### DROWNING AT THE BAR

From Courier:

Another drowning occurred at the  
Nestucca bar, when C. O. Woolsey lost  
his life in the breakers yesterday after-  
noon. Mr. Woolsey and a young man  
by the name of George Corall, of  
Woods, were fishing the bar when they  
got too far out and lost control of their  
boat. After the boat had filled with  
water the younger man caught hold of  
the side of the boat and retained his  
hold until rescued. Joe Everest and a  
boy by the name of Buckbee saw the  
predicament their fellowfishermen were  
in and with a brave heart and a giantic  
amount of nerve manned a boat and  
buffeted the waves until the stranded  
boat was reached. They then brought  
the young man, who by this time had  
become nearly exhausted, to shore.  
Mr. Woolsey was not seen after the  
first trouble. The accident occurred  
about 4 o'clock yesterday afternoon.  
Mr. Woolsey is well known to many of  
the older citizens, he having lived in  
the south end of Tillamook County a  
number of years ago and about a year  
ago returned and took up the occupa-  
tion of fishing. He was 50 years of age  
and has a son living at Sheridan, who  
was notified by wire last evening.

### SPECIAL MEETING OF BAY CITY PORT

From Examiner:

At the special meeting of the Port  
of Bay City, held here on Monday  
afternoon, the balance of \$900 due for  
the improvement work on the Tillamook-  
Bay City channel, was ordered  
paid. The premium on the surety bonds  
was ordered paid to the Cleveland  
bank. The latest advice from the war  
department states that the port has a  
balance on hand in the Cleveland bank  
of \$287,000. Another communication  
was received stating that Major Wil-  
liams has succeeded Colonel Jav. J.  
Morrow in charge of this department  
and that the major would be in this  
city some time during the present  
month to look over the progress made  
with the improvements on the bay.

A letter was received from the light  
house department regarding the in-  
stallation of 12 lights to mark the  
channel; action was deferred until the  
dredging work is a little further along.

It is expected that the dredge will  
be in operation shortly as the officials  
in charge of the work are in Portland  
at present endeavoring to hurry the  
pontoon; the delay in the shipping  
of these is what is holding the work  
back, it is expected that these will  
arrive this week. Several little matters  
that had to be taken care of before  
work was started; such as building  
scows and making ready the living  
quarters of those who will live aboard  
the dredge. have all been done.

### PARCEL POST SOCIAL A SUCCESS

The Parcel Post Social which was  
given by the ladies of the Presbyterian  
Church at the Guild Hall on Friday  
evening was a success in every way.  
The attendance was good and the lad-  
ies netted a neat sum for their trouble.

A fine program was rendered con-  
sisting of numbers by McGee's orches-  
tra; a reading by Prof. Crockett of  
our high school; a vocal duet by Mrs.  
Pozzman and Miss McKown; a vocal  
solo by Miss Mabel Goynes; and a vocal  
solo by Miss Ruby McGee, accom-  
panied by Chester McGee on violin and  
Miss Gaylord on Piano.

Games were played and there was a  
parcel for everybody, the same being  
sold at 25c and 50c.

Splendid refreshments were also  
served.

### SHINGLE MILL TO START CUTTING SOON

From Wheeler Reporter:

The Jensen Shingle Mill, which has  
been leased to F. B. Sturgis, has re-  
ceived a thorough overhauling during  
the past several weeks. Mr. Sturgis,  
the new manager of the mill, fired up  
the boilers this week for the first time  
in the past year. Everything about  
the mill is now in good running order  
and it is expected that cutting opera-  
tions will be started in a very few days.

The crews which Mr. Sturgis has  
working in the woods are getting out a  
considerable number of cedar bolts and  
with the supply of cedar logs which  
are in the North Fork of the Nehalem,  
and which will come down with the  
first freshets, the mill will have suffi-  
cient logs to keep operations going all  
winter. Such operations throughout  
the winter will give employment to 12  
or 15 men and will mean considerable  
to Wheeler.

### CHEESE MARKET IS FIRMER.

From Journal:

Market for cheese is firmer and there  
are indications of another advance in  
the price. With great strength in the  
eastern situation and with the coast  
price still low compared with what the  
product can be landed here, the out-  
look is decidedly favorable for values.
