yard on all pavement, give a ten year maintenance bond instead of the five year bond provided for in the contract with the city and forfeit two and one half years interest on all claims they have against the property owners or city, the interest amounting at this date, to between \$30,000.00 and \$40,000.00. The foregoing makes no distinction whatever between litigant and non-litigant, all are treated alike.

In addition to the above the Warren Construction Company proposes to pay the litigants the sum of \$27,000.00 to cover the expense of litigation, etc. It is this item and its distribution that caused considerable friendly discussion at the meeting. The discussion was about when a motion was made to pay the three most active members of the Citizens Committee having in charge the litigation the sum of \$2,000.00 each for their services. Mr. Haberlach took the floor in opposition to the motion and in a very courteous way proceeded to state that such a distribution would be unjust. At this juncture the Chairman of the meeting, A. G. Beals, stated that, despite the extreme delicacy of the situation, (he being one of the parties to be paid \$2,000.00), he felt called upon to make a statement of the services that had been rendered to the community by the committee but before proceeding he wished to state that the committee were not asking for compensation but were in a receptive mood if it was the sense of the meeting that they should be compensated. He then gave a brief history of the letting of the contract and the rough shod manner in which the citizens were treated thereby arousing suspicion that finally resulted in the investigation that developed a flagrant violation of contract on the part of the Warren Construction Company. He pointed out the ridicule, censure and abuse that the committee has been subjected to during the pendency of the investigation and the litigation following, he pointed out the services of Mr. Dwight in procuring samples of pavement and otherwise; his own services and how he had appealed to the Engineering Department of the Agricultural College to assist in bringing to light a fraud that he believed had been perpetrated upon the people of Tillamook, finally enlisting their sympathies and procuring the services of Prof. Skelton, who played such an important part in conducting the campaign of education and later was the star witness for the citizens. He called attention to the services rendered by F. R. Beals, who, under an expense of \$350.00 per month, had devoted his exclusive time and that of his clerks to the cause of the people for a period of nine months. "As a result," he stated, "The Warren Construction Company are offering the people of Tillamook in the way of a settlement the equivalent of nearly \$100,000.00. If, instead, the Warren Construction Company had a judgment against you ladies and gentlemen for \$50,000.00 for damages and costs the censure of this community against this committee would not die in a generation."

After the conclusion of Mr. Beals remarks the meeting voted to allow the three active members of the committee \$1,500.00 each.

The writer has been informed that certain non-litigants are objecting to the distribution of the additional \$27,000.00 among the litigants but when it is considered that quite a portion of this sum will be consumed in expenses and that due solely to the activities of the litigants the non-litigants have been saved twenty-five cents per yard, will have five years added to the maintenance bond and equally participate with the litigants in the \$50,000.00 to \$50,000.00 reduction in interest charge that there should be no criticism or censure but instead they should have the lasting gratitude of the non-litigants.

## BETWEEN SOCIALISTS ADOPT PEACE RULES

Berlin, via London.—The socialist newspapers publish the results of conferences by the party's reichstag members and members of the party concerned the socialists' peace aims and summarize these aims as follows:

Peace must be a permanent one. Germany's opponents must not be permitted to acquire any German territory.

Most favored nation clauses should be introduced into peace treaties.

Tariff walls should be removed.

So far as possible freedom of the seas should be established, the right of capture abolished and narrow passages should be internationalized.

Austria and Turkey must not be weakened.

Annexation of foreign territories violate the right of people to self rule and weaken internal strength and harmony of the German nation; therefore we oppose all plans of this sort of shortsighted politicians favoring conquest.

The party demands the establishment of an international court to which all future conflicts of nations may be submitted.

## INQUIRY REPORTS FILED

Investigators Agree on Inheritance Tax; Differ on Other Points.

Chicago.—Summaries of the reports, three in number, of the United States commission on industrial relations as to findings and recommendations for the information of congress, were made public here.

The reports agree on a federal inheritance tax and on the general plan for its use. The Manly report disagrees in recommending practically the single tax and other things.

The Manly summary finds that the causes of industrial unrest group themselves almost without exception under four main sources which include all the others. They are: Unjust distribution of wealth and income; unemployment and denial of opportunity to earn a living; denial of justice in the creation, in the adjudication and in the administration of the law; denial of the right and opportunity to form effective organizations.

## War Declared on Turkey by Italy.

London.—Italy has declared war against Turkey, and the Italian ambassador has left Constantinople.

The reasons given in the note for Italy's declaration of war were the support given by Turkey to the revolt in Libya and the prevention of the departure of Italian residents from Syria.
