THE "PRUDENT MAN" IS NEVER OUT OF A JOB AND WITHOUT MONEY IN THE BANK

Regrets won't bring back the money you have extravagantly spent. One sure friend to a man in trouble is money in the bank.  
But the man who banks his money is the man who gains confidence of his employer and holds his job.  
Money in the bank also means CREDIT and CONFIDENCE. No man can afford not to have the confidence of his fellow men.  
Make OUR bank YOUR bank.  
We pay 4 per cent interest on Savings Deposits.

## RACE TO TURKEY IN EXCITING STAGES

Bulgarians Hold Railroad From Nish to Salonika, Cutting Off Reinforcements for Serbs.

London.—The race for the road to Constantinople has reached an exciting stage. The Bulgarians are within a few miles of forming junction with their Austro-German allies, while the French in small force already have joined the Serbians.

With Uskup in their possession the Bulgarians now hold with strong force the Nish-Salonika railroad between Vranja and Uskup, a distance of about 50 miles. They have thus cut direct communication between Nish and Salonika, leaving open to the allies only the uncertain means of transit over the Monastir-Prishtina lines.

Communication between the Austro-German and Bulgarian armies is on the point of being established, and the dispatch of munitions to Constantinople is expected to begin within a few days, according to information from Hurn-Severin, Roumania.

This communication is being effected in the northeastern corner of Serbia. The dispatch describes the Austrian occupation of Tekla, which was accomplished after a bombardment lasting many hours, Austrian troops crossing the Danube in 86 boats.

It is semi-officially announced in Berlin, says a dispatch from Rotterdam to the Daily Telegraph, that all the important harbors on the Danube are in possession of the Bulgarians, and that further access for the Serbians by way of Roumania is therefore stopped.

Berlin, via London.—Direct connection between the Austro-German forces in Serbia and the Bulgarian army of General Boyadjeff has been established on the Danube river to the east of Irza Palanka, according to the official announcement given out by the German army headquarters staff.

## 1000 BULGARS DIE IN BOMBARDMENT

London.—The bombardment of Deagach caused the death of ten civilians and more than a thousand soldiers, and a large number of soldiers were wounded, says a dispatch from Athens.

A large proportion of the military casualties, the correspondent adds, were in the barracks which housed the Fortieth Bulgarian regiment. The barracks were crowded with soldiers, who were preparing for their meal, when the bombardment was opened with accurately aimed shells, which demolished the barracks, burying the occupants in the ruins.

Troops engaged in digging trenches around the town also sustained heavy losses.

Fires caused by the exploding shells destroyed the railway station and surrounding buildings, doing enormous damage. It is said that the entire loss from the bombardment, which lasted four hours, will be several million pounds.

## NEW ITALIAN CAMPAIGN ON

General Attack Along Entire Front Has Been Inaugurated.

Udine, Italy, via Paris.—The Italian army is making a general attack along the whole line from Switzerland to the Adriatic.

In the preceding five months of the Austro-Italian war, the efforts of the Italians have been directed at the penetration of Austrian territory and capture of strategic points for the purpose of securing Italy against the possibility of Austrian invasion.

In the opinion of the Italian general staff, this has been accomplished, and the war is now entering its second phase.

Germany Defends Shooting of Nurses.

Berlin, via The Hague and London.—Dr. Alfred F. M. Zimmermann, German under-secretary for foreign affairs, has issued an official explanation of the recent execution in Belgium of Miss Edith Cavell, a British nurse.

## DRY QUERIES ANSWERED

Attorney General Brown Says Physician May Give Liqueur.

Salem.—In answer to an inquiry from a district attorney of Oregon regarding several phases of the prohibition law effective January 1, 1916, Attorney General Brown holds that in a case wherein the owner of a drug store is not a druggist but employs a registered pharmacist to sell drugs and dispense and compound prescriptions, the pharmacist must execute and file the \$250 bond required by section 2 of chapter 141, general laws of Oregon of 1915, before intoxicating liquor can lawfully be sold at the drug store. Other rulings are as follows:

Importance of temperate habits of a person would be no defense in a case wherein a sale is made upon an affidavit by a pharmacist.

From and after January 1, 1916, a registered pharmacist cannot fill a prescription for intoxicating liquor other than alcohol.

A prescription stating that the alcohol is required for medicinal use is not sufficient, and such prescription must show on its face the purpose for which the alcohol is prescribed.

A physician can administer intoxicating liquor to a patient when the same is actually necessary as a medicine in the treatment of disease.

## Dory to Take Long Trip.

Albany.—In a boat which they expect to use in the halibut fishing business of Yaquina Bay, Captain L. A. Wood and son, Charles Wood, of this city, left Albany to go to Newport by water. They will travel down the Willamette to the Columbia and thence to the ocean and down the coast to Yaquina Bay. Their boat is a dory 16 feet long with a nine foot beam.

## Grant Conference is Set.

Salem.—Thursday, November 13, was set by Governor Withycombe as the tentative time for holding the meeting between the committee named by the recent Oregon-California land grant conference and representatives of the Southern Pacific company. The executive has written to the members named by the conference to ascertain if the date selected will be satisfactory.

## Baker Plant Disappoints.

Baker.—The official tests of the Baker municipal power plant, following the completion of a new 24 inch steel line, from the top of the hill to the penstock at the plant, a distance of 1200 feet, proved a disappointment. The engineers estimated that 100 kilowatts could be developed at the plant, but 56.8 was the best recorded.

## Cement Mixer Kills Man.

Roseburg.—Charles L. Robbins, formerly of Milton, was instantly killed at Table Creek, about 40 miles south of Roseburg, when he fell into the mouth of a cement mixer which he was operating.

We have closed out the piano business and will sell what music rolls we have on hand at one half price. Jones-Knudsen Fur. Co.

every jot and tittle of the evidence with the greatest care and finds the verdict, though regrettable, to be just.

## 10 Bandits Rob Train.

Oklahoma City, Okla.—A band of 10 robbers held up Missouri, Kansas & Texas passenger train No. 9, south-bound from Chicago to San Antonio, near Onapa, tied up the crew with ropes, placed a guard over the passengers and looted three express cars.

The holdup was one of the most desperate and best planned ever attempted in this section. The robbers are believed to have secured about \$5000 from the one express safe they succeeded in opening.

## LAMAR'S Variety Store

Tillamook, Ore.

"DROP IN AND

LOOK AROUND"

## TRUST IS ORGANIZED TO HANDLE EXPORTS

Company, Recognized by U. S., Will Supervise Shipments to Europe.

Washington.—Formation of an American Trust company, similar in organization to The Netherlands Overseas trust, to handle American products abroad with assurances that they will not reach the belligerents, was announced by Secretary Redfield of the department of commerce.

This was regarded as meaning that the American Overseas Trust company will assure the European governments with which it deals that no goods exported under its supervision will reach opposing belligerents.

"The object of the scheme," Secretary Redfield said, "is to secure the movement of neutral commerce under such authoritative auspices as to assure that it will not be interrupted. That part of the plan to be undertaken by the department of commerce, under the arrangements discussed, would be the ascertaining, by commercial attaches, commercial agents and other officers, that the operations of the plan were strictly impartial and neutral."

"The new company would be open to assist all truly neutral American commerce to all countries with which it is to operate. The machinery would not be officially a part of the government and it would not be a money-making scheme."

## GERMAN LIEUTENANT ARRESTED FOR PLOT

New York.—In the arrest of Albert Fay, a lieutenant in the German army, and Walter Scholz, his brother-in-law, police and federal secret service agents believe they have detained leaders in a plot to wreck American munition plants and ships carrying munitions.

Fay, who is one of the five men charged with conspiracy to delay or prevent the sailing of war munitions ships from this country, gave a detailed confession to William J. Flynn, chief of the secret service.

In it, according to the federal authorities, he repeated his former confession made to the police at Weehawken, N. J., but said, in addition, that his mission, besides placing bombs on the propellers or rudders of ships, was to endeavor to bribe the commanders of Russian vessels. He said the plan he was to endeavor to carry through was to induce a Russian commander to run a cargo of copper into a German port, at which place a large sum of money was to be paid to the Russian.

Government officials said they were inclined to give little credence to this phase of Fay's story, but it was made a part of the evidence on which the men were held over for further hearing.

## LEAGUE CONTRADICTS BRYAN

Ex-Secretary Invited to See for Himself Charges He Made Untrue.

Washington.—The Navy League of the United States, through its secretary, Arthur H. Dadmun, sent a letter to William J. Bryan, ex-secretary of state, inviting him to call at the offices of the league in the Southern building, Washington, and make a thorough inspection of the league's accounts and subscription lists.

The navy league's letter was sent as a result of frequent charges which Mr. Bryan has made both in the Commonsense and in his publicly spoken utterances that the navy league was supported by a body of malefactors of great wealth allied with the alleged armor plate ring for the purpose of maintaining a clamor of war and so improving business in armor plate. According to Mr. Dadmun, the navy league has never at any time received any contribution from any armor plate ring and does not know of the existence of any such body.

## Railroads to Aid Embargo.

Washington.—The state department is asking American railroads to cut off supplies of fuel to the enemies of the de facto government in Mexico.

## NON-PARTISAN PLAN LOST IN CALIFORNIA

San Francisco.—The proposition to make all state officers non-partisan was rejected at a state-wide election by more than 19,000 majority. There went to defeat with it all of the proposals submitted.

The vote on the rural credits amendment, under which state banks would lend money to ranchers on crop security, was: Yes, 38,534; no, 62,819.

Eight other amendments also were voted on.

The result of the election, it was generally agreed, will necessitate a special session of the legislature in order to readjust the primary election law. The referendum was invoked against only part of the amendments to this law, and the defeat of this part leaves the measure in a hopeless tangle.

The non-partisan plan was the main issue of the election. It was advocated as a progressive party measure, having the support of Governor Johnson and the state administration. The governor and some of the state officers campaigned vigorously for them and the small total available at a late hour left the possibility that the tide might be turned.

## REPORTED SUICIDE ROILED

Lloyd Chick, Alleged Dead Man, Insists He is Labeled.

Portland, Ore.—After four persons, including the Spokane fiancée of Lloyd W. Chick, of Oakland, Cal., had identified as his the body of a suicide at the morgue here, Chick in the flesh appeared with an indignant demand that the police and coroner cease to advertise him as a suicide.

The suicide was found hanging in the men's rest room in a plaza block and two women friends and one man identified the body as Chick's. One of the women said Chick had quarreled with Miss Florence Alexander of Spokane, his fiancée, and had threatened suicide.

Chick himself, while at Amity, Ore., read in Portland papers of his supposed suicide, and after telephoning to the coroner came here.

## Postmasters Are Warned.

Washington.—Postoffice burglaries have been so numerous of late that an order has gone forth to all postmasters except of the first class throughout the country to keep on hand a smaller number of stamps and other papers of commercial value and to guard them more carefully.

## Bench Post Filled by Gov. Lister.

Olympia, Wash.—Governor Lister gave politicians a complete surprise by appointing Frederick Bausman, of Seattle, to the supreme bench to succeed Judge Herman D. Crow, who died last week.

## THE MARKETS

Eggs—37c.

as a supplementary proceeding to the embargo on arms and ammunition.

## Bryan Fighting Ohio Liquor Traffic

Lancaster, O.—William J. Bryan began his campaign for statewide prohibition in Ohio here with a speech favoring the proposed prohibition amendment which will be submitted to Ohio voters in the election of November 2.

## 30,000 March in Suffrage Parade.

New York.—Upwards of 30,000 men and women marched up Fifth avenue in the great suffrage parade, the largest of its kind ever held in the United States.
