regrets won't bring back the money you have extravagantly spent. One sure friend to a man in trouble is money in the bank. The man who banks his money is the man who gains the confidence of his employer and holds his job. Money in the bank also means CREDIT and CONFIDENCE. No man can afford not to have the confidence of his fellow men.

Make OUR bank YOUR bank. We pay 4 per cent interest on Savings Deposits. **Tillamook County Bank**

## A Serious Stabbing Affray

Man Giving His Name as Jas. Donovan Stabbed By Another Stranger, Tom Cooney

Last night at about seven o'clock two strangers, one giving his name as Jas. Donovan and the other giving his name as Tom Cooney, got into a fight on Third Street, just east of the Tillamook Hotel and Cooney stabbed Donovan with a large knife of some kind, very severely.

The two men had been in the city for about two days and were repairing umbrellas. They had been drinking some yesterday and for some reason got into a quarrel, which ended in Cooney attacking Donovan with a knife and stabbing him in seven different places. Two of the knife thrusts cut deep into Donovan's lungs and one cut one of his ribs in two.

The injured man made his way at once to Dr. Wendt's office but as the doctor was not there he came down the stairs and onto the street where his condition was noticed, and the doctor was at once secured. He is now at the Tillamook Sanatorium under the care of Dr. Wendt. The doctor says he is in a very serious condition.

At first Donovan would not tell who did the stabbing, but this morning he said it was Cooney. Cooney skipped out last night and has not been seen since. The officers are searching in all directions for him.

## CARE OF THE LOGANBERRY VINES

Oregon Agricultural College, Corvallis, Oct. 18.—If all old canes have not already been removed from the loganberry vines this should be done as soon as the grower can get around to it," says Professor V. K. Gardner, pomologist of the Agricultural College Horticulture department. "The old stock should be gathered up as completely as possible and burned. The old canes are of no value to the new vines but are a source of possible infection and infestation of diseases and insects as long as they are left standing.

Fall spraying with Bordeaux, 5-5-50, is also a good practice. It is not certain that this treatment will entirely prevent anthracnose but it certainly should reduce the damage in case of attack.

There is also a question as to the desirability of fall training of the new vines. When tips are to be taken for propagation next spring of course the vines should be left on the ground. Also in severe winter climates this practice gives better protection from extreme cold and leaves the vines in better condition for early spring growth. In most places of Western Oregon the danger of winter injury is very slight so that no great chance is run in training up the vines in the fall.

## SCIENCE AND PROGRESS

In the last thirteen years the Fourth of July casualties numbered 1,862 killed and 43,951 injured.

To prevent the spread of the plague Tokyo started a campaign in which fifteen million rats were killed.

There are now three times as many people in the United States as there was when Fort Sumpter was fired on.

Great piles of refuse around Scotch iron and coal mines, regarded for years as waste material, are being utilized for the manufacture of bricks.

Potash deposits covering more than 250,000 acres were discovered three years ago in Spain, near Barcelona. The product, however, is not commercially available.

French scientists have found that a cactus growing prolifically in Algiers can be made to yield about fourteen per cent sugar and from forty-five to sixty per cent alcohol.

Arrow Rock dam, just completed near Boise Idaho, by the United States reclamation service is 148.5 feet high, measured from the low points of the foundation to the top of its surmounting crest, and is said to be the highest dam in the world.

At Pittsburg Pa., imbedded under 100 feet of solid earth, a silver vein, more than a mile long and seven and a half feet deep, and said to contain nearly \$1,000,000 worth of pyrites silver ore has been discovered on the United States bureau of mines site.

Prof. Michael I. Pupin, of Columbia University, one of the foremost of electric engineers, whose inventions have made long distance communications by wire possible, announces that he has perfected another invention which will eliminate the chief difficulty in the path of wireless telephony and telegraph—static disturbances. "There is nothing now to prevent the transmission of messages by wireless telephone to any part of the globe," Prof. Pupin

## TEACHERS' INSTITUTE

The Tillamook County Teachers' Annual Institute convened at the high school building, Monday morning at 10 a. m. with about one hundred teachers in attendance. Prof. W. S. Buel, county Supt. of schools made an address of welcome and outlined briefly the work of the institute. On account of some of the instructors missing the train in Portland, the program as previously announced was changed.

Mr. Buel's address was followed by Mrs. M. L. Fulkerson, whose subject, "A survey of the surveyed," was ably presented and greatly appreciated. Mrs. Fulkerson is an instructor of many years' experience and has many friends among the teachers of Tillamook County.

Her address was followed by Charles H. Jones, editor of the Oregon Teachers' Monthly, the leading educational journal of Oregon, who spoke upon the subject of "Teachers' certificates and examinations." Many interesting explanations were made by Mr. Jones. At noon a fine lunch was served by the girls of Sophomore class of the high school. The girls certainly did themselves proud.

The afternoon session was opened with music in which everyone took part. Mrs. H. C. Hanson of the city high school was then introduced and spoke on the subject of "Supplementary Reading." Many good points were made by the speaker, which were very helpful to the teachers, especially the younger ones.

Mr. Buel, then, after a few remarks concerning school exhibits at county fairs, introduced Mr. J. H. Dunstan, president of the county fair board, who gave the teachers a splendid address which was listened to attentively. Mr. Dunstan went into the subject thoroughly, dealing with the progress of the county fair in our county for the past four years and further stating what the state and county are doing in support of the movement. Mr. Dunstan took great pride in exhibiting a blue ribbon won this year by Tillamook County at the State Fair for the best general display of all coast counties in the state. The president of the fair board is thoroughly imbued with the fair spirit and the teachers of the county are getting the contagion.

Certainly Mr. Dunstan and Mr. Buel are giving the teachers every opportunity to show what their schools can do in making an exhibit at the county fair. Mr. Dunstan then asked for suggestions from the teachers regarding change in future premium lists and a very interesting discussion followed.

M. S. Pittman, of the State Normal at Monmouth, was next on the program and spoke on the subject "A Better Position." Mr. Pittman is a favorite among Tillamook County teachers who has endeared himself to them second to none in the state.

An evening session was held at which able addresses were made by Dr. B. W. DeBusk of the state University and Prof. E. D. Ressler of the Oregon Agriculture College.

## EVANGELISTIC MEETINGS

AT CHRISTIAN CHURCH BEGIN OCTOBER 24.

Jesse R. Kellem, who at one time was known throughout the country as the boy Evangelist and who is now only 24 years old will begin a meeting next Sunday at the Christian Church. His brother Homer who is only 21 will lead the singing. Homer Kellem was soloist for the University of Oregon Glee Club last summer in its three months tour of Oregon. He has written several songs which will be used during the meeting.

Jesse Kellem has had fifteen hundred conversions already in his meeting. Its your privilege to hear this young man next Sunday morning.

Come at 10 a. m. in time for our great Sunday School Rally and see a "Front Rank" Bible School with more than 300 in class attendance.

"DROP IN AND LOOK AROUND"

## Industrial Review Of Oregon

News Items about Statewide Industries Improvements and Building on The Increase

Salem, Oct. 21.—The Marshfield Record of Oct. 8 contains four pages of views of the work being done by the S. P. Co. on their new line to Coos Bay, including a view of the new \$1,500,000 bridge across the bay. These are the best photographs yet published and give the world's first graphic picture of the immense work being done in that section by the railroad.

Revival of railroad activity in Oregon is the surest indication of returning prosperity. Eugene is to have a factory for the manufacture of all kinds of wooden handles.

A \$500,000 timber sale in Coos Co. to a Minneapolis syndicate is reported by Frederick A. Krebs.

Triney drivers in Portland reduce fares to 6 for a quarter on the theory that the street car company cannot meet the cost inside a year and a half owing to present ruling of Public Service Commission. To a fair minded man this looks unjust. Trineys are common carriers as much as street cars and should be under the same identical rulings as the street cars.

Powers is to have a new bank. Toledo—Geo. W. Moore Lumber Co. resumes operations on ten-hour day.

According to reports Newport offers \$100,000 bonus to the P. & W. R. R. N. Co. as inducement for early construction.

Eugene—Booth Kelly Lumber Co. has let contract for logging between 3,000,000 and 10,000,000 feet of timber. Wood growers are receiving from 22 to 25 cents for fall clip.

Mollala Electric Co. will furnish Buttville with electric lights.

Amity has disposed of \$15,000 bonds to build a water system.

The record of deaths of pedestrians and automobile parties on railroad crossings is appalling. It is impossible for the railroad companies to always protect a person against their own foolishness. Stop, look and listen when you come to a railroad crossing.

L. C. Hoshett of Newport has been canning herring the same as sardines and salmon with satisfactory results. Florence has sold \$10,000 bonds for City water system.

J. H. Newman is developing sales territory for Siuslaw salmon, out of Eugene.

Florence expects to have a fruit cannery next year.

The next time you hear a mans name proposed as a candidate for an important office, ask yourself the question, "can he run a business of his own successfully?" If his record shows that he cannot, why should you expect him to make an economical and efficient officer to spend your tax money? The time to lower the tax rate is before the election by choosing men of business ability. A man seeking public office should be required to show that he has experience that would justify his holding the position the same as he would have to do if seeking employment in private enterprise.

Only 19 miles of rails remain to be laid before Coos Bay is connected with the line of the S. P.

Corvallis is planning on a Carnegie library.

J. R. Job, Veneta, has started a box factory and mill.

Klamath Falls new mill of 50,000 feet capacity being erected near Modoc Point.

Columbia River Highway may be used as far as Bridal Veil.

Head of trading stamp concern promises to buy much goods from Oregon factories.

Grants Pass—Contract for bridge across Sucker Creek has been let.

Marshfield—Bids for paving on Front Street were awarded to Warren Construction Co.

Florence will spend \$5,000 on plank road to North Fork.

Surveyors are laying out new road from Comstock to Canyonville.

Movement on foot to enlarge Springfield high school.

The fare from Vancouver to Portland has been reduced from 30c. to 25 cents by the P. R. L. & P. Co.

## FOOTBALL GAME.

Friday afternoon at the Stillwell Park, the High School football team will clash with the town team for the city championship.

The game promises to be fast and exciting as the teams will appear on the field on equal chances. The school team has had a little more practice but is outweighed by the town team by nearly 20 pounds to the man.

Arthur Wallace captains the town team which is composed of old time athletes. The game will be snappy and a fight to the finish.

The game will be called at 3:30 prompt and an admission of 15 cents will be charged to pay for the high school hall.

## HIGH SCHOOL ELECTS FOOT BALL CAPTAIN

Earnest Crockett who entered High School recently from Pendleton, was elected football captain, Friday. He has taken an active part in both debating and athletics since he entered school.

Mr. Onthank has received a letter from Alfred Boquist, who is attending Agriculture College at Corvallis, stating that he is very well satisfied with the work there.

The Fourth and Fifth grades are in the midst of a contest for perfect lessons in spelling. At present the Fourth Grade is ahead, but the Fifth is beginning to crown the Fourth Grade for first place.

Miss Sanders has recently arrived from Iowa to take charge of the Second Grade.

Arlene Burge, who is finishing her practice teaching course this year is doing special work with a group of First Grade students who need special assistance. The aim in all of the practice teaching courses this year will be to strengthen the weaker students and bring them up to grade. This will give the students taking the Teacher's Training Course the practicing teaching required and will do work which is much needed in schools, without any additional cost to the district.

The High School has recently received a case and several smaller packages of books from the State Library, for use in the history work in both grades and High School, for debating and other work. These books, which cost the district only the cost of transportation, which does not amount to more than a few cents a volume, are of great value in the courses mentioned. Last year some of the books which were kept only for one term were read by twenty or even more students.

## COUNCIL PROCEEDINGS

The Common Council of Tillamook City, Oregon, met in regular session October 18th, when were present, Hon. S. A. Brodhead, Mayor, Councilmen G. B. Lamb, John Kelson, M. Melchior, G. A. Edmunds, City Attorney H. T. Bots, Marshal N. J. Myers, Recorder John Aschm, where upon the following proceedings were had to-wit:

The minutes of the meeting held Oct. 4th were read and approved.

The matters of adjustment as to Third Street with Thayer, and the refund from Giebisch & Joplin for gravel hauling were continued.

The Ordinance Committee made report as follows on the Standard Oil Company ordinance; Mr. Melchior favored letting the matter go before the voters for their action while Mr. Edmunds and Mr. Kelson favored the City Council granting a franchise to the Standard Oil Company, it appearing to the majority of the committee that the council had full power to act. Mr. Edmunds further stated that he had personally interviewed the manager of the Board of Underwriters and had been assured that the erection of the proposed plant would have no effect on insurance rates in the city at large.

Ordinance No. 302 passed on third reading.

Sidewalk resolution adopted. Lots 6, 7, and 8 Stillwell Park Addition.

It was moved, seconded and carried that a request be made of the Port of Tillamook to have Hoquartion Slough cleared of snags at the new bridge now under construction, and that the Mayor be empowered to act on behalf of the city in this matter.

Stillwell Park resolution adopted. Changing the boundary of city tract.

A communication from the First National Bank was read making a demand for interest due on certain improvement bonds, and it appearing that many of the assessments were at this time delinquent, it was ordered upon motion made, seconded and carried that the City Treasurer be instructed to furnish the council with a list of all property holders delinquent as a preparatory step toward taking action to collect these assessments.

There being a vacancy in the Library Board the Mayor appointed C. J. Edwards for a term of three years to fill same. Upon motion made, seconded and carried the Council confirmed the appointment.

Upon motion made, seconded and carried, the Mayor was empowered to take the necessary steps to provide for the handling of traffic during paving of the South end of Second Ave. East.

The matter of appointing viewers for the opening of streets between Miller and Thayer Additions were continued.

## ARE YOU GOING TO BUILD?

Barns and farm buildings of all kinds erected by experienced carpenters, either by contract or days work. Plans and estimates furnished for all kinds of carpenter work. J. M. Lilaberg, Mutual Phone.
