PREMIER VENIZELOS AND CABINET RESIGN

Greek King Informs Minister He Cannot Support Military Policy Against Bulgaria.

Athens—King Constantine of Greece has accepted the resignation of Premier Venizelos and his cabinet, according to official announcement here. Premier Venizelos announced in the chamber of deputies that the cabinet had resigned owing to differences with King Constantine. Sittings of the deputies were suspended. Venizelos explained that it was impossible for his cabinet to alter its program even to meet the wishes of the throne. Venizelos' resignation came when King Constantine informed the premier that he was unable to support his ministry.

The premier and his cabinet favored active military co-operation with Serbia and the allies against the threatened aggressions of Bulgaria and the Germanic allies in the Balkans.

The king, who is believed to lean toward Germany, is understood to have declared himself in favor of absolute neutrality, regardless of Bulgaria's action.

GERMANS ANNOUNCE BRITISH ATTACKS FAIL

Berlin, via London.—British counter-attacks north of Loos have failed, the official statement claimed. French attacks southwest of Arras, east of Souchez and north of Neuville were repulsed.

Capture of 10,731 men and 211 officers around Arras and in the Champagne was claimed.

"In the Champagne," said the statement, "the French attacked on a wide front east of Auberive. This failed except at one point where the enemy succeeded in penetrating our advanced positions. Making a counter-attack, we took 71 prisoners and killed the remainder who had penetrated."

Concerning the eastern front, the statement said:

"General von Linsengen's forces stormed Korwina, taking 1300 prisoners. A Russian attempt to pierce our lines west of Tarnopol failed with heavy losses.

"Field Marshal von Hindenburg repelled attacks south of Narocz near Lake Spigla."

RUSSIANS ON OFFENSIVE

Czar's Force Has Malted the Kaiser's Advance in the East.

London.—Russia is not only holding her own along the entire eastern fronts, but at some points, notably in Galicia, the czar's armies have assumed the offensive and are delivering heavy blows at the invaders.

These, according to the German accounts, have been repulsed, but it is evident Russia has been for the time at least relieved from the tremendous German pressure to which she had been subjected for the last six months. This is no doubt due to the withdrawal of a strong contingent of the Teutonic armies to assist in the concerted attempt to sweep through Serbia to the Dardanelles.

Russian Ultimatum Sent to Bulgaria.

Petrograd, via London.—The Russian minister has been ordered to leave Sofia unless within 24 hours the Bulgarian government openly breaks with Austria and Germany and sends away the Austrian and German military officers now in Bulgaria, according to the semi-official news agency.

Russia's ultimatum to Bulgaria expired at 4 o'clock Tuesday, but so far as known, no answer had been received and none was expected.

French Troops Landed to Aid Serbia.

Paris.—The resignation of Premier Venizelos of Greece will not stop the landing of troops for Serbia's defense, it was officially announced after the French cabinet held its session with President Poincaré.

Seventy thousand Frenchmen landed at Salonika with the tacit consent of Premier Venizelos, though in order to comply with Greek laws a formal request was sent France.

BRIEF WAR NEWS

Heavy fighting is still in progress in the Artois region of France and the bombardments are going on in the Champagne region and in the Vosges mountains.

Russia has been relieved, to some extent, by the withdrawal of German troops to meet the offensive in the west and to supply a contingent for the enterprise against Serbia. Russia appears to be holding her own along virtually all her front.

France and Great Britain already have taken military measures to defend Serbia and Greece against Bulgarian aggression. The indications are that Italy and Russia are co-operating with France and England in the execution of this joint movement.

The first week of the allies' big offensive in France and Flanders ended with nearly 1,000,000 men battering with undiminished fury in the Artois and Champagne. Losses cannot be estimated. The allies declare they have captured nearly 30,000 and slain more than 150,000 Germans. Berlin reported allies' losses as "enormous."

A British report from Field Marshal Sir John French says the Germans northwest of Hulluch have recaptured the greater portion of the Hohenzollern redoubt, which was taken from them last week. Numerous other attacks over the open against the British trenches between the quarries and the Semedes Hulluch road were repulsed with severe losses.

CHAMBERLAIN URGES NATIONAL DEFENSE

Portland.—Establishment of military training in schools, development of a military system similar to that of Switzerland, development of a fleet, second to none in the world, and placing of our insular possessions on practically a war footing, were measures urged by Senator Chamberlain, chairman of the senate committee on military affairs, who addressed the civic league on the subject of adequate military preparedness for the United States.

"While America is advanced in her views, and while she has the diplomacy of truth and fair dealing, over the water the nations still have the old Machiavellian theory of untruth in diplomacy and of force, and if the United States is to maintain herself as an independent power in the world, she must be in a position to protect herself against aggression from them."

WILSON FAVORS SUFFRAGE

Will Vote For Amendment in New Jersey.

Washington.—President Wilson announced he would vote for the woman's suffrage amendment at the New Jersey special election.

The president authorized the following announcement of his position:

"I intend to vote for woman suffrage in New Jersey because I believe the time has come to extend that privilege and responsibility to the women of the states, but I shall vote, not as the leader of my party in the nation, but only upon my private conviction as a citizen of New Jersey, called upon by the legislature of the state to express convictions at the polls."

"I think New Jersey will be much benefited by a change. My position with regard to the way this great question should be handled is well known. It should be settled by the states, not by the national government, and in no circumstances should it be made a party question. My view has grown stronger at every turn of the agitation."
