The plans and detail covering carpenter work and painting may be had at this office on inquiry. Bids must be received not later than Saturday noon September 25th, 1915. Rollie W. Watson, Agent for R. L. Wade.

Rough lumber for sale. See Tillamook Feed Co.

## CAMPAIGN AGAINST SERBIA IS BEGUN

Probable Plan is to Connect With Bulgaria and Reinforce Turks.

Berlin, via London.—Official reports from Austrian and German headquarters and dispatches from the Balkan capitals show that the long-expected Teutonic campaign against Serbia has now begun.

Austrian and German artillery is bombarding Serbian positions south of the river frontier along the hundred mile front between the mouths of the Drina and Morava rivers.

This action undoubtedly is intended as a cover to the throwing of a force across the river and the seizure of a bridgehead, whence the new "steam roller" can be started. Just where a crossing will be attempted is unknown.

The shortest route to Bulgaria would lead through the northeastern corner of Serbia, where barely 30 miles of Serbian territory intervenes between the Bulgarian and Hungarian borders. The difficult mountainous country, the absence of railroads and the proximity of the Roumanian frontier, however, speak in favor of the old route of the crusaders further to the west through the broad and fertile Morava valley.

Through this valley run roads and a railway line to Bulgaria and Turkey. This railroad reaches the Danube at two points, Belgrade and Semendria, both of which are under bombardment.

## ALLIES GIVE STRONG HINT TO BULGARIA

Paris.—The entente allies have presented a joint note to the Bulgarian government asking in effect that it declare itself as between them and the central powers. The note, however, is not in the nature of an ultimatum.

The note, which was sent in pursuance of a decision by the allied powers to test the good faith of Bulgaria by submitting the recent concessions made by Serbia with the view of securing from Bulgaria a definite statement as to her position.

It points out that the allied powers are now prepared to offer the Serbian concession on Bulgaria's claims to disputed territory and asks Bulgaria if the concessions secured through the joint offices of the allies will bring about Bulgaria's co-operation with the other Balkan states.

## BRIEF WAR NEWS

Britain's losses in the war were officially announced to be 381,982 in killed, wounded and missing.

Meat products valued at about \$15,000,000 shipped last October to Denmark by American packers and seized by Great Britain en route, were declared confiscated to the crown by the British prize court before which the case was tried.

England's daily war expenditures exceed even the wildest dreams of financial experts. Moving a new credit of \$1,125,000,000, Premier Asquith announced in parliament that her daily average from July 18 to September 11 had been \$21,000,000.

The Germans have occupied Vilna and by a wide sweeping movement to the north of that city have succeeded in almost entirely surrounding a portion of the Russian army, which is fighting in the railway triangle between Vilna, Lida and Vileika.

Commanders of German submarines have been given strict orders, it has been learned authoritatively, that in case of doubt as to the intentions of liners they are to take the safe course and permit the ship to escape rather than run the slightest risk of capture.

After a bloody fight, French troops succeeded in crossing the Marne canal and gained a foothold on its right bank which the Germans had been holding in force since they were turned back in the great battle which checked their rush on Paris. If the French can hold their new position they will seriously threaten the German lines through Berry Au Bac, and thence northward to Rheims.

Labour Revolution Threatens England. London.—The executive committee of the Amalgamated Union of Railway Servants unanimously endorsed the statement in the house of commons of J. H. Thomas that conscription would bring on an industrial revolution and that the railway workers would stop work.

Russians Make Successful Retreat. London.—The Russians have escaped the toils of the Vilna salient and retired in good order, destroying all military works and a considerable portion of the railway, according to the Petrograd correspondent of the Post.

Successor For Dumba Named. Budapest.—A dispatch says that Kajetan von Marozynski, former Austro-Hungarian ambassador at Rome, has been selected to replace Dr. Dumba as ambassador at Washington.

## SUBMARINE ISSUE NEAR SETTLEMENT

Bernstorff Authorized to Negotiate Terms Direct With Washington.

Berlin, via London.—Full settlement of the submarine problem probably can be arranged by negotiation in Washington.

Count von Bernstorff, German ambassador to the United States, is in complete possession of information regarding the wishes and policy of Germany, and has power to negotiate terms of settlement with the United States, subject only to final revision and approved by the home government.

The German government will give its careful consideration to the evidence concerning the circumstances which attended the sinking of the steamer *Arabic*, submitted by the American government through Ambassador Gerard. Gottlieb von Jagow, the German foreign minister, made a statement to this effect in an interview.

Herr von Jagow said, in his interview, that Germany could not well repudiate the report of the commander of the submarine which sank the *Arabic*. Nevertheless, there was room for a difference of opinion, and Germany would examine carefully the evidence from Washington.

He repeated the assurance that enemy passenger steamers which respected the maritime code would not be attacked without warning, said explicit directions had been given the submarine commanders, and asserted the whole German government stood behind this policy.

Swedish Loan Promised Germany. London.—In return for Germany's consent to permit the exportation of coal and some other specified items to Sweden, five Swedish banks, according to the Copenhagen correspondent of the Exchange Telegraph company, have agreed to make Germany a loan of 40,000,000 kroner (about \$10,000,000).

Bryan Talks Peace Trip. Washington.—William J. Bryan announced that he had taken under advisement the suggestion from editors of foreign language newspapers published in the United States that he make a trip to Europe as a private peace envoy to the warring powers.

Haitian Government Recognized. Washington.—Formal recognition has been accorded by the United States to the new government in Haiti headed by President D'Artiguenavi.

## POWER CONFERENCE HELD BY 13 STATES

Portland, Or.—The Western States Water Power conference, a gathering of vital importance to the 13 western states in which are located the great majority of all the water power streams in the United States, opened in Portland Tuesday, September 21.

The three-day session of the conference was devoted to discussion of the best means of opening for development the undeveloped water power resources in the vast territory embraced by the states of Arizona, California, Colorado, Idaho, Montana, New Mexico, North Dakota, South Dakota, Nevada, Utah, Wyoming, Oregon and Washington.

The present conference is the result of a call issued by the Oregon legislature last winter, inviting legislatures of ten other states to appoint five delegates each to attend a conference to be held in Portland. The purpose of this conference was declared to be to "declare in more specific detail the principles which the water power and public land states of the west deem a just and equitable basis for developing their resources."

Wanted, to lease 20 to 50 cow dairy or will take milking job for man and two boys. Address J. F. Shultz, Barton, Ore.

## YOUNG MAN BE "PRUDENT"—STOP EXTRAVAGANCE—PUT YOUR MONEY IN OUR BANK

YOU'LL NEED IT SOME DAY

How many a young man is kept back from promotion or a junior partnership because he does not save a part of what he earns?
