FRIDAY SEPTEMBER 24, 1915.

STATEMENT OF OWNERSHIP
 C. E. Trombley, Editor, Publisher and manager. Ladd & Bush, Bankers of Salem, Or., mortgage holders.

Two outside agents have been, during the past week, taking orders for shirts and neck ties throughout our town. This is simply another avenue through which local money may go to outside firms without helping our town any. These agents may or may not give you better goods than our local people will. Regardless of this point, however, we believe in keeping our money at home. We have been told that some of our business men have patronized these agents. We do not know whether this statement is true or not, but if it is it is a rather inconsistent procedure. For one business man should not do that which he would object to if it were a case wherein his own interests were affected. Surely our gentlemanly friends have not gotten as partitioned that they can not find goods good enough for them at our local stores in the line of shirts and ties.

PRICE OF TILLAMOOK CHEESE.

Cheese has been on the down grade so far as price is concerned for some time regardless of the fact that there is no foreign competition. If the tariff on cheese was higher than Gilroy's kite, it would make no difference in the price of cheese today, regardless of the findings of Bro. Baker. The war has protected our cheese market better than any tariff could, still the price of cheese has been going down of late. We are pleased to note, however, that the late market reports state that the price will soon be on the upgrade again.—Herald.

Bro. Trombley overlooks one importer that affects our market very materially, namely, Canada. The Canadians pay no taxes here yet, under a Democratic free trade policy, they compete with our home producers without bearing any of our taxes. Every pound of Canadian cheese sold in the United States displaces just that much American made cheese. This is a fact that admits of no evasion by even so good a dodger as Bro. Trombley. While professing to be a friend of the American producer, who supports him, Bro. Trombley advocates a policy that invites competition against the very ones who feed him. Evidently Trombley will have to revise his policy or the local producer will tell him to look elsewhere for his support—to the non-American tax payer whom Trombley, and every other Democrat, is so solicitous about. Besides cheese is a luxury, not a necessity and in these good old Democratic times, the average citizen has a hard time to get the commonest necessities let alone any luxury.—Nehalem Times.

Bro. Rankin does not appear to have much sympathy or pity for the progressive democratic popocratic floggers and free trade advocates for the inspired editorial has aroused his indignation. Don't worry Bro. Rankin these so-called political "reformers" don't amount of a row of beans in the estimation of the citizens, who are now experiencing some of the reforms and paying for them by greatly reduced milk checks.—Headlight.

The foregoing paragraphs taken from the Nehalem Times and Tillamook Headlight, in answer to a late statement which appeared in the Herald, appear to us decidedly ridiculous. We would inform the brethren that in speaking of foreign competition we, of course, included Canada. It is difficult for us to understand what Editor Rankin is driving at in his reference to Canadian competition in our cheese market. The thought came to us that possibly our esteemed contemporaries do not know that Canada is a foreign country. We would advise them to brush the barnacles from their standpoint, hide bound brains and take their fifth grade geographies and find out where they live.

Let us reiterate: "Cheese has been on the down grade so far as price is concerned for some time regardless of the fact that there is no foreign competition (including Canadian Competition). If the tariff on cheese was higher than Gilroy's Kite, it would make no difference in the price of cheese today. The war has protected our cheese market better than any tariff could, still the price of cheese has been going down."

Now brethren in speaking of dodging, we defy you to dodge the above facts. We are sure that every time you endeavor to do it, your thick skulls and soggy brains will bunt up against something, but then you won't know it. We know you fellows are too dense to warrant consideration. We strike back because it is simply natural.

O. I. C. SWINE

I have some choice young pigs for sale, both sexes, the kind that mature very young. One of my herd boars weighed 620 lbs. at 18 months old. My hogs have won ribbons at county and state fairs. Phone or write for prices.

COMMUNICATION

Editor Herald:
 In regard to the Sunday law I would like to say this: If the Lord was as strict with his religions as the people are with theirs that the majority of them would have been in hell long ago.
 Respectfully,
 L. Stuiwenga.

Mrs. Koch will begin the Fall season at the new Studio, Sept. 20. She will devote an hour each week to Rhythmic games, practically the continuation of the work that Miss Griffith started with the Juniors during Chautauqua week. This work will be quite an advantage to music students and will be given free to pupils. Arrangements are now being made for lessons.

LOGANBERRY JUICE IS ON SALE IN NEW YORK

That Loganberry juice is finding favor with people all over the country is indicated by a report received by W. T. Jenks of the Oregon Fruit Juice company of Salem, this morning. O. L. Ferris reports that he has succeeded in establishing the loganberry juice in New York with the United Cigar Stores company there and with the Rickard-Hageman Drug company, the Henry Maillard company, confectionery, and the New York Board of Health restaurant.

SCIENCE AND PROGRESS

The production of mango is rapidly increasing in China.

Five-penny pieces of iron are being coined in Germany.

The only gem which cannot be successfully counterfeited is the opal.

For the first time in its history the United States now leads the world as an exporter.

Cuba's deposits of iron ore are estimated to contain all the way from 2,000,000,000 to 3,000,000,000 tons.

A fuel for internal combustion engines made in South Africa by a chemical process from paraffin is said to be superior to gasoline, as it leaves no carbon deposit.

According to a German scientist, a particle of water evaporated from the ocean is condensed and returns in ten days, but it remains there 3,460 years before being evaporated again.

The newest battleship building for the United States will be 1,400 tons larger than Japan's largest, 3,499 tons larger than Germany's, 3,000 tons larger than Great Britain's and 6,550 tons larger than anything France has.

Our largest cotton producing county, Ellis county, Tex., yielded 143,714 bales last year. This is more than six times the amount produced in the whole state of Virginia, and more than was raised in either Missouri or Florida.

Laboratory investigations of the "devil's claws," a hitherto worthless weed which grows abundantly on the waste lands of Kansas, Colorado, Texas and New Mexico, have demonstrated that an edible oil that may take the place of olive or cottonseed oil can be extracted from its seeds.

SOUTHERN PACIFIC SECURES "HIGHEST AWARDS"

The Panama-Pacific Exposition Company has announced the presentation of two "highest awards" to the Southern Pacific Company for its participation in the Fair. One is the highest award for "railway track, equipment, motive power and safety first appliances" and the other is the highest award for traffic promotion. They come in the nature of two banners,

specifying why they were given and bearing the official Panama-Pacific ribbon.

The railway track, equipment, motive power and safety first appliances of the railroad company are on exhibit in the Transportation building, and include, among other things, the old C. P. Huntington, first Central Pacific locomotive. In striking contrast to this, one of the oldest locomotives in the United States, is one of the Company's big Mallet engines used on the Tehachas.

The traffic promotion exhibit is contained in the Company's own building at the head of Palm Avenue near the Fillmore Street entrance. Here are rest rooms for men and women, the "Glade," with a miniature reproduction of noted scenic spots along the Southern Pacific, ticket offices and the Sunset Theatre, with motion pictures, illustrated lectures and organ recitals daily. Visitors are the Company's guests, everything being free.

BIG BALL GAME

On Sunday, Sept. 20, the farmers will endeavor to down Doc Koch's team in a fiercely contested game at the fair grounds. Admission free.

MEXICAN RECOGNITION SOON

Nations to Act Separately and Each to Judge Factions' Ability.

New York.—Secretary Lansing, representing the United States government, and the diplomatic representatives of Brazil, Chile, Argentina, Bolivia, Uruguay and Guatemala, are to meet here for the extension of formal recognition to a government in Mexico.

A formal statement issued by the conference declared that inasmuch as the factions themselves had failed to come to an agreement, recognition would be accorded to the de facto authorities possessing the "material and moral capacity necessary to protect the lives and property of nationals and foreigners."

Each of the several governments, it was announced, would itself "judge such a capacity, and recognition will likewise be extended by each government separately at such time as it may deem proper."

DUMBA PROTESTS RECALL

Takes Exception to Charge Made That He Was Conspiring in Strikes.

New York.—Ambassador Dumba of Austria-Hungary sent to Secretary of State Lansing a letter of protest against his recall. In it Dr. Dumba also complained of the handicap he was under in communicating with his government because of the censorship by the United States. He points out that the representatives of the allies are not under such restrictions.

In defense of his actions the ambassador discusses his intention to find other work for Austrian and Hungarian citizens employed in the manufacture of munitions in the United States.

Dr. Dumba takes exception to Secretary of State Lansing's charge that he conspired to having conspired to foment strikes in American munition works, but makes no explanation of the intercepted letter to the Austria-Hungarian minister of foreign affairs.

Explorer Stefansson Safe.

Nome, Alaska.—Vilhjalmur Stefansson, chief of the Canadian government exploring and surveying expedition that left Victoria in June, 1913, and who set out afoot over the ice with two companions from the shore of northeastern Alaska in March, 1914, to seek new land in uncharted seas, did not go to his death, as the world had begun to fear, as the power schooner Ruby has arrived from Herschel Island with dispatches from Stefansson.

SHORT NEWS NUGGETS

A petition for national suffrage signed by 500,000 women was started from San Francisco on its way to Washington.

The postoffice department announces automobile service on rural free delivery routes a complete success, and rapid extension of this service is looked for if congress does not interpose.

Right Rev. Thomas J. Conaty, bishop of the diocese of Los Angeles and Monterey, the most noted Catholic churchman of southern California, was found dead in his bed in a cottage at the Hotel Coronado, San Diego.

Federal indictments in connection with the Eastland disaster July 24, when the excursion steamer capsized in the Chicago river, causing the death of 812 persons, were returned against the managers and captain, charging conspiracy and criminal carelessness.

Clay Tallman, commissioner of the general land office, who visited Portland to attend the Western States Water Power conference, believes that the next session of congress will see a great deal of much-needed legislation enacted regarding general land affairs of the west.

HARMONY
 Mrs. Elmer Hopkins is on the sick list.

While crossing the bridge in her auto at the M. Hanenratt place last Tuesday, Mrs. Goldworthy had an accident which might have terminated seriously. A protruding piece of railing was struck with the result that the machine crashed through the railing of the bridge, but fortunately was brought to a standstill just as the front wheels had left the bridge. As it was a Ford car, we suppose the bridge got the worst of the deal.
 Dicky Krobe, 7 year old son of Mr. and Mrs. E. C. Krobe, who had an operation for appendicitis Monday at the Tillamook Sanitarium getting along fine at the time of writing. Dr. Wendt performed the operation.

G. G. Graves returned from a longed stay at the valley of the week.

A set of flat irons were stolen from a household which came into here lately, which is a warning in more than one way. The advice of one with the experience "don't talk back."

A baby girl was born Monday at the Tillamook Sanitarium. Mrs. Clarence Mallett. Congratulations.
